Experiências Pedagógicas sobre Território nas Escolas de Arquitetura: de Porto Rico a Belgrado / Pedagogical Experiments on Territory in Architecture Schools: from Puerto Rico to Belgrade Aleksandra Đorđević, Andrés Mignucci, Eric Alonzo, Eulàlia Gómez Escoda, Francesco Careri, Maria Rocco, Gbemiga Bolade Faniran, Ledian Bregasi, Llazar Kumaraku, Sevgi Türkkan, Uroš Radosavljević, Vladimir Bartalini, 2019-12-31 Dando continuidade aos dois livros já publicados no âmbito do projeto «On Being With-it»: Experiências Pedagógicas sobre Território nas Escola de Arquitetura e Diálogo Prospetivo sobre a Experiência de Aprendizagem através do Território, ambos publicados em 2017, este terceiro livro apresenta nove textos da autoria de professores e investigadores estrangeiros que visitaram a Escola de Arquitetura da Universidade do Minho (EAUM) ao longo dos últimos anos, ou com os quais os professores da área de Cidade e Território da EAUM têm uma proximidade disciplinar. O objetivo primordial deste livro é o de contribuir para o questionamento e a valorização da prática pedagógica daquilo que podemos denominar como «being with-places». Relembrando que na aprendizagem podem ser convocadas pessoas e lugares cuja distância física, social ou organizacional poderia justificar o distanciamento. Following on from the two previous books published within project “On Being With-it”: Pedagogical Experiments on Territory on Architecture Schools and A Forward-Looking Dialogue on the Experience of Learning through Territory, both published in 2017, this third book presents nine texts by foreign professors and researchers who visited the School of Architecture at the University of Minho (EAUM) over the past few years, or with whom EAUM City and Territory professors share a disciplinary proximity. The main goal of this book is to contribute to the questioning and enhancement of the pedagogical practice of what we can call “being with-places”. Recalling that in learning one can summon people and places whose physical, social or organizational non-proximity could justify a distancing.

Online Child Sexual Abuse Elena Martellozzo, 2013-06-17 Online Child Sexual Abuse: Grooming, Policing and Child Protection in a Multi-Media World addresses the complex, multi-faceted and, at times, counter-intuitive relationships between online grooming behaviours, risk assessment, police practices, and the actual danger of subsequent abuse in the physical world. Online child sexual abuse has become a high profile and important issue in public life. When children are victims, there is clearly intense public and political interest and concern. Sex offenders are society’s most reviled deviants

and the object of seemingly undifferentiated public fear and loathing. This may be evidenced in ongoing efforts to advance legislation, develop police tactics and to educate children and their carers to engage with multi-media and the internet safely. Understanding how sex offenders use the internet and how the police and the government are responding to their behaviour is central to the development of preventative measures. Based on extensive ethnographic research conducted with the police and a specialist paedophile unit, here Elena Marellozzo presents an informed analysis of online child sexual abuse: of the patterns and characteristics of online grooming, and of the challenges and techniques that characterize its policing. Connecting theory, research and practice in the field of policing, social policy, victimology and criminology, this book adds significantly to our understanding and knowledge of the problem of online child sexual abuse, the way in which victims are targeted and how this phenomenon is, and might be, policed.

Derechos Humanos, Educación Sexual Integral y Desarrollo Sostenible Montaña, Alejandra Érica, Voragini Weth, Natalia Andrea, 2022-05-02 “Aprendiendo ESI y Desarrollo Sostenible” es un libro que reúne producciones, recursos didácticos y experiencias, sistematizadas en el trayecto formativo de la actividad curricular Seminario de DDHH, que se cursa en el cuarto año de los profesados de Educación Inicial y Educación Primaria, y del quinto año de Ciencias de la Educación de la Facultad de Ciencias Humanas, UNLPam del año 2019. ¿Cómo surge? Como una necesidad de pensar respuestas posibles a la problemática de articulación entre la formación universitaria, las realidades de la comunidad educativa en la que nos encontramos insertas/es y la producción de materiales propios sobre temáticas seleccionadas. La consigna disparadora fue: seleccionar un tema vinculado a los Objetivos de Desarrollo Sostenible o Educación Sexual Integral, para aprehender y desarrollar en un espacio de kermes/feria, con una dinámica superadora al formato tradicional de las planificaciones docentes áulicas, para uno o varios niveles educativos. En el transcurso del cuatrimestre los trabajos grupales se fueron complejizando desde la teoría, abordando un proceso de evaluación permanente para alcanzar la versión final compilados en este libro. La publicación, responde a temáticas agrupadas en tres ejes: “Educación Sexual Integral” se aborda desde una concepción contemporánea de las sexualidades libre de todo tipo de violencias; en “Educación e Inclusión” desde una concepción de respeto y libre de discriminación; en el eje “Desarrollo sostenible” poner en valor el cuidado de la tierra y el medio ambiente. Invitamos a recorrer esta sistematización de la trayectoria de enseñanza-aprendizaje, donde podrán encontrar desde el trabajo de recolección, estructuración conceptual y puesta en valor de los saberes previos de las/les estudiantes, hasta la compilación de los trabajos grupales presentados en la feria, junto con aportes teóricos para las temáticas abordadas y los aprendizajes que resultaron de esta primera experiencia. Deseamos este recorrido les pueda aportar ideas, herramientas y posibles líneas de abordaje a la hora de trabajar estos temas en el aula, con una mirada superadora del ámbito escolar y la secuencia didáctica, para comenzar a trabajar los Derechos Humanos de forma conjunta y transversal día a día. “Aprendiendo ESI y Desarrollo Sostenible” se constituyó en un espacio de vinculación y articulación

entre las/es futuras/es docentes de varios niveles y la comunidad educativa, generando un doble acercamiento: entre universidad y comunidad, y entre teoría y práctica.

