The Confessions Of A Storefront Church Hector L. Coleman, 2024-08-06 The Confessions of a Storefront Church is a no-holds-barred, cold, hard truth that will make the hairs stand up on the back of your neck. A real-life observation that hits the target time after time. After his new birth, the Scriptures seemed to jump off the pages and speak to him. Unaware of the ordinance to be licensed or ordained by a church, he knew that the Bible said, Ye have not chosen me, but I have chosen you, and ordained you, that you should go and bring forth fruit. His decision to go was controversial in the eyes of many, but looking into the eyes of God, he found inner peace and beauty. Yet back on earth, the reality was that he had entered the ferocious teeth of an unrelenting theological firestorm!

Feeling the Spirit Frances Kostarelos, 1995 Her vivid participant-observer portrait sheds light on a remarkably little understood social formation that shapes the lives of millions of inner-city African Americans - the evangelical storefront church.

Moving the Rock Mary E. Abrams, 2010-12-28 Moving the Rock tells the stories of a group of African American women who belong to a small storefront church in central Seattle.

The Church As Partner in Community Economic Development Theatrice Williams, 1994-05 Presents insights about how churches can become successfully involved in community-based economic development in the Black community. Two case studies examines the role that two institutions have played in improving the social and economic conditions in their neighborhoods, and providing self-reliance through job creation and providing additional tax base.

Passionately Human, No Less Divine Wallace D. Best, 2013-10-24 The Great Migration was the most significant event in black life since emancipation and Reconstruction. Passionately Human, No Less Divine analyzes the various ways black southerners transformed African American religion in Chicago during their Great Migration northward. A work of religious, urban, and social history, it is the first book-length analysis of the new religious practices and traditions in Chicago that were stimulated by migration and urbanization. The book illustrates how the migration launched a new sacred order among blacks in the city that reflected aspects of both Southern black religion and modern city life. This new sacred order was also largely female as African American women constituted more than 70 percent of the membership in most black Protestant churches. Ultimately, Wallace Best demonstrates how black southerners imparted a folk religious sensibility to Chicago's black

churches. In doing so, they ironically recast conceptions of modern, urban African American religion in terms that signified the rural past. In the same way that working class cultural idioms such as jazz and the blues emerged in the secular arena as a means to represent black modernity, he says, African American religion in Chicago, with its negotiation between the past, the present, rural and urban, revealed African American religion in modern form.

Planting Missional Churches Ed Stetzer, Daniel Im, 2016-05-01 Planting a church is one of the most exciting adventures you'll ever embark on. It's also one of the hardest. It requires initiative, leadership, strategy, systems, and a lot of prayer. In this second edition of Planting Missional Churches, not only will you find a completely redesigned book with new content in every single chapter, but you will also find several new chapters on topics such as church multiplication, residencies, multi-ethnic ministry, multisite, denominations and networks, and spiritual leadership. So if you're planting a church, be prepared. Use this book as a guide to build the needed ministry areas so that you can multiply over and over again. The Church Enslaved Tony Campolo, Anthony Campolo, Michael Battle, 2005 Two of the most vocal activists on racial issues in the church here seek nothing less than a conversion of American Christianity. Campolo and Battle expose the sad history and present realities of racism in the churches and then lift up a vision of a church and society without racism. To achieve reconciliation among Christians, they argue, both black and white churches need to acknowledge and overcome substantial problems in their traditions. Campolo and Battle then directly challenge Christians to a deeper spirituality, enabling them to resume leadership in overcoming and redressing America's legacy of racial division.

Remaking Respectability Victoria W. Wolcott, 2013-01-01 In the early decades of the twentieth century, tens of thousands of African Americans arrived at Detroit's Michigan Central Station, part of the Great Migration of blacks who left the South seeking improved economic and political conditions in the urban North. The most visible of these migrants have been the male industrial workers who labored on the city's automobile assembly lines. African American women have largely been absent from traditional narratives of the Great Migration because they were excluded from industrial work. By placing these women at the center of her study, Victoria Wolcott reveals their vital role in shaping life in interwar Detroit. Wolcott takes us into the speakeasies, settlement houses, blues clubs, storefront churches, employment bureaus, and training centers of Prohibition- and depression-era Detroit. There, she explores the wide range of black women's experiences, focusing particularly on the interactions between working- and middle-class women. As Detroit's black population grew exponentially, women not only served as models of bourgeois respectability, but also began to reshape traditional standards of deportment

in response to the new realities of their lives. In so doing, Wolcott says, they helped transform black politics and culture. Eventually, as the depression arrived, female respectability as a central symbol of reform was supplanted by a more strident working-class activism.

