Lesson planning, understanding curriculum documents and fail-safe strategies for teaching in a wide range of situations and with children from wide-ranging backgrounds are all covered in depth. Suggestions for tutorial activities and further reading accompany each chapter, prompting students to engage in critical reflection and self-evaluation, while the 'On track on prac' feature will help pre-service teachers monitor and review their progress. Readers are also provided with insights from 'real world' pre-service students and professional teachers who have mentored many different students on prac. Early Childhood Voices: Children, Families, Professionals Linda Mahony, Sharynne McLeod, Andi Salamon, Jenny Dwyer, 2024-05-27 This revolutionary book explores theoretical and practical issues of listening to children, families, and professionals who advocate for and work with young children to promote social justice and improve their lives, and to ensure no one is left behind. Listening to children is explored across multiple disciplines internationally and highlights the practical application of the United Nations Sustainable Development Goals in the context of the Convention on the Rights of the Child. The work explores innovations, theories, and partnerships, and draws on the voices of children, families, early childhood educators, speech-language pathologists, and multidisciplinary teams from across 17 countries to provide a shared vision for equity, peace and justice for all while integrating social environmental, economic, and dimensions of sustainability. Topics include giving children a voice; methods for listening to and documenting young children's perspectives; listening to and working in partnership with families, educators, and professionals; and wellness and wellbeing of young children and their families across multiple dimensions.

Researching Early Childhood Education for Sustainability Sue Elliott, Eva Ärlemalm-Hagsér, Julie Davis, 2020-04-08 This book captures the now burgeoning research field of early childhood education for sustainability (ECEfS) and comprises insights from an ever-widening and diverse pool of researchers, who are promoting, engaging, and explaining the latest ECEfS research in the light of local, national, and United Nations global policy directives. With the increasing urgency of global climate disruptions, resource depletions, and biodiversity losses alongside greater human dislocation, the international scope of research and theory in this book provides a comprehensive guide to the role of sustainability in early childhood education, at a time when it is needed more than ever. Elliott, Ärlemalm-Hagsér, and Davis have brought together a collection of studies that offer new insights and approaches to ECEfS which challenge dominant narratives surrounding early childhood education and sustainability, including topics such as: how diverse worldviews and cultures challenge perceptions of sustainability; how bold national early education policies and urgent shifts in teacher education are imperative for driving transformative practices; and, how ECEfS curriculum and pedagogy can be incorporated successfully into early years settings. This book will both inspire researchers and more deeply enable early years' educators to practise sustainability with children, and so will be of great interest to scholars, lecturers, and researchers, as well as undergraduate and postgraduate students, across the increasingly intersecting fields of sustainability and early childhood education.

The Impact of Education John Witte, Michael Welker, Stephen Pickard, 2022-02-22 This book investigates the impact of education on the formation of character, moral education and the communication of values in late modern pluralistic

societies. Scholars from four continents and many different academic fields are involved. While the basic framework for the contributions is informed by Christian traditions, the disciplines cover a significant range, including theology, education, psychology, literature, anthropology, law, and business. This makes for a rich variety of thematic concentrations and perspectives. Readers will quickly sense that the educational foundations and trajectories of any given country are pervasive and have a significant reach into the fabric and shape of the society and its values, making education a barometer of the well-being of a people and their culture. The result is a volume that will inform, stimulate and challenge our understanding of the role of education in contemporary societies. [Der Einfluss der Bildung auf Charakterbildung, ethische Erziehung und Kommunikation von Werten in spätmodernen pluralistischen Gesellschaften] Dieses Buch untersucht den Einfluss der Bildung auf die Charakterentwicklung, die moralische Erziehung und die Vermittlung von Werten in spätmodernen pluralistischen Gesellschaften. Während der Rahmen für die Beiträge von christlichen Traditionen geprägt ist, decken die Disziplinen eine große Bandbreite ab, darunter Theologie, Pädagogik, Psychologie, Literatur, Anthropologie, Recht und Wirtschaft. Daraus ergibt sich eine reiche Vielfalt an thematischen Schwerpunkten und Perspektiven. Die Leserinnen und Leser werden schnell erkennen, dass die Bildungsgrundlagen und -wege eines jeden Landes bedeutenden Einfluss auf das Gefüge und die Form der Gesellschaft und ihrer Werte ausüben. Dies macht Bildung zu einem Gradmesser für das Wohlergehen eines Volkes und seiner Kultur. Young Children's Rights in a Digital World Donell Holloway, Michele Willson, Karen Murcia, Catherine Archer, Francesca Stocco, 2021-08-19 This volume focuses on very young children's (aged 0-8) rights in a digital world. It gathers current research from around the globe that focuses on young children's rights as agental citizens to the provision of and participation in digital devices and content—as well as their right to protection from harm. The UN Digital Rights Framework of 2014 addresses children's needs, agency and vulnerability to harm in today's digital world and implies roles and responsibilities for a variety of social actors including the state, families, schools, commercial entities, researchers and children themselves. This volume presents a broad range of research, including chapters on parental supervision and control, the changing forms of play, early childhood education, media and cultural studies, law, design, health, special-needs education, and engineering. Implicit within this book is the acknowledgement that children of various ages, abilities, socioeconomic and geographic backgrounds should have equal access to, and positive / non-harmful experiences with, new digital technologies and content—as well as adult support and expertise that enhances these experiences. This passionate

book celebrates the diversity of young children's activities in the digital world. It interrogates these through four intersecting lenses: their rights, play experiences, contextualised design, and best practice. Balancing children's eager engagement with digital content alongside adult responsibilities for education, privacy and protection, the volume provides a fitting showcase for work of global relevance.
