The Greatest Secret of All Marc Allen,2010-10-06 The law of attraction — how to use the mental and physical abilities we

were born with to create wealth and success — is wonderful to know, but many who have discovered this “secret” still lead miserable lives. The Greatest Secret of All clearly explains this law of manifestation but then takes it a quantum leap further, revealing what is truly important in life. We have what we need within us to do what we love, to be the people we dream of being, and to become completely fulfilled along the way — to become, as Abraham Maslow put it, self-actualized. We also have the capability, here and now, to create a world that works for everyone. In these pages, you will find the secret to a life of happiness, inner peace, ease, and fulfillment, and the secret that lets each of us contribute to making the world a better place for all.

Living in the Light Shakti Gawain,1993

Creating True Prosperity Shakti Gawain,2011-02-08 This practical handbook presents Shakti Gawain's definition of prosperity, one that places importance on the fulfillment of our real desires rather than the amount of money we have. Most people equate prosperity with money — if they only had more of it, they would prosper. In this new, innovative look at self-fulfillment, personal-growth pioneer Shakti Gawain shows us the pitfalls of such thinking — how people, regardless of their wealth, eventually find money fails to offer true contentment. Shakti Gawain presents a new definition of prosperity, one that places importance on fulfillment of the heart and soul rather than on monetary gain. She dismantles the cause-and-effect relationship most people construct around money and happiness, without ignoring the important role money plays in our lives. She challenges us to pay attention to our deepest longings, and yet to discard false desires. Shakti shows us how to create true prosperity, which includes satisfying relationships, happiness, and fulfillment. Her unique method of self-examination helps readers recognize the paradoxical relationships they establish with money. Instead of either denying its value or giving it too much importance, Gawain shows how money can be used to teach people to identify where they need more balance in their lives, freeing them to pursue fulfilling relationships and personal satisfaction — the main ingredients of true prosperity. She speaks with authority and warmth as she sheds new understanding on a subject that concerns us all.

Seth reveals the true, magical nature of our deepest levels of being, and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking. By applying the principles in this book, readers will learn to trust their impulses and discover the highest expression of their creativity. “We are speaking about an approach to life, a magical or natural approach to life that is man’s version of the animal’s natural instinctive behavior in the universe.” — Jane Roberts, Speaking for Seth

The Power of Story Jim Loehr, 2007-09-18 New York Times bestselling coauthor of *The Power of Full Engagement*, examines the way we tell stories about ourselves to ourselves and, most importantly, the way we can change those stories to transform our business and personal lives. Your story is your life, says Loehr. As human beings, we continually tell ourselves stories—of success or failure; of power or victimhood; stories that endure for an hour, or a day, or an entire lifetime. We have stories about our work, our families and relationships, our health; about what we want and what we're capable of achieving. Yet, while our stories profoundly affect how others see us and we see ourselves, too few of us even recognize that we're telling stories, or what they are, or that we can change them—and, in turn, transform our very destinies. Telling ourselves stories provides structure and direction as we navigate life's challenges and opportunities, and helps us interpret our goals and skills. Stories make sense of chaos; they organize our many divergent experiences into a coherent thread; they shape our entire reality. And far too many of our stories, says Loehr, are dysfunctional, in need of serious editing. First, he asks you to answer the question, In which areas of my life is it clear that I cannot achieve my goals with the story I've got? He then shows you how to create new, reality-based stories that inspire you to action, and take you where you want to go both in your work and personal life. For decades, at the Human Performance Institute, Loehr has been examining the power of story to increase engagement and productivity, and Fortune 500 companies have paid millions to send employees to his program, in which he applies the principles and methods that he now offers in this book. Global business leaders, world-class athletes, military special forces, and thousands of individuals from every walk of life have sought out and benefited from his life-altering insight and expertise. Our capacity to tell stories is one of our profoundest gifts. Loehr's approach to creating deeply engaging stories will give you the tools to wield the power of storytelling and forever change your business and personal life.