Readers, Advisors, and Storefront Churches Michelle A. Owen-Workman, Stephen Bennett Phillips, 2002 Renee Stout lives and works in Washington, D.C., where she is strongly influenced by the city's political, social, and religious composition. She looks to the belief systems of various African peoples and their New World descendants for direction and visual inspiration. Through her artwork Stout hopes to empower others to improve society by healing themselves. Her artwork seems to be a personal journey, which she invites fortunate travelers to share. Fictional narratives with imaginary characters accompany Stout along her path. Michelle A. Owen-Workman is an I.Ph.D. candidate at the University of Missouri-Kansas City specializing in non-European art and religious studies. Stephen Bennett Phillips is associate curator at The Phillips Collection in Washington, D.C.

History of Pittsburgh Jazz, A: Swinging in the Steel City Richard Gazarik and Karen Anthony Cole, 2021 Pittsburgh's contributions to the uniquely American art form of jazz are essential to its national narrative. Fleeing the Jim Crow South in the twentieth century, African American migration to the industrial North brought musical roots that would lay the foundation for jazz culture in the Steel City. As migrant workers entered the factories of Pittsburgh, juke joints and nightclubs opened in the segregated neighborhoods of the Hill District, Northside and East Liberty. The scene fostered numerous legends, including Art Blakey, Billy Strayhorn, George Benson, Erroll Garner and Earl Fatha Hines. The music is sustained today in the practice rooms of the city's universities and by groups such as the Manchester Craftsmen's Guild and the African American Music Institute. Authors Richard Gazarik and Karen Anthony Cole chart the swinging history of jazz in Pittsburgh--Page 4 of cover.

From Labor to Reward Martha C. Taylor, 2016-06-24 *From Labor to Reward* is a pioneering, epic, and groundbreaking book that fills a huge void in American religious history, black religious history, and traditions of the black church. Until now, no other book has chronicled the rich religious experiences of black church beginnings in the Bay Area. Martha C. Taylor provides penetrating insight into the early makings of the black church in the Bay Area. With attention to detail, Taylor captures the joys, frustrations, and unity of black people who left the segregated Deep South, came to the Bay Area seeking freedom only to face similar adversities of segregation, racism, housing discrimination, KKK threats of violence, and other socio-political barriers. Remarkably, these early pioneers brought their culture, traditions, and experiences from the South and built a strong vibrant religious community. *From Labor to Reward* speaks for the legacy of African Americans who were gospel social activists using the church as the anchor. Multiple sources of research and interviews were gathered from

church records, newspaper clippings, and other written sources to tell this unknown story. This book is sure to be a classic and a must read for all persons interested in history. .embed-container { position: relative; padding-bottom: 56.25%; height: 0; overflow: hidden; max-width: 100%; } .embed-container iframe, .embed-container object, .embed-container embed { position: absolute; top: 0; left: 0; width: 100%; height: 100%; }

God, Harlem U.S.A. Jill Watts,1992-01-10 How did an African-American man born in a ghetto in 1879 rise to such religious prominence that his followers addressed letters to him simply God, Harlem U.S.A.? Using hitherto unknown materials, Jill Watts portrays the life and career of one of the twentieth century's most intriguing religious leaders, Father Divine. Starting as an itinerant preacher, Father Divine built an unprecedented movement that by the 1930s had attracted followers across the nation and around the world. As his ministry grew, so did the controversy surrounding his enormous wealth, flamboyant style, and committed angels—black and white, rich and poor alike. Here for the first time a full account of Father Divine's childhood and early years challenges previous contentions that he was born into a sharecropping family in the deep South. While earlier biographers have concentrated on Father Divine's social and economic programs, Watts focuses on his theology, which gives new meaning to secular activities that often appeared contradictory. Although much has been written about Father Divine, *God, Harlem U.S.A.* finally provides a balanced and intimate account of his life's work.

African American Religion Hans A. Baer,2024-07-31 Now in an updated second edition, *African American Religion* remains an invaluable overview of the great diversity of religious groups within the modern African American community. This plethora of forms reflects a tension that has characterized African American religion since its beginnings—a tension between accommodation to and protest against white society's domination. Viewing African American sectarianism as a response to racism and social stratification in the larger society, the authors trace the history, beliefs, social organization, and ritual content of religious groups in four types of sects. These include the Black mainline churches; messianic-nationalist sects, such as the Nation of Islam; conversionist sects, such as the Holiness-Pentecostal groups and Primitive Baptists; and thaumaturgical sects, including the Spiritual churches. For this new edition, the authors have incorporated research that has appeared since the book's original appearance in 1992 and have added two new chapters—"African Religious Healing and Folk Medicine" and "African American Sacred Music"—because of these topics' enormous significance to the African American religious experience.

