The Value Profit Chain James L. Heskett, W. Earl Sasser, Leonard A. Schlesinger, 2010-05-11 James Heskett, Earl Sasser, and Leonard Schlesinger reveal powerful new evidence that paying close attention to the employee-customer relationship will enable any organization to be a low-cost provider and achieve superior results -- proving that you can have it all, a goal thought inadvisable just a few short years ago. At the heart of this bold assertion is the authors' indisputable conclusion supported by thirty-one years of groundbreaking research: today's employee satisfaction, loyalty, and commitment strongly influences tomorrow's customer satisfaction, loyalty, and commitment and ultimately the organization's profit and growth -- a quantifiable set of associations the authors call the value profit chain. In what may be the most far-reaching study ever undertaken of the strategic importance of the employee-customer relationship, Heskett, Sasser, and Schlesinger offer profound new insights into the life-long value of both employees and customers and the increasingly important concept of employee-relationship management. Readers will discover how organizations as diverse as aluminum maker Alcoa, travel

agency Rosenbluth International, and the Willow Creek Community Church treat employees like customers (in the case of Willow Creek, volunteers as well). Conversely, the authors show how advertising agency Merkley Newman Harty and financial services provider ING Direct treat customers like employees, pursuing the ones they want most. At the Vanguard Group, Cisco Systems, and Southwest Airlines, both practices are common. The authors explain how these organizations and many others -- whether large or small, public or private, or not-for-profit -- achieve profitability and growth or the equivalent by leveraging results and process quality to deliver differentiated products and services at the lowest cost. Timely, essential, and important reading, *The Value Profit Chain* should be readily accessible on the desk of every forward-thinking manager.

*The Crisis of the 14th Century* Martin Bauch, Gerrit Jasper Schenk, 2019-12-16 Pre-modern critical interactions of nature and society can best be studied during the so-called Crisis of the 14th Century. While historiography has long ignored the environmental framing of historical processes and scientists have over-emphasized nature's impact on the course of human history, this volume tries to describe the at times complex modes of the late-medieval relationship of man and nature. The idea of 'teleconnection', borrowed from the geosciences, describes the influence of atmospheric circulation patterns often over long distances. It seems that there were 'teleconnections' in society, too. So this volume aims to examine man-environment interactions mainly in the 14th century from all over Europe and beyond. It integrates contributions from different disciplines on impact, perception and reaction of environmental change and natural extreme events on late Medieval societies. For humanists from all historical disciplines it offers an approach how to integrate written and even scientific evidence on environmental change in established and new fields of historical research. For scientists it demonstrates the contributions scholars from the humanities can provide for discussion on past environmental changes.

*Words of the Vietnam War* Gregory R. Clark, 1990 Cu Chi, (body bag), Shit-hook (Chinook helicopter), dink (Vietnamese slang for a G.I.), slope (G.I. slang for a Vietnamese), hose (kill), boom-boom (what's done in a tapioca mill, or whorehouse), Mike-Juliet (marijuana), pogy bait, DO-28, C-2A, L Zed (Aussie for landing zone), rat-turds (oak leaf clusters), thousand yard stare, Samozaryadnyi karabin (Soviet rifle), guerre a outrance (French war to the end--the viewpoint of the North): these and the 10,000 others in this dictionary are the words of the Vietnam era. They were spoken by ground pounders in the boonies and by peaceniks on U.S. campuses, by hawks, doves, Victor Charlies and hoi chanh, Chinese advisors and the Muong people of the Central Highlands. The period covered is primarily 1963-1975, but there are terms included from as early as 1945 and as late as 1987.

**Mobile Service Innovation and Business Models** Harry Bouwman, Henny de Vos, Timber Haaker, 2010-10-19 Modern economies depend on innovation in services for their future growth. Service innovation increasingly depends on information technology and digitization of information processes. Designing new services is a complex matter, since collaboration with

other companies and organizations is necessary. Service innovation is directly related to business models that support these services, i.e. services can only be successful in the long run with a viable business model that creates value for its customers and providers. This book presents a theoretically grounded yet practical approach to designing viable business models for electronic services, including mobile ones, i.e. the STOF model and - based on it - the STOF method. The STOF model provides a 'holistic' view on business models with four interrelated perspectives, i.e., Service, Technology, Organization and Finance. It elaborates on critical design issues that ultimately shape the business model and drive its viability.

The Old Man and Mr. Smith Peter Ustinov, 1992-05-01 Actor-author Ustinov's fable about God and Satan on an inspection tour of planet Earth is offbeat, witty, touching, profound and frequently hilarious.-- Publishers Weekly. From Marketing Mix to Relationship Marketing Christian Grönroos, 1993 The author of this paper believes that a paradigm shift is under way in marketing theory. For the past 40 years, marketing thought, research and practice has been dominated by the marketing mix paradigm, based on the four Ps of product, price, place and promotion. Now, however, it is challenged by relationship marketing, defined as a process of establishing, maintaining and enhancing relationships with customers and other partners, at a profit, so that the objectives of the parties involved are met through a mutual exchange and fulfilment of promises, and of trust between seller and customer. The author examines the characteristics of such relationships and discusses how relationship marketing has evolved from other contemporary marketing theories.
