

Sum Of Small Things A Theory Of The Aspirational C

Robert C. Kloosterman, Virginie Mamadouh, Pieter Terhorst

The Sum of Small Things Elizabeth Currid-Halkett, 2017-05-15 How the leisure class has been replaced by a new elite, and how their consumer habits affect us all In today's world, the leisure class has been replaced by a new elite. Highly educated and defined by cultural capital rather than income bracket, these individuals earnestly buy organic, carry NPR tote bags, and breast-feed their babies. They care about discreet, inconspicuous consumption—like eating free-range chicken and heirloom tomatoes, wearing organic cotton shirts and TOMS shoes, and listening to the Serial podcast. They use their purchasing power to hire nannies and housekeepers, to cultivate their children's growth, and to practice yoga and Pilates. In *The Sum of Small Things*, Elizabeth Currid-Halkett dubs this segment of society "the aspirational class" and discusses how, through deft decisions about education, health, parenting, and retirement, the aspirational class reproduces wealth and upward mobility, deepening the ever-wider class divide. Exploring the rise of the aspirational class, Currid-Halkett considers how much has changed since the 1899 publication of Thorstein Veblen's *Theory of the Leisure Class*. In that inflammatory classic, which coined the phrase "conspicuous consumption," Veblen described upper-class frivolities: men who used walking sticks for show, and women who bought silver flatware despite the effectiveness of cheaper aluminum utensils. Now, Currid-Halkett argues, the power of material goods as symbols of social position has diminished due to their accessibility. As a result, the aspirational class has altered its consumer habits away from overt materialism to more subtle expenditures that reveal status and knowledge. And these transformations influence how we all make choices. With a rich narrative and extensive interviews and research, *The Sum of Small Things* illustrates how cultural capital leads to lifestyle shifts and what this forecasts, not just for the aspirational class but for everyone.

The Historian's Awakening Bernard Koloski, 2018-11-16 *The Historian's Awakening* is a full commentary on the text (included) that provides social and cultural history context, discussions of the author and her times as well as valuable insight into historical forces that shaped people's lives. Kate Chopin's classic novel about a modern woman who desires to break free from tradition endures, in part, due to its critical and thought-provoking themes about society. While many editions of Kate Chopin's classic novel are in print, only *The Historian's Awakening* deals exclusively with the 19th-century social and cultural environment from which the novel emerged. In *The Awakening*, Kate Chopin portrays a modern woman who seeks autonomy, subjected to intense social and cultural conventions that first draw her out of her lifelong solitude but ultimately leave her

feeling even more alone. This newly annotated edition focuses on how 19th-century ideas about class, gender, ethnicity, and modernity affect a courageous woman's life. Challenging prevailing scholarship by situating the novel within a rich historical context, it examines the social and cultural realities of the 1890s and explains how, in the novel, these forces combine with an emerging modernity to liberate and unsettle its female protagonist.

A Criminological Biography of an Arms Dealer Yarin Eski,2022-01-31 For many, the arms trade and its dealers are the root cause of regional wars and global terrorism. In both public and academic debates, arms dealers are considered immoral as they profit from conflict, due to their key position in the international arms trading business. Nevertheless, there seems to be little to no interest in the personal lives of those actively involved. In his criminological biography of a licensed arms dealer, Yarin Eski provides an in-depth, interdisciplinary approach to and understanding of the global arms trade, revealing a deep insider view placed in a wider sociocultural context. From early discussions about childhood and career choices, to reflections on becoming and being an arms trader, Eski offers a methodologically embedded approach and advances biographical writing in the field of Criminology. It is a unique and thought-provoking contribution to the fields of criminology, ethnography, sociology, critical security studies, policing studies, war studies and international politics and offers an unparalleled insight from within.

