This book caters for the Mathematics General 2 HSC course in Year 12, an updated version of the General Mathematics course. It is designed for students heading towards an HSC exam, an ATAR and university studies. This book includes access to the NelsonNet portal of resources and an interactive NelsonNetBook. New Century Maths Colin Skene, Klaas Bootsma, Robert Yen, David Adams, David Badger, 2003 New Century Maths raises the benchmark for mathematics in New South Wales. Each text contains work from a number of stages to accommodate the mixed-ability classroom and to cater for students' individual differences. Texts structured in this way encourage flexible teaching and learning plans and truly reflect the intention of an outcomes-based syllabus. To fully cater for a wide range of abilities and needs, each text at years 9 and 10 is published in two versions, stages 5.1/5.2 and stages 5.2/5.3, both providing different pathways of learning. This structure enables students to follow the pathway into the stage 6 mathematics course that best suits their abilities and needs.

Contemporary Asian Australian Poets Adam Aitken, Kim Cheng Boey, Michelle Cahill, 2013-01-01 This ground-breaking anthology collects poems written by Australian poets who are migrants, their children, and refugees of Asian heritage, spanning work that covers over three decades of writing. Inclusive of hitherto marginalised voices, these poems explore the hyphenated and variegated ways of being Asian Australian, and demonstrate how the different origins and traditions transplanted from Asia have generated new and different ways of being Australian. This anthology highlights the complexity of Asian Australian interactions between cultures and languages, and is a landmark in a rich, diversely-textured and evolving

story. Timely and proactive this anthology fills existing cultural gaps in poetic expressions of home, travel, diaspora, identity, myth, empire and language.
