*El arte de navegar. Los tratados de navegación del siglo XVI* Pozo Molina, Jimena,2024-11-15 El presente trabajo de investigación tiene como finalidad considerar el desarrollo científico que conllevó el descubrimiento del Nuevo Mundo. Aunque es cierto que los primeros descubrimientos responden a la casualidad, es a partir de ellos cuando surge el deseo de conocer e investigar la mar. En Occidente nacerán esas ganas de cultivar los estudios de la astronomía y matemáticas aplicadas a la navegación. Fueron los españoles los pioneros e inventores del arte y de la teoría de la navegación, que significó el capítulo inicial de la tecnología como primera disciplina aplicada. Es así como nacen los tratados de navegación en el siglo XVI, obras que recogían todos los saberes y teorías necesarias para la náutica dedicadas a instruir a los pilotos y navegantes. Fue en Sevilla, en la Casa de la Contratación, donde nacieron estas nuevas obras, pues la mayoría de sus autores estaban vinculados a ella.

**Fujam para as Montanhas** Darlan Souza, 2017-01-20 Fujam para as montanhas é uma obra que narra todo o processo de preparação, planejamento, relatos com histórias da minha trajetória completa, e das muitas pessoas com quem convivi, na preparação para a Uphill Marathon, em setembro de 2016. O conteúdo é rico em detalhes e tem início em 2009 com relatos de situações que aconteceram durante e depois da prova, histórias de completar o percurso com o orgulho de receber a medalha, a camiseta de survivor da temida e concorrida maratona de ladeira, realizada na serra catarinense. Essa prova é sempre realizada na serra do Rio do Rastro (Município de Lauro Muller/SC - Brasil), no segundo semestre do ano. Ela tem como característica principal o desafio, pois é considerada uma das mais difíceis de corrida de rua do mundo. Esse desafio inicia no processo de conquista de uma vaga (com a pré-inscrição e com o sorteio), na rápida adaptação aos treinos e nas dificuldades que serão enfrentadas no dia da prova. Todos querem cruzar a linha de chegada logo, dos corredores iniciantes até os mais bem preparados (e em todos os sentidos), querem subir correndo bem, rapidamente, em um percurso sinuoso e com suprimentos limitados. A ladeira é íngreme (1.400 metros de altitude crescente) em sua maior parte, o que dificulta todo o processo e a biomecânica de corrida. ISBN 978-85-920875-2-4

International Code of Conduct on Pesticide Management Food and Agriculture Organization of the United Nations, World Health Organization, 2023-04-29 The objective of this guidance on fulfilling the reporting requirements of Article 12 of the Code of Conduct is to obtain a regular flow of information on its observance to strengthen implementation of the Code, to provide data for its future revisions and improvement, and, most importantly, to improve the protection of human health and the environment related to pesticide use and management in agriculture and public health. The guidance was prepared in compliance with the FAO/WHO International Code of Conduct on Pesticide Management, which sets out a framework and

voluntary standards of conduct for stakeholders in pesticide management, in particular governments and the pesticide industry. Endorsed by FAO, WHO, governments, pesticide producers, non-governmental organizations and other stakeholders, the Code outlines their shared responsibility to promote best practice and risk reduction throughout the pesticide life cycle. The Code of Conduct thereby establishes the commitment and moral obligation of stakeholders to comply with the agreed standards of conduct and to assume their respective responsibilities. These include governments' responsibility to promote pesticide risk reduction and the industry's responsibility to produce products that are adapted to the context of their use and to provide stewardship of those products throughout their life cycle. This guidance was prepared with the support of the FAO/WHO Joint Meeting on Pesticide Management (JMPM) to provide further guidance on the provisions of the Code of Conduct related to its observance and implementation. It reflects the joint FAO/WHO approach to pesticide management, thus addressing the topic in both agricultural and public health settings.
