Silent House Orhan Pamuk,2012-10-02 In an old mansion in Cennethisar, a former fishing village near Istanbul, an old widow Fatma awaits the annual summer visit of her grandchildren. She has lived in the village for decades, ever since her husband, an idealistic young doctor, first arrived to serve the poor fishermen. Now mostly bedridden, she is attended by her faithful servant Recep, a dwarf and the doctor's illegitimate son. Under the creeping shadow of right-wing nationalism and political revolution, they share memories, and grievances, of the early years, before their home became a high-class resort. Her visiting grandchildren are Faruk, a dissipated failed historian; his sensitive leftist sister, Nilgun, has yet to discover the real-life consequences of highminded politics; and Metin, a high school student drawn to the fast life of the nouveaux riches, who dreams of going to America. But it is Recep's nephew Hassan, a high-school dropout, lately fallen in with right-wing nationalism, who will draw this family into the revolution and the growing political cataclysm issuing from Turkey's tumultuous century-long struggle for modernity. By turns deeply moving, hilarious, and terrifying, *Silent House* pulses with the energy of a great writer's early work even as it offers beguiling evidence of the mature genius for which Orhan Pamuk, winner of the Nobel Prize in 2006, would later be world renowned.

The Ottoman Wild West Nikolay Antov,2017-12-28 An analysis of Balkan Islam and the formation of one of the largest Muslim communities in the early-modern Ottoman Balkans.

The Crisis of Kingship in Late Medieval Islam Christopher Markiewicz,2020-09-24 In the early sixteenth century, the political landscape of West Asia was completely transformed: of the previous four major powers, only one - the Ottoman Empire - continued to exist. Ottoman survival was, in part, predicated on transition to a new mode of kingship, enabling its transformation from regional dynastic sultanate to empire of global stature. In this book, Christopher Markiewicz uses as a departure point the life and thought of Idris Bidlisi (1457-1520), one of the most dynamic scholars and statesmen of the period. Through this examination, he highlights the series of ideological and administrative crises in the fifteenth-century sultanates of Islamic lands that gave rise to this new conception of kingship and became the basis for sovereign authority not only within the Ottoman Empire but also across other Muslim empires in the early modern period.

Histories of Ornament Gülru Necipoğlu, Alina Payne, 2016-03-08 This lavishly illustrated volume is the first major global history of ornament from the Middle Ages to today. Crossing historical and geographical boundaries in unprecedented ways and considering the role of ornament in both art and architecture, *Histories of Ornament* offers a nuanced examination that integrates medieval, Renaissance, baroque, and modern Euroamerican traditions with their Islamic, Indian, Chinese, and Mesoamerican counterparts. At a time when ornament has re-emerged in architectural practice and is a topic of growing interest to art and architectural historians, the book reveals how the long history of ornament illuminates its global resurgence today. Organized by thematic sections on the significance, influence, and role of ornament, the book addresses ornament's current revival in architecture, its historiography and theories, its transcontinental mobility in medieval and early modern Europe and the Middle East, and its place in the context of industrialization and modernism. Throughout, *Histories of Ornament* emphasizes the portability and politics of ornament, figuration versus abstraction, cross-cultural dialogues, and the constant negotiation of local and global traditions. Featuring original essays by more than two dozen scholars from around the world, this authoritative and wide-ranging book provides an indispensable reference on the histories of ornament in a global context. Scholars and Sultans in the Early Modern Ottoman Empire Abdurrahman Atçıl, 2017 This book examines the transformation of scholars into scholar-bureaucrats and discusses ideology, law and administration in the Ottoman Empire.

Browsing through the Sultan's Bookshelves Kristof D'hulster, 2021-07-12 Starting from 135 manuscripts that were once part of the library of the late Mamluk sultan Qānişawh al-Ghawrī (r. 1501-1516), this book challenges the dominant narrative of a post-court era, in which courts were increasingly marginalized in the field of adab. Rather than being the literary barren field that much of the Arabic and Arabic-centred sources, produced extra muros, would have us believe, it recognizes Qānişawh's court as a rich and vibrant literary site and a cosmopolitan hub in a burgeoning Turkic literary ecumene. It also re-centres the ruler himself within this court. No longer the passive object of panegyric or the source of patronage alone, Qānişawh has an authorial voice in his own right, one that is idiosyncratic yet in conversation with other voices. As such, while this book is first and foremost a book about books, it is one that consciously aspires to be more than that: a book about a library, and, ultimately, a book about the man behind the library, Qānişawh al-Ghawrī.

Plague and Empire in the Early Modern Mediterranean World Nükhet Varlik, 2017-08-10 This is the first systematic scholarly study of the Ottoman experience of plague during the Black Death pandemic and the centuries that followed. Using a wealth of archival and narrative sources, including medical treatises, hagiographies, and travelers' accounts, as well as recent scientific research, Nükhet Varlik demonstrates how plague interacted with the environmental, social, and political structures of the Ottoman Empire from the late medieval through the early modern era. The book argues that the empire's growth transformed the epidemiological patterns of plague by bringing diverse ecological zones into interaction and by intensifying the mobilities of exchange among both human and non-human agents. Varlik maintains that persistent plagues elicited new forms of cultural imagination and expression, as well as a new body of knowledge about the disease. In turn, this new consciousness sharpened the Ottoman administrative response to the plague, while contributing to the makings of an early modern state.