Rupturing Rhetoric Byron B Craig, Patricia G. Davis, Stephen E. Rahko, 2024-06-20 Contributions by Maksim Bugrov, Byron B Craig, Patricia G. Davis, Peter Ehrenhaus, Whitney Gent, Christopher Gilbert, Oscar Giner, J. Scott Jordan, Euni Kim, Melanie Loehwing, Jaclyn S. Olson, A. Susan Owen, Stephen E. Rahko, Nick J. Sciallo, Arthur D. Soto-Vásquez, and Erika M. Thomas The events surrounding the 2014 killing of Michael Brown in Ferguson, Missouri, marked a watershed moment in US history. Though this instance of police brutality represented only the latest amid decades of similar unjust patterns, it came to symbolize state complicity in the deployment of violence to maintain racial order. *Rupturing Rhetoric: The Politics of Race and Popular Culture since Ferguson* responds to the racial rhetoric of American popular culture in the years since Brown's death. Through close readings of popular media produced during the late Obama and Trump eras, this volume details the influence of historical and contemporary representations of race on public discourse in America. Using Brown's death and the ensuing protests as a focal point, contributors argue that Ferguson marks the rupture of America's postracial fantasy. An ideology premised on colorblindness, the notion of the "postracial" suggests that the United States has largely achieved racial equality and that race is no longer a central organizing category in American society. Postracialism is partly responsible for ahistorical, romanticized narratives of slavery, Jim Crow segregation, and American exceptionalism. The legitimacy of this fantasy, the editors contend, was the first casualty of the tanks, tear gas, and rubber bullets wielded against protesters during the summer of 2014. From these protests emerged a new political narrative organized around #BlackLivesMatter, which directly challenged the fantasy of a postracial American society. Essays in *Rupturing Rhetoric* cover such texts as *Fresh Off the Boat*; *Hamilton*; *Green Book*; NPR's *American Anthem*; *Lovecraft Country*; Disney remakes of *Dumbo*, *The Lion King*, and *Lady and the Tramp*; *BlacKkKlansman*; *Crazy Rich Asians*; *The Hateful Eight*; and *Fences*. As a unified body of work, the collection interrogates the ways contemporary media in American popular culture respond to and subvert the postracial fantasy underlying the politics of our time.

Becoming Global Asia Cheryl Narumi Naruse, 2023-10-31 *Becoming Global Asia* centers Singapore as a crucial site for comprehending the uneven effects of colonialism and capitalism. In the wake of the 1997 Asian financial crisis, Singapore transformed its reputation as a culturally sterile and punitive nation to Global Asia—an alluring location ideal for economic flourishing. Cheryl Narumi Naruse analyzes how Singapore gained cultural capital and soft power by examining genres such

as literary anthologies, demographic compilations, coming-of-career narratives, and princess fantasies. Tracing the trajectory of Singapore's positioning as Global Asia, Naruse reveals how the country emerged as a celebrated postcolonial model nation and a site of imperial desire that enables subjugation of the so-called Third World. Her readings of Global Asia as an invention of postcolonial capitalism offer new conceptual paradigms for understanding postcolonialism, neoliberalism, and empire. Cheryl Narumi Naruse offers a lucid, much-needed theorization of postcolonial capitalism—a mode of sovereignty simultaneously forged against empire and productive of neoliberal governance. An important and original contribution to debates around Global Asia and its cultural forms, with ramifications far beyond Singapore.- JINI KIM WATSON, Professor of English and Comparative Literature, New York University After Becoming Global Asia, criticism about cultural geopolitics and literary studies that disregards Singapore, or does not center Naruse's cogent analysis on the aesthetics of postcolonial capitalism, will be incomplete. - MOHAN AMBIKAIPAKER, author of Political Blackness in Multiracial Britain If you've ever wondered about the dark side of the idea of 'Global Asia,' read this book. And if you are looking for evidence that literature can be more than a mere tool of the state and capital, this book is also for you. - COLLEEN LYE, author of America's Asia: Racial Form and American Literature, 1893-1945

Routledge Handbook on the Politics of Global Health Richard Parker, Jonathan García, 2018-12-07 In the early twenty-first century, key public health issues and challenges have taken centre stage on the global scene, and health has been placed at the heart of our collective aspirations for human development and well-being. But significant debate exists not only about the causes, but also about the possible solutions for nearly all of the most important global health challenges. Competing visions of the values and perspectives that should underlie global health policies have emerged, ranging from an emphasis on cost effectiveness and resource constraints on one extreme, to new calls for health and human rights, and renewed calls for health and social justice on the other. The role of different intergovernmental agencies, bilateral or unilateral donors, public or private institutions and initiatives, has increasingly been called into question, whilst the spread of neoliberal policies and programmes, and existing international trade regimes and intellectual property rights, are deeply implicated in relation to global health responses. This volume critically evaluates how the global health industry has evolved and how the interests of diverse political and economic stakeholders are shaping the context of a rapidly changing institutional landscape. Bringing together leading authors from across the world, the Handbook's eight sections explore:

- Critical perspectives on global health
- Globalisation, neoliberalism, and health systems
- The changing shape of global health governance
- Development assistance and the politics of global health
- Scale-up, scale-down, and the sustainability of global health programmes
- Intellectual property rights, trade relations, and global health
- Humanitarian emergencies and global health politics
- Human rights, social justice, and global health

The Routledge Handbook on the Politics of Global Health addresses both the emerging issues and conceptualisations of the political strategies, policy-making processes, and

global governance of global health, along with expanding upon and highlighting the critical priorities in this rapidly evolving field. It provides an authoritative overview for students, practitioners, researchers, and policymakers working in or concerned with the politics of public health around the globe.

