**Nineteen eighty-four** George Orwell,2022-11-22 This is a dystopian social science fiction novel and morality tale. The novel is set in the year 1984, a fictional future in which most of the world has been destroyed by unending war, constant government monitoring, historical revisionism, and propaganda. The totalitarian superstate Oceania, ruled by the Party and known as Airstrip One, now includes Great Britain as a province. The Party uses the Thought Police to repress individuality and critical thought. Big Brother, the tyrannical ruler of Oceania, enjoys a strong personality cult that was created by the party's overzealous brainwashing methods. Winston Smith, the main character, is a hard-working and skilled member of the Ministry of Truth's Outer Party who secretly despises the Party and harbors rebellious fantasies.

The Joy of Leadership Tal Ben-Shahar,Angus Ridgway,2017-08-07 Think of the last time you were at your best and working in the zone. Now compare that to all the time you've spent just going through the motions. How would you quantify the difference between the two in terms of how you felt and what you produced? Would you rate it as a 5% difference. . . a 50% difference? Most people would describe the gulf between those two states of being as vast—as deep and wide as the Grand Canyon. For quality of experience, engagement, productivity, and just the sheer joy of living, the majority of people asked to rate the difference between flourishing and floundering found it to be around a factor of 10. In their work with managers and executives at leading companies around the world, authors Tal Ben-Shahar and Angus Ridgway have identified a select group of individuals who consistently perform at their peak, and who make work seem effortless and working with them feel easy. The name they've given to those lucky few is "10X Leaders". You know who they are. They're the team leaders who bring out the best in everyone. They're the senior managers who drive growth and innovation. They're the dream bosses, dream partners, and dream colleagues. There's a good chance you've encountered at least one 10X leader in your career—you're probably thinking of one right now. And you wondered how they did it. Dr. Ben-Shahar and Mr. Ridgway believe they know the answer. They have identified the core characteristics, behaviors, and cognitive styles that all 10X leaders share. Even better, they've developed a way for virtually anyone to cultivate those traits and ways of thinking in themselves to become happier, more effective, and more successful. In this powerful new book they describe their revolutionary SHARP (Strength, Health, Absorption, Relationships, and Purpose) program for becoming a 10X leader. They

tell you the true stories of people at organizations around the globe who've become more effective by learning to use these performance multipliers. And they offer proven strategies for mastering those characteristics and habits for lasting change—the kind of change that can bring you greater fulfilment and success, not just at work, but in every area of your life.

**Poetics and Politics** Toni Bernhart,Jaša Drnovsek,Sven Thorsten Kilian,Joachim Küpper,Jan Mosch,2018-08-21 Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and net structures in Drama Studies.

***Soldiers Cry by Night*** Ana María Matute, 1995 The second volume in a trilogy on the Spanish Civil War. The protagonists are two teenagers, Manuel and Marta. They are brought together by the death of a Republican fighter who was his friend and her husband. The novel chronicles their growing involvement against the background of the war.

***Philosophy of Liberation*** Enrique Dussel, 2003-12-02 Argentinean philosopher, theologian, and historian Enrique Dussel understands the present international order as divided into the culture of the center -- by which he means the ruling elite of Europe, North America, and Russia -- and the peoples of the periphery -- by which he means the populations of Latin America, Africa, and part of Asia, and the oppressed classes (including women and children) throughout the world. In 'Philosophy of Liberation,' he presents a profound analysis of the alienation of peripheral peoples resulting from the imperialism of the center for more than five centuries. Dussel's aim is to demonstrate that the center's historic cultural, military, and economic domination of poor countries is 'philosophically' founded on North Atlantic ontology. By expressing supposedly universal knowledge, European philosophies, argues Dussel, have served to equate the cultural standards, modes of behavior, and rationalistic orientation of the West with human nature and to condemn the unique characteristics of peripheral peoples as nonbeing, nothing, chaos, irrationality. Hence, Western philosophies have historically legitimated and hidden the domination that oppressed cultures have suffered at the hands of the center. Dussel probes multinational corporations, the communications media, and the armies of the center with their counterparts among the Third World elite. The creation of a just world order in the future, according to Dussel, hinges on the liberation of the periphery, based on a philosophy that is able to think the world from the perspective of the poor and to reclaim the Third World's distinct cultural inheritance, which is imbedded in the popular cultures of the poor. Apart from the liberation of the periphery, there will be no future: the center will feed itself on the sameness it has ingrained within itself. The death of the child, of the poor, will be its own death. This is a disquieting but stimulating book for scholars and advanced students of philosophy, ethics, liberation theology, and global politics.

***Latin American Popular Culture*** Elia Geoffrey Kantaris, Rory O'Bryen, 2013 Explores a wide range of cultural phenomena to examine both national symbolic orders and national/global tensions resulting from a climate of conflicting economic and political ideologies.

