Digital Peripheries Petr Szczepanik,Pavel Zahrádka,Jakub Macek,Paul Stepan,2020-05-15 This is an open access book. Media industry research and EU policymaking are predominantly tailored to large (and, in the latter case, Western) European markets. This open access book addresses the specific qualities of smaller media markets, highlighting their vulnerability to global digital competition and outlining survival strategies for them. New online distribution models and new trends in the consumption of audiovisual content are limited by, and pose new challenges for, existing audiovisual business models and their legal framework in the EU. The European Commission's Digital Single Market (DSM) strategy, which was intended e.g. to remove obstacles to the cross-border distribution of audiovisual content, has triggered a heated debate on the transformation of the existing ecosystem for European screen industries. While most current discussions focus on the United States, Western Europe, and the multinational giants, this book approaches these industry trends and policy questions from the perspective of relatively small and peripheral (in terms of their population, language, cross-border cultural flows, and financial and/or symbolic capital) media markets.

Cases on Teaching English for Academic Purposes (EAP) During COVID-19: Insights From Around the World Kohnke, Lucas, 2022-06-17 The COVID-19 outbreak has changed the educational landscape as higher education institutions around the world were forced to close their physical campuses to slow or contain the spread of the virus. The rapid, unexpected, and

forced transition to emergency remote teaching has been especially challenging for second- and foreign-language learners who rely on English for Academic Purposes (EAP) courses to help them transition from secondary school to higher education and succeed in their academic studies. To ensure these learners are receiving the best education possible, additional study on the difficulties, opportunities, and strategies of teaching English for Academic Purposes courses is required. Cases on Teaching English for Academic Purposes (EAP) During COVID-19: Insights From Around the World explores the effect of emergency remote teaching in offering quality EAP education to second- and foreign-language students and preparing them for their university studies in response to COVID-19 from a variety of contexts around the world. This book also contributes to developing effective practices for supporting and sustaining EAP teaching in an English-medium instruction environment during and after a pandemic. Covering topics such as remote teaching, writing instruction, and breakout rooms, this reference work is ideal for teachers, administrators, policymakers, scholars, practitioners, academicians, researchers, instructors, and students.

Computers Helping People With Special Needs Klaus Miesenberger, 2006-06-29 This book constitutes the refereed proceedings of the 10th International Conference on Computers Helping People with Special Needs, ICCHP 2006, held in Linz, Austria, in July 2006. The 193 revised contributions presented were carefully reviewed and selected for inclusion in the book. The papers evaluate how various fields in computer science can contribute to helping people with various kinds of disabilities and impairment.