The Enemy at the Gate Andrew Wheatcroft, 2009-11-10 In 1683, two empires - the Ottoman, based in Constantinople, and the Habsburg dynasty in Vienna - came face to face in the culmination of a 250-year power struggle: the Great Siege of Vienna. Within the city walls the choice of resistance over surrender to the largest army ever assembled by the Turks created

an all-or-nothing scenario: every last survivor would be enslaved or ruthlessly slaughtered. The Turks had set their sights on taking Vienna, the city they had long called 'The Golden Apple' since their first siege of the city in 1529. Both sides remained resolute, sustained by hatred of their age-old enemy, certain that their victory would be won by the grace of God. Eastern invaders had always threatened the West: Huns, Mongols, Goths, Visigoths, Vandals and many others. The Western fears of the East were vivid and powerful and, in their new eyes, the Turks always appeared the sole aggressors. Andrew Wheatcroft's extraordinary book shows that this belief is a grievous oversimplification: during the 400 year struggle for domination, the West took the offensive just as often as the East. As modern Turkey seeks to re-orient its relationship with Europe, a new generation of politicians is exploiting the residual fears and tensions between East and West to hamper this change. *The Enemy at the Gate* provides a timely and masterful account of this most complex and epic of conflicts.

The Persianate World Nile Green,2019-04-09 A free open access ebook is available upon publication. Learn more at www.luminosoa.org. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages of expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

Artisans of Empire Suraiya Faroqhi,2011-11-15 The manufacture and trade in crafted goods and the men and women who were involved in this industry - including metalworkers, ceramicists, silk weavers, fez-makers, blacksmiths and even barbers - lay at the social as well as the economic heart of the Ottoman empire. This comprehensive history, by leading Ottoman historian Suraiya Faroqhi, presents the definitive view of the subject, from the production and distribution of different craft

objects to their use and enjoyment within the community. Faroqhi sheds new light on all aspects of artisan life, setting the concerns of individual craftsmen within the context of the broader cultural themes that connect them to the wider world. Combining social, cultural, economic, religious and historical insights, this will be the authoritative work on Ottoman artisans and guilds for many years to come.

The Hemshin Hovann Simonian,2007-01-24 The Hemshin are without doubt one of the most enigmatic peoples of Turkey and the Caucasus. As former Christians who converted to Islam centuries ago yet did not assimilate into the culture of the surrounding Muslim populations, as Turks who speak Armenian yet are often not aware of it, as Muslims who continue to celebrate feasts that are part of the calendar of the Armenian Church, and as descendants of Armenians who, for the most part, have chosen to deny their Armenian origins in favour of recently invented myths of Turkic ancestry, the Hemshin and the seemingly irreconcilable differences within their group identity have generated curiosity and often controversy. The Hemshin is the first scholarly work to provide an in-depth study of these people living in the eastern Black Sea region of Turkey. This groundbreaking volume brings together chapters written by an international group of scholars that cover the history, language, economy, culture and identity of the Hemshin. It is further enriched with an unprecedented collection of maps, pictures and appendices of up-to-date statistics. The Hemshin forms part of the Peoples of the Caucasus series, an indispensable and yet accessible resource for all those with an interest in the Caucasus.

New Paradigm in Macroeconomics R. Werner,2005-03-21 Modern mainstream economics is attracting an increasing number of critics of its high degree of abstraction and lack of relevance to economic reality. Economists are calling for a better reflection of the reality of imperfect information, the role of banks and credit markets, the mechanisms of economic growth, the role of institutions and the possibility that markets may not clear. While it is one thing to find flaws in current mainstream economics, it is another to offer an alternative paradigm which, can explain as much as the old, but can also account for the many 'anomalies'. That is what this book attempts. Since one of the biggest empirical challenges to the 'old' paradigm has been raised by the second largest economy in the world - Japan - this book puts the proposed 'new paradigm' to the severe test of the Japanese macroeconomic reality.

Alternative Tourism in Turkey Istvan Egresi,2016-12-08 This book takes inventory of and evaluates the available resources for the development of alternative tourism in Turkey. It examines the role of alternative tourism in future tourism development plans and proposes public policies necessary to assure sustainability. Although tourism started later in Turkey than in the Western Mediterranean countries it has grown very rapidly during the last three decades and today the country ranks among the top ten countries in the world in terms of both arrivals and receipts. However, most of the tourism development has been in the mass tourism sector or the so-called sun-sea-sand tourism. While crucial for the economic development of Turkey, mass tourism, in the absence of proper planning, has happened in a haphazard manner leading to

numerous environmental and socio-cultural problems. This book argues that, in order to mitigate these problems, Turkey should encourage the development of alternative forms of tourism.

The Muslim Question in Europe Peter O'Brien, 2016-02-29 In this book, the author argues that the vehement controversies surrounding European Muslims are better understood as persistent, unresolved intra-European political tensions rather than as a clash between Islam and the West. This title was made Open Access by libraries from around the world through Knowledge Unlatched.
