**David Lucas**

*The Boy and the Whale* Mordicai Gerstein, 2017-11-21 A boy and his father discover a whale tangled in their only fishing net. Is the whale dead? While the man worries about losing their net, the boy worries about the whale. He remembers the fear he felt when, caught in a net himself in childhood, he almost drowned before being rescued by his father. When the whale blinks an enormous eye, the boy knows that he has to try to save the creature, no matter how dangerous doing so may be. Expressive and perfectly paced, this powerful story, *The Boy and the Whale*, by Caldecott Medal-winner Mordicai Gerstein was inspired in part by a real-life video of a whale's rescue, and the creature's joyful dance through the waves after being freed.

Gopher to the Rescue! Terry Catasús Jennings, 2012 Includes 4 pages of learning activities--P. [4] of cover.

**The Great Monkey Rescue** Sandra Markle, 2015-08-01 Golden lion tamarins are found only in Brazilian forests. These small, remarkable monkeys once had plenty of space to roam and claim family territories. But years of deforestation caused their numbers to shrink. They were in serious danger of becoming extinct. To help, scientists studied the animals in zoo settings. But they faced several mysteries. Why weren't golden lion tamarins reproducing in zoos? If scientists reintroduced zoo-raised tamarins to the wild, would those monkeys survive? And how could scientists give tamarins enough forest area for the population to grow? Find out how scientists and concerned citizens worked together to give golden lion tamarins a hopeful future.

The Stranded Whale Jane Yolen, 2015-07-16 Tender and heartrending, Jane Yolen's clear-eyed tale of a child's effort to rescue a beached whale evokes a fierce love of wildlife and a universal sense of loss. Sally and her brothers are walking home from school along the dunes in their Maine town when they come upon an enormous whale. He's stranded on the beach. Her brother runs for help, and many people rally to respond, but the tide is going out quickly and the whale is just so big. Still, Sally is able to sit near the whale's massive eye and tell him he's beautiful and strong, and that she will miss him no matter what happens. Master storyteller Jane Yolen and illustrator Melanie Cataldo have created an authentic portrait of vulnerability that is at once spare, moving, and honest.

*Gift of the Whale* Bill Hess, 1999 Bill Hess - a noted photographer - began his association with the Inupiat Eskimos in 1982. Eventually, he got permission to accompany them on their historic whale hunt. This book is his record, in sensitive text

and almost 200 stark images, of what he experienced. Hess explores Inupiat history and traditions juxtaposed against contemporary life, never shying away from the controversial aspects of this ancient trek. *Gift of the Whale* is a rare contribution to Native history.

*Beneath the Surface* John Hargrove, Howard Chua-Eoan, 2015-03-24 \*Now a New York Times Best Seller\* Over the course of two decades, John Hargrove worked with 20 different whales on two continents and at two of SeaWorld's U.S. facilities. For Hargrove, becoming an orca trainer fulfilled a childhood dream. However, as his experience with the whales deepened, Hargrove came to doubt that their needs could ever be met in captivity. When two fellow trainers were killed by orcas in marine parks, Hargrove decided that SeaWorld's wildly popular programs were both detrimental to the whales and ultimately unsafe for trainers. After leaving SeaWorld, Hargrove became one of the stars of the controversial documentary *Blackfish*. The outcry over the treatment of SeaWorld's orca has now expanded beyond the outlines sketched by the award-winning documentary, with Hargrove contributing his expertise to an advocacy movement that is convincing both federal and state governments to act. In *Beneath the Surface*, Hargrove paints a compelling portrait of these highly intelligent and social creatures, including his favorite whales Takara and her mother Kasatka, two of the most dominant orcas in SeaWorld. And he includes vibrant descriptions of the lives of orcas in the wild, contrasting their freedom in the ocean with their lives in SeaWorld. Hargrove's journey is one that humanity has just begun to take-toward the realization that the relationship between the human and animal worlds must be radically rethought.

*Emanuel and the Hanukkah Rescue* Heidi Smith Hyde, 2014-01-01 Angry that his father is afraid to kindle the Hanukkah lights, Emanuel stows away on a whaling ship. When a storm overtakes the boat, it is his father's change of heart and the family menorah that light the way home.

**Grayson** Lynne Cox, 2011-05-04 Part mystery, part magical tale, this is the story of a miraculous ocean encounter that happened to the adventurer, swimmer, and bestselling author when she was seventeen and in training for a big swim. It was the dark of early morning; Lynne was in 55-degree water as smooth as black ice, two hundred yards offshore, outside the wave break. She was swimming her last half-mile back to the pier before heading home for breakfast when she became aware that something was swimming with her. The ocean was charged with energy as if a squall was moving in; thousands of baby anchovy darted through the water like lit sparklers, trying to evade something larger. Whatever it was, it felt large enough to be a white shark coursing beneath her body. It wasn't a shark. It became clear that it was a baby gray whale—following alongside Lynne for a mile or so. Lynne had been swimming for more than an hour; she needed to get out of the water to rest, but she realized that if she did, the young calf would follow her onto shore and die from collapsed lungs. The baby whale—eighteen feet long!—was migrating on a three-month trek to its feeding grounds in the Bering Sea, an eight-thousand-mile journey. It would have to be carried on its mother's back for much of that distance, and was dependent on its

mother's milk for food—baby whales drink up to fifty gallons of milk a day. If Lynne didn't find the mother whale, the baby would suffer from dehydration and starve to death. Something so enormous—the mother whale was fifty feet long—suddenly seemed very small in the vast Pacific Ocean. How could Lynne possibly find her?