American Religious History Gary Scott Smith,2020-12-07 A mix of thematic essays, reference entries, and primary source documents covering the role of religion in American history and life from the colonial era to the present. Often controversial, religion has been an important force in shaping American culture. Religious convictions strongly influenced colonial and state governments as well as the United States as a new republic. Religious teachings, values, and practices deeply affected political structures and policies, economic ideology and practice, educational institutions and instruction,

social norms and customs, marriage, and family life. By analyzing religion's interaction with American culture and prominent religious leaders and ideologies, this reference helps readers to better understand many fascinating, often controversial, religious leaders, ideas, events, and topics. The work is organized in three volumes devoted to particular periods. Volume one includes a chronology highlighting key events related to religion in American history and an introduction that overviews religion in America during the period covered by the volume, and roughly 10 essays that explore significant themes. These essays are followed by approximately 120 alphabetically arranged reference entries providing objective, fundamental information about topics related to religion in America. Each volume presents nearly 50 primary source documents, each introduced by a contextualizing headnote. A selected, general bibliography closes volume three.

Down by the Riverside Larry Murphy, Larry George Murphy, 2000-11 An introductory overview of the development of African American religion and theology *Down by the Riverside* provides an expansive introduction to the development of African American religion and theology. Spanning the time of slavery up to the present, the volume moves beyond Protestant Christianity to address a broad diversity of African American religion from Conjure, Orisa, and Black Judaism to Islam, African American Catholicism, and humanism. This accessible historical overview begins with African religious heritages and traces the transition to various forms of Christianity, as well as the maintenance of African and Islamic traditions in antebellum America. Preeminent contributors include Charles Long, Gayraud Wilmore, Albert Raboteau, Manning Marable, M. Shawn Copeland, Vincent Harding, Mary Sawyer, Toinette Eugene, Anthony Pinn, and C. Eric Lincoln and Lawrence Mamiya. They consider the varieties of religious expression emerging from migration from the rural South to urban areas, African American women's participation in Christian missions, Black religious nationalism, and the development of Black Theology from its nineteenth-century precursors to its formulation by James Cone and later articulations by black feminist and womanist theologians. They also draw on case studies to provide a profile of the Black Christian church today. This thematic history of the unfolding of religious life in African America provides a window onto a rich array of African American people, practices, and theological positions.

African American Urban History since World War II Kenneth L. Kusmer, Joe W. Trotter, 2009-08-01 Historians have devoted surprisingly little attention to African American urban history of the postwar period, especially compared with earlier decades. Correcting this imbalance, *African American Urban History since World War II* features an exciting mix of seasoned scholars and fresh new voices whose combined efforts provide the first comprehensive assessment of this important subject. The first of this volume's five groundbreaking sections focuses on black migration and Latino immigration, examining tensions and alliances that emerged between African Americans and other groups. Exploring the challenges of residential segregation and deindustrialization, later sections tackle such topics as the real estate industry's discriminatory practices, the movement of middle-class blacks to the suburbs, and the influence of black urban activists on national employment and

social welfare policies. Another group of contributors examines these themes through the lens of gender, chronicling deindustrialization's disproportionate impact on women and women's leading roles in movements for social change. Concluding with a set of essays on black culture and consumption, this volume fully realizes its goal of linking local transformations with the national and global processes that affect urban class and race relations.

Religion in the Kitchen Elizabeth Pérez, 2016-02-16 Honorable Mention, 2019 Barbara T. Christian Literary Award, given by the Caribbean Studies Association Winner, 2017 Clifford Geertz Prize in the Anthropology of Religion, presented by the Society for the Anthropology of Religion section of the American Anthropological Association Finalist, 2017 Albert J. Raboteau Prize for the Best Book in Africana Religions presented by the Journal of Africana Religions An examination of the religious importance of food among Caribbean and Latin American communities Before honey can be offered to the Afro-Cuban deity Ochún, it must be tasted, to prove to her that it is good. In African-inspired religions throughout the Caribbean, Latin America, and the United States, such gestures instill the attitudes that turn participants into practitioners. Acquiring deep knowledge of the diets of the gods and ancestors constructs adherents' identities; to learn to fix the gods' favorite dishes is to be "seasoned" into their service. In this innovative work, Elizabeth Pérez reveals how seemingly trivial micropractices such as the preparation of sacred foods, are complex rituals in their own right. Drawing on years of ethnographic research in Chicago among practitioners of Lucumí, the transnational tradition popularly known as Santería, Pérez focuses on the behind-the-scenes work of the primarily women and gay men responsible for feeding the gods. She reveals how cooking and talking around the kitchen table have played vital socializing roles in Black Atlantic religions. Entering the world of divine desires and the varied flavors that speak to them, this volume takes a fresh approach to the anthropology of religion. Its richly textured portrait of a predominantly African-American Lucumí community reconceptualizes race, gender, sexuality, and affect in the formation of religious identity, proposing that every religion coalesces and sustains itself through its own secret recipe of micropractices.

Helping Others, Helping Ourselves Laura Tuennerman, Laura Tuennerman-Kaplan, 2001 Individuals and communities have historically reinforced values and shaped society in ways that best fit their own objectives. This study re-evaluates the interaction between religious, ethnic-, racial-, gender-, and class-based values and ideals and giving, based on Ohio between 1990 and 1930.