The Oxford Handbook of Consumption Dr. Frederick F. Wherry, Dr. Ian Woodward, 2019-09-09 The Oxford Handbook of Consumption consolidates the most innovative recent work conducted by social scientists in the field of consumption studies and identifies some of the most fruitful lines of inquiry for future research. It begins by embedding marketing in its global history, enmeshed in various political, economic, and social sites. From this embedded perspective, the book branches out to examine the rise of consumer culture theory among consumer researchers and parallel innovative developments in sociology and anthropology, with scholarship analyzing the roles that identity, social networks, organizational dynamics, institutions, market devices, materiality, and cultural meanings play across a wide variety of applications, including, but not limited to, brands and branding, the sharing economy, tastes and preferences, credit and credit scoring, consumer surveillance, race and ethnicity, status, family life, well-being, environmental sustainability, social movements, and social inequality. The volume is unique in the attention it gives to consumer research on inequality and the focus it has on consumer credit scores and consumer behaviors that shape life chances. The volume includes essays by many of the key researchers in the field, some of whom have only recently, if at all, crossed the disciplinary lines that this volume has enabled. The contributors have tried to address several key questions: What motivates consumption and what does it mean to be a consumer? What social, technical, and cultural systems integrate and give character to contemporary consumption? What actors, institutions, and understandings organize and govern consumption? And what are the social uses and effects of consumption?

Desert Entanglements Gabriele Volpato, 2025-01-01 The Sahrawi refugees in southwestern Algeria have struggled from exile for fifty years to reconfigure the animated desert they call badiya. They recovered camel husbandry and access to part of the former rangeland, and wove it back as seasonal nomadism. *Desert Entanglements* analyzes this process as an act of place-making premised on refugees' agency.

Discovering Quacks, Utopias, and Cemeteries Cynthia Williams Resor, 2019-06-21 *Discovering Quacks, Utopias, and Cemeteries: Modern Lessons from Historical Themes* explores two enduring issues - our age-old pursuit of better lives and how the media impacts our choices. In this unique approach to social history, each chapter opens with essential questions asking the reader to consider these issues in historical and modern life. The histories of fake cures, imaginary and real utopias, cemeteries, tombstones, and scrapbooks are explored from ancient times through the transformations caused by the Industrial Revolution into the twentieth century. Historical images, excerpts from primary source documents, and activities adaptable to learners of all ages are included to illustrate the role of historical media. *Quacks, Utopias, and Cemeteries*, the

third in the daily life series by Cynthia Resor, is an ideal book for history enthusiasts, especially social studies teachers, education or humanities professors, museum educators, and anyone wanting to know about the lives of average people in the past.

The Anatomy of Consumerism H. RamHormozi,2019-08-30 The Anatomy of Consumerism is a story of greed and obsession and consumption. Of waste and environmental degradation. Of destruction and despair. It is the story of being human. In this earnest account of a serious problem in which we are all implicated, we come to terms with our collective obsession with material consumption. The Anatomy of Consumerism tracks this consumption from the Industrial Revolution, through a ravenous stretch of excessive production and acquisition, all the way to our digital present—a period during which we overconsume as a matter of course and visit irreparable damage on our natural environment as a result. It is no wonder the consequences of human greed fester so hotly in debate among economists, social scientists, and environmentalists. The Anatomy of Consumerism wades into this debate's center.

Indexing 'Chav' on Social Media Emilia Di Martino, 2022-09-15 The book sets out to examine the concept of 'chav', providing a review of its origins, its characterological figures, the process of enregisterment whereby it has come to be recognized in public discourse, and the traits associated with it in traditional media representations. The author then discusses the 'chav' label in light of recent re-appropriations in social network activity (particularly through the video-sharing app TikTok) and subsequent commentary in the public sphere. She traces the evolution of the term from its use during the first decade of the twenty-first century to make sense of class, status and cultural capital, to its resurgence and the ways in which it is still associated with appearance in gendered and classed ways. She then draws on recent developments in linguistic anthropology and embodied sociocultural linguistics to argue that social media users draw on communicative resources to perform identities that are both situated in specific contexts of discourse and dynamically changing, challenging the idea that geo-sociocultural varieties and mannerisms are the sole way of indexing membership of a community. This volume contends that equating 'chav' with 'underclass' in the most recent uses of the concept on social networks may not be the whole story, and the book will be of interest to sociocultural linguistics and identity researchers, as well as readers in anthropology, sociology, British studies, cultural studies, identity studies, digital humanities, and sociolinguistics.