**Orca Rescue!** Donna Sandstrom, 2021-10-05 A captivating first-person story of a real-life orca rescue! When a young orca was spotted alone in Puget Sound, no one knew where she'd come from, but they knew it was dangerous for her to be left there alone. Scientists and researchers from two countries had to work together to determine where the orca came from, and then to decide how to save her. The riveting story is told by Donna Sandstrom, a citizen volunteer with the rescue effort. From identifying the orca as a missing calf named Springer, to transporting her to the north end of Vancouver Island, where she was reunited with her family, this book gives readers behind-the-scenes details on the only successful orca rescue and reunion ever! Kids will be thrilled to be part of the mission, when a little lost orca is brought home!

**The Eye of the Whale: a Rescue Story (Tilbury House Nature Book)** Jennifer O'Connell, 2016-03-15 On a cool December morning near San Francisco, a distress call was radioed to shore by a local fisherman. He had discovered a humpback whale tangled in hundreds of yards of crab-trap lines, struggling to stay afloat. A team of volunteers answered the call, and four divers risked their lives to rescue the enormous animal. It was the first successful whale disentanglement performed off the West Coast of the United States and prompted a rare and remarkable demonstration of animal behavior. This celebrated story, beautifully depicted in Jennifer O'Connell's mesmerizing paintings, will make you wonder about animal emotions and the unique connections we can have with other animals, seven whales. To research *The Eye of the Whale*, Jennifer traveled to San Francisco where she met Captain Mick Menigoz and rode his rescue boat, *Superfish*, out into the Pacific Ocean to the area where the events in the book took place. This experience fueled her inspiration as she created the images and words of this extraordinary story.

**The Great Sperm Whale** Richard Ellis, 2011-04-06 Over the past several decades, Richard Ellis has produced a remarkable body of work that has been called magnificent (*Washington Post Book World*), masterful (*Scientific American*), magical (*Men's Journal*), and a dazzling tour de force (*Christian Science Monitor*). Ellis's new book—a fascinating tour through the world of the sperm whale—will surely inspire more such praise for the author heralded by *Publisher Weekly* as America's foremost writer on marine research. Written with Ellis's deep knowledge and trademark passion, verve, and wit—and illustrated with a wide array of images including his own signature artwork—his study covers the full spectrum of the sperm whale's existence from its prehistoric past to its current endangered existence. Ellis, as no one else can, illuminates the iconic impact of *Physeter macrocephalus* (big-headed blower) on our history, environment, and culture, with a substantial nod to Herman Melville and *Moby-Dick*, the great novel that put the sperm whale (and whaling) on the literary map. Ranging far and wide, Ellis covers the sperm whale's evolution, ecology, biology, anatomy, behavior, social organization, intelligence,

communications, migrations, diet, and breeding. He also devotes considerable space to the whale's hunting prowess, including its clashes with the giant squid, and to the history of the whaling industry that decimated its numbers during the last two centuries. He even includes a story about a beached juvenile he helped rescue, an event that provided scientists with one of their first opportunities to observe a sperm whale in the water and up close. Offering a rich tapestry for anyone with an interest in the marvels of ocean life, Ellis's book provides an indispensable guide to the life and times of one of the planet's most intelligent, elusive, and endangered species.

In the Eye of the Wild Nastassja Martin, 2021-11-16 After enduring a vicious bear attack in the Russian Far East's Kamchatka Peninsula, a French anthropologist undergoes a physical and spiritual transformation that forces her to confront the tenuous distinction between animal and human. In the Eye of the Wild begins with an account of the French anthropologist Nastassja Martin's near fatal run-in with a Kamchatka bear in the mountains of Siberia. Martin's professional interest is animism; she addresses philosophical questions about the relation of humankind to nature, and in her work she seeks to partake as fully as she can in the lives of the indigenous peoples she studies. Her violent encounter with the bear, however, brings her face-to-face with something entirely beyond her ken—the untamed, the nonhuman, the animal, the wild. In the course of that encounter something in the balance of her world shifts. A change takes place that she must somehow reckon with. Left severely mutilated, dazed with pain, Martin undergoes multiple operations in a provincial Russian hospital, while also being grilled by the secret police. Back in France, she finds herself back on the operating table, a source of new trauma. She realizes that the only thing for her to do is to return to Kamchatka. She must discover what it means to have become, as the Even people call it, medka, a person who is half human, half bear. In the Eye of the Wild is a fascinating,

mind-altering book about terror, pain, endurance, and self-transformation, comparable in its intensity of perception and originality of style to J. A. Baker's classic *The Peregrine*. Here Nastassja Martin takes us to the farthest limits of human being.

*A Garden of Whales* Maggie Steincrohn Davis,1992 A child's dream about the danger threatening the whales leads him to imagine planting and cultivating a garden in which new whales grow. Reissue.

*The Other Side of the Whale Road* K. A. HAYTON,2021-08-24 How dark were the Dark Ages? Joss is about to find out... 'The Vikings are better armed than we are. They have long, heavy axes that can take a man's head from his shoulder. I know this because I see it happen' When his mum burns down their house on the Whitehorse estate, sixteen-year-old Joss is sent to live in a sleepy Suffolk village. The place is steeped in history, as Joss learns when a bike accident pitches him back more than 1,000 years to an Anglo-Saxon village. That history also tells him his new friends are in mortal peril from bloodthirsty invaders. Can he warn their ruler, King Edmund, in time? And will he ever get home?

*Whale* David Lucas,2007 When a giant whale washes up on shore, a little boy and the rest of the town must work together with the sun and the moon and the stars and the fishes to set things right again.