***Places of Power and Memory in Mesoamerica's Past and Present*** Daniel Graña Behrens, 2016 This book provides a fresh look at the principles of power and the memory of places in Mesoamerica. Toponyms, boundaries and landscapes play an important role in shaping local politics and peoples' lives throughout past and present. Beyond structural and conceptual

similarities in calendar, rituals and religion, Mesoamerica shares a devote preference for places, sites or urban centers as distinguishable feature for collectiveness, constantly reshaped and transformed according to the historical circumstances either political, economical or religious. Thus, more than a coincidence, the importance of places over recognizable or by natives documented cultural regions in Mesoamerica seems to be a cultural pattern with deep roots lasting until today. -- Back of book.

*The Oxford Handbook of European Legal History* Heikki Pihlajamäki, Markus D. Dubber, Mark Godfrey, 2018-06-28 European law, including both civil law and common law, has gone through several major phases of expansion in the world. European legal history thus also is a history of legal transplants and cultural borrowings, which national legal histories as products of nineteenth-century historicism have until recently largely left unconsidered. The Handbook of European Legal History supplies its readers with an overview of the different phases of European legal history in the light of today's state-of-the-art research, by offering cutting-edge views on research questions currently emerging in international discussions. The Handbook takes a broad approach to its subject matter both nationally and systemically. Unlike traditional European legal histories, which tend to concentrate on heartlands of Europe (notably Italy and Germany), the Europe of the Handbook is more versatile and nuanced, taking into consideration the legal developments in Europe's geographical fringes such as Scandinavia and Eastern Europe. The Handbook covers all major time periods, from the ancient Greek law to the twenty-first century. Contributors include acknowledged leaders in the field as well as rising talents, representing a wide range of legal systems, methodologies, areas of expertise and research agendas.

*The Darker Side of the Renaissance* Walter Mignolo, 2003 An exploration of the role of the book, the map, and the European concept of literacy in the conquest of the New World

*A Life in Shadow* Stephen Bell, 2010-04-20 French naturalist and medical doctor Aimé Bonpland (1773-1858) was one of the most important scientific explorers of South America in the early nineteenth century. From 1799 to 1804, he worked alongside Alexander von Humboldt as the latter carried out his celebrated research in northern South America, but he later returned to conduct his own research farther south. *A Life in Shadow* accounts for the entire span of Bonpland's remarkable and diverse career in South America—in Argentina, Paraguay (where he was imprisoned for nearly a decade), Uruguay, and southernmost Brazil—based on extensive archival material. The study reconnects Bonpland's divided records in Europe and South America and delves into his studies of rural resources in interior regions of South America, including experimental cultivation techniques. This is a fascinating account of a man—a doctor, farmer, rancher, scientific explorer, and political conspirator—who interacted in many revealing ways with the evolving societies and institutions of South America.

***The Cambridge World History of Medical Ethics*** Robert B. Baker, Laurence B. McCullough, 2009 The Cambridge World History of Medical Ethics provides the first global history of medical ethics.

**Ciencia o pseudociencia** Carlos Pedrós, Inés Ma Antón, Susanna Manrubia, María de los Ángeles Hueso, José Gallardo, Marta Cobo, Mateo Seoane, Moisés Maestro, Paula Ortega, Rafael Torres, Raquel Tenorio, 2022-05-04 Las redes sociales, los medios de comunicación y otro sinfín de conductos nos bombardean con mares de información en el día a día. Las afirmaciones y titulares que inundan nuestras pantallas y cerebros muchas veces son alarmistas, confusas y contradictorias. Discernir entre los hechos científicos y las creencias o mitos pseudocientíficos resulta imperativo, pues en ellas basaremos decisiones que afectarán directamente nuestra salud, alimentación y calidad de vida. Mediante este libro divulgativo y ameno, un grupo de científicos del Centro Nacional de Biotecnología se unen para proporcionarte instrumentos prácticos que te faciliten no solo analizar la información de manera crítica, sino también tomar decisiones bien informadas acerca del mundo que te rodea y de tu propio bienestar.

*Economía Política Global* Antonio Luis Hidalgo Capitán, 2011-07 En este libro se analiza el funcionamiento y la evolución de la economía mundial desde principios de los ochenta, en que comenzó el proceso de globalización, hasta la crisis global surgida a finales de la década de 2000. Ello nos permite tener un período de estudio delimitado, ya que estudiamos la economía mundial desde su conformación como tal hasta su primera crisis estructural. El análisis sigue un enfoque Economía Política Internacional, adaptado a un escenario global, que tiene la virtud de combinar variables políticas y económicas (y geográficas, culturales, ambientales, jurídicas...), consiguiendo así mayor capacidad explicativa de los fenómenos económicos. Con carácter no exclusivamente divulgativo, la obra es un ensayo académico, articulado sobre la base de la teoría de la autorregulación de los sistemas sociales, con perspectiva fenomenológica y holística, y que pretende cubrir un vacío existente en la academia española dedicada al estudio de la economía mundial. Ha sido escrita y dirigida por Antonio Luis Hidalgo Capitán, con la colaboración de Teresa Aceytuno, Irene Correa, M Carmen Cabrera, Lidia Luque, Juan Miguel Simarro, Teresa Sanz, Jesús Iglesias y David Flores.
