Jurassic Park Fabien Delage, 2020-07-13 Dig up the past and jump into action with this captivating prequel to *Jurassic Park*. Do you have what it takes to unlock the secrets of the Five Deaths? Summer of 1984. Australian forensic Kenneth Turner and his 10 year-old daughter Aileen are flying back home when something terrible happens. After a nightmarish time lost at sea, they are eventually rescued by fishermen off the coast of Central America. Turner and all other survivors are then taken to an island shrouded in mystery. There, they are placed under quarantine. But why are they kept under lock and key in the medical center? And what are those electrified fences for? The crash survivors are going to learn the hard way that a paramilitary group is occupying the premises. The soldiers all work for an enigmatic company called inGen. What is going on in this facility? What are they really up to on site C? Why is the archipelago marked as maximum security prison on the maps? Something out of this world is happening on Isla Matanceros, something beautiful and dangerous. Turner and his daughter are going to find themselves at the heart of a hazardous operation involving more than just politics and science. Groundbreaking medical treatments, futuristic food-processing solutions, mass rearing and technology patents are just the

tip of the iceberg. What if inGen was hiding a far more spectacular discovery? A discovery that could change the world of genetics forever. But things will not go as planned and the survivors will have to face hardship as South American arms traffickers decide to visit the island. The threat is real. Go back to where it all began, 8 years before the events of Jurassic Park! Find out who the scientists, rangers and inGen workers involved in the creation of the iconic park were. The path is littered with pitfalls and, although the islands look magical, they also turn out to be deadly. Jurassic Park: Dead Islands introduces brand new characters encountering new dinosaur species in hostile territory. How will they tackle these terrifying situations? InGen creatures may be young, but they are definitely lethal... Yet the real monsters may not be the ones roaming the forest. Will Kenneth and Aileen manage to escape safe and sound? Luke Skywalker Can't Read Ryan Britt, 2015-11-24 The perfect gift for anyone who embraces the joy of fandom and geeking out, this collection of essays celebrates the fans of Star Wars, Star Trek, Doctor Who, Sherlock Holmes, Lord of the Rings, and much more. Pop Culture and sci-fi guru Ryan Britt has never met a monster, alien, wizard, or superhero that didn't need further analysis. Essayist Ryan Britt got a sex education from dirty pictures of dinosaurs, made out with Jar-Jar Binks at midnight, and figured out how to kick depression with a Doctor Who Netflix-binge. Alternating between personal anecdote, hilarious insight, and smart analysis, Luke Skywalker Can't Read contends that Barbarella is good for you, that monster movies are just romantic comedies with commitment issues, that Dracula and Sherlock Holmes are total hipsters, and, most shockingly, shows how virtually everyone in the Star Wars universe is functionally illiterate. Romp through time and space, from the circus sideshows of 100 years ago to the Comic Cons of today, from darkest corners of the Galaxy to the comfort of your couch. For anyone who pretended their flashlight was a lightsaber, stood in line for a movie at midnight, or dreamed they were abducted by aliens, Luke Skywalker Can't Read is full of answers to questions you haven't thought to ask, and perfect for readers of Chuck Klosterman, Rob Sheffield, and Ernest Cline. “Ryan Britt is . . . the Virgil you want to guide you through the inferno of geekery.” —Lev Grossman, author of the bestselling Magician's trilogy
