Crisis Policymaking David Connery,2010-07-01 East Timor's violent transition to independence, which began early in 1999, presented the Australian Government with a significant foreign policy crisis. This crisis was not sudden, totally unexpected or ultimately threatening to Australia's survival. But the crisis consumed the attention of Australian leaders, saw significant national and international resources employed, and led to the largest operational deployment for the Australian Defence Force since the Vietnam War. This crisis also created a significant rupture in the hitherto carefully-managed relationships between Australia and its important neighbor, Indonesia. The events of September 1999 ultimately led to the birth of a new nation and the deaths of many people who might have otherwise expected to enjoy that independence. In this major study, David Connery examines how the Australian Government - at the political and bureaucratic levels - developed and managed national security policy in the face of this crisis. The events, and the policymaking processes that both led and followed, are reconstructed using sixty interviews with key participants. This study identifies certain characteristics of crisis policymaking in Australia that include a dominant executive, secrecy, external actors and complexity.

Crown and Sword Cameron Moore,2017-11-09 The Australian Defence Force, together with military forces from a number of western democracies, have for some years been seeking out and killing Islamic militants in Iraq, Syria and Afghanistan, detaining asylum seekers for periods at sea or running the judicial systems of failed states. It has also been ready to conduct internal security operations at home. The domestic legal authority cited for this is often the poorly understood concept of executive power, which is power that derives from executive and not parliamentary authority. In an age of legality where parliamentary statutes govern action by public officials in the finest detail, it is striking that these extreme exercises of the use of force often rely upon an elusive legal basis. This book seeks to find the limits to the exercise of this extraordinary power.

The Cromwellian Settlement of Ireland John P. Prendergast,2014 The legacy of Oliver Cromwell is still haunts the Irish imagination. His alleged directive to the Catholic Irish to get to Hell or Connaught, and the policy that drove it, permanently altered the ownership of Irish soil.The Parliamentary forces' civil war against Charles I were enmeshed in a ruthless campaign against popery and the Catholic perpetrators of the assault on the Protestant colonists of 1641. The legacy of sectarianism has marred Irish politics to this day. Prendergast's research reveals his keen eye for evidence. His dismissal of the colonists' claims about the nature of the uprising of 1641 and his attitudes to race are contested, but he was a man of his times. More significantly his prejudices did not blind him and he lets his sources speak for themselves, while his analytical mind identifies the underlying economic motivation and forces behind the apparently civilising religious mission driving the settlement.

Client Legal Privilege and Federal Investigatory Bodies Australia. Law Reform Commission,2007 On 29 November 2006, the Attorney-General of Australia, the Hon Philip Ruddock MP, asked the Australian Law Reform Commission (ALRC) to inquire into the application of legal professional privilege to the coercive information-gathering powers of Commonwealth bodies - such as the Australian Federal Police, the Australian Crime Commission, the Australian Securities and Investments Commission (ASIC) and federal Royal Commissions of inquiry.The central theme of the discussion paper is that client legal privilege is a doctrine of fundamental importance in the common law and should not be abrogated or modified except in limited circumstances. In such cases where abrogation is to occur, it is proposed that it should be the province of Parliament to consider - and include expressly in legislation.

Restoring the Faith Edith Waldvogel Blumhofer, 1993 American Pentecostalism began as a culturally isolated sect intent upon announcing the imminence of the world's end. The sect's early millenarian fervor gradually became muted in favor of flag-waving patriotism. At the end of the twentieth century it has become an affluent, worldwide movement thoroughly entrenched in popular culture. Edith Blumhofer uses the Assemblies of God, the largest classical Pentecostal denomination in the world, as a lens through which to view the changing nature of Anglo Pentecostalism in the United States. She illustrates how the original mission to proclaim the end resulted in the development of Bible schools, the rise of the charismatic movement, and the popularity of such figures as Aimee Semple McPherson, Charles Fox Parham, and David Du Plessis. Blumhofer also examines the sect's use of radio and television and the creation of a parallel Christian culture