The Presentation of Self in Everyday Life Erving Goffman, 2022-05-05 Acclaimed on first publication and today considered one of the defining works of the sociology, *The Presentation of the Self in Everyday Life* is Erving Goffman's extraordinary analysis of the structure of our social interactions. Blurring the line between workaday life and theatrical performance, Goffman argues that our behaviour with others is defined by how we wish to be perceived - resulting in displays bearing a startling similarity to those of an actor on the stage. From the houses and clothes that we use as 'fixed props' to the 'backstage' of the solitude in which our personas are rehearsed and relaxed, Goffman's insight reveals human character to be not fixed or stable, but liquid and consciously maintained.

Selected Health Conditions and Likelihood of Improvement with Treatment National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Identifying Disabling Medical Conditions Likely to Improve with Treatment, 2020-07-12 The Social Security Administration (SSA) administers two programs that provide disability benefits: the Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program. SSDI provides disability benefits to people (under the full retirement age) who are no longer able to work because of a disabling medical condition. SSI provides income assistance for disabled, blind, and aged people who have limited income and resources regardless of their prior participation in the labor force. Both programs share a common disability determination process administered by SSA and state agencies as well as a common definition of disability for adults: the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. Disabled workers might receive either SSDI benefits or SSI payments, or both, depending on their recent work history and current income and assets. Disabled workers might also receive benefits from other public programs such as workers' compensation, which insures against work-related illness or injuries occurring on the job, but those other programs have their own definitions and eligibility criteria. *Selected Health Conditions and Likelihood of Improvement with Treatment* identifies and defines the professionally accepted, standard measurements of outcomes improvement for medical conditions. This report also identifies specific, long-lasting medical conditions for adults in the categories of mental health disorders, cancers, and musculoskeletal disorders. Specifically, these conditions are disabling for a length of time, but typically don't result in permanently disabling limitations; are responsive to treatment; and after a specific length of time of treatment, improve to the point at which the conditions are no longer disabling.

WHO Guidelines on Hand Hygiene in Health Care World Health Organization,2009 The WHO Guidelines on Hand Hygiene in Health Care provide health-care workers (HCWs), hospital administrators and health authorities with a thorough review of evidence on hand hygiene in health care and specific recommendations to improve practices and reduce transmission of pathogenic microorganisms to patients and HCWs. The present Guidelines are intended to be implemented in any situation in which health care is delivered either to a patient or to a specific group in a population. Therefore, this concept applies to all settings where health care is permanently or occasionally performed, such as home care by birth attendants. Definitions of health-care settings are proposed in Appendix 1. These Guidelines and the associated WHO Multimodal Hand Hygiene Improvement Strategy and an Implementation Toolkit (<http://www.who.int/gpsc/en/>) are designed to offer health-care facilities in Member States a conceptual framework and practical tools for the application of recommendations in practice at the bedside. While ensuring consistency with the Guidelines recommendations, individual adaptation according to local regulations, settings, needs, and resources is desirable. This extensive review includes in one document sufficient technical information to support training materials and help plan implementation strategies. The

document comprises six parts.

Guidelines on recreational water quality. Volume 1 World Health Organization, 2021-07-12 Use of coastal, estuarine and freshwater recreational environments has significant benefits for health and well-being, including rest, relaxation, exercise, cultural and religious practices, and aesthetic pleasure, while also providing substantial local, regional and national economic benefits. These guidelines focus on water quality management for coastal and freshwater environments to protect public health. The guidelines: 1. describe the current state of knowledge about the possible adverse health impacts of various forms of water pollution; and 2. set out recommendations for setting national health-based targets, conducting surveillance and risk assessments, putting in place systems to monitor and control risks, and providing timely advice to users on water safety. These guidelines are aimed at national and local authorities, and other entities with an obligation to exercise due diligence relating to the safety of recreational water sites. They may be implemented in conjunction with other measures for water safety (such as drowning prevention and sun exposure) and measures for environmental protection of recreational water use sites.

The Work of Professional Football Martin Roderick, 2006-09-27 A long-term study providing rare insights into the precarious career and ordinary working culture of professional footballers. Away from the celebrity-obsessed media gaze, the work of a professional footballer is rarely glamorous and for most players a career in football is insecure and short-lived. A former professional, Martin Roderick's familiarity with the world of football is the foundation for this privileged research into a world that is typically closed to the public gaze and ignored by media reportage and academic research which prefers to focus on a small, unrepresentative group of elite players. Key themes explored within the text include: the culture of work in professional football the changing identity, orientation and expectations of players during their careers the fragile and uncertain nature of professional sport careers the performance and dramatic aspects of a career under public scrutiny the role of relationships with managers, owners, support staff and partners players' responses to the insecurities inherent in professional football such as injury, ageing, performance and transfer. The text deals with a wide range of issues of interest to sports students and academics, particularly those with a focus on the sociology of sport but also including sport

development, sport management and coaching studies. The text will also be of interest to researchers in the fields of careers, industrial relations and the sociology of work.
