No Word for Wilderness Roger Thompson, 2018-05-01 Fifty miles outside of Rome live the rarest grizzlies on earth. In Italy, there is no word for wilderness. Yet in the mountains of Italy, brown bears not only exist, they are fighting to survive amid encroaching development, local and international politics, and the mafia. This meticulously researched and eye-opening book tells the incredible stories of two special populations of bears in Italy—one the last vestige of a former time that persists against all odds, the other a great experiment in rewilding that, if successful, promises to change how we see not only Italy but all of Europe. The Abruzzo bears of central Italy have survived amid one of the oldest civilizations on earth—but now, with numbers estimated at as low as fifty individuals, they face a critical future as multiple forces, from farmers to the mob, collide within their territory. The Slovenian bears of northern Italy, brought to the Alps at the turn of the century, have sparked controversy among local and international interests alike. The stories of these bears take readers on a spectacular journey across Italy, where we come face-to-face not only with these fascinating species but with embattled park directors, heroic environmentalists, innovative scientists, and a public that is coming to terms with the importance of Italy's rich natural history. Award-winning author Roger Thompson has traveled throughout Italy documenting the history and current crises of these bears, and the result is an engaging and in-depth examination that resonates across all endangered species and offers invaluable insights into the ever-evolving relationships between human and non-human animals in a rapidly changing world.

Volcano Adventure Willard Price, 2013 'Fountains of fire, explosions . . . it's hell let loose.' Hal and Roger Hunt embark on an earth-shattering expedition when they join forces with world-famous volcanologist Dr Dan Adams. And as their groundbreaking research of the volatile Pacific volcanoes heats up, the brothers' mission erupts into an awesome adventure . . .

Im Fokus: Paläontologie Nadja Podbregar, Dieter Lohmann, 2013-10-19 Warum gibt es keine Mammuts mehr? Wen

jagte der Tyrannosaurus rex? Und war der Neandertaler wirklich eine Sackgasse der Evolution? Um diese Fragen zu beantworten, müsste man eigentlich zurück in die Urzeit reisen können. Doch den Paläontologen gelingt es heute dank modernster Methoden auch ohne Zeitmaschine, aus fossilen Knochen, Pflanzenrelikten, aber auch Resten urzeitlicher DNA faszinierende Einblicke in die Tier- und Pflanzenwelt vergangener Epochen zu gewinnen. Dieses Buch stellt einige ihrer Erkenntnisse vor und erklärt unter anderem, warum Vögel eigentlich Dinosaurier sind, wie viel Wahrheit im Säbelzahnkater Diego aus dem Film „Ice Age“ steckt und was unsere Gene heute noch über unsere Vorfahren verraten.

The Stranger in the Woods Michael Finkel,2017-03-07 NEW YORK TIMES BESTSELLER • The remarkable true story of a man who lived alone in the woods of Maine for 27 years, making this dream a reality—not out of anger at the world, but simply because he preferred to live on his own. “A meditation on solitude, wildness and survival.” —The Wall Street Journal In 1986, a shy and intelligent twenty-year-old named Christopher Knight left his home in Massachusetts, drove to Maine, and disappeared into the forest. He would not have a conversation with another human being until nearly three decades later, when he was arrested for stealing food. Living in a tent even through brutal winters, he had survived by his wits and courage, developing ingenious ways to store edibles and water, and to avoid freezing to death. He broke into nearby cottages for food, clothing, reading material, and other provisions, taking only what he needed but terrifying a community never able to solve the mysterious burglaries. Based on extensive interviews with Knight himself, this is a vividly detailed account of his secluded life—why did he leave? what did he learn?—as well as the challenges he has faced since returning to the world. It is a gripping story of survival that asks fundamental questions about solitude, community, and what makes a good life, and a deeply moving portrait of a man who was determined to live his own way, and succeeded.

Gilgi, One of Us Irmgard Keun,2019 Gilgi knows where she's going in life- she's ambitious, determined and fearless. She's not even derailed when her parents drop a massive bombshell on her twenty-first birthday. But then she meets the charming but aimless Martin, and for the first time, Gilgi finds herself blown bewilderingly and dangerously off-course. Set in Cologne against the backdrop of rising Nazism, Irmgard Keun's astonishing debut electrified Weimar Germany. With its frank exploration of sex, abortion, work and love, it feels as fresh today as when it first appeared.

Yossel Rakover Speaks to God Zvi Kolitz,1995 There are two stories here. One is the now legendary tale of a defiant Jew's refusal to abandon God, even in the face of the greatest suffering the world has known, a testament of faith that has taken on an unpredictable and fascinating life of its own and has often been thought to be a direct testament from the Holocaust. The parallel story is that of Zvi Kolitz, the true author, whose connection to Yosl Rakover has been obscured over the fifty years since its original appearance. German journalist Paul Badde tells how a young man came to write this classic response to evil, and then was nearly written out of its history. With brief commentaries by French philosopher Emmanuel Levinas and Leon Wieseltier, author of *Kaddish*, this edition presents a religious classic and the very human story behind it.

The New Civilisation Vladimir Megre,Anastasiya (Spirit),2008-01

Island Rivers John R. Wagner,Jerry K. Jacka,2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people. Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?

Anasta Vladimir Megre,2014-05-22 "During a technocratic period of life, people cease to be intelligent beings. It's necessary to appeal not to their minds, but to their feelings and, through their feelings, to inform them about the essence of the Divine program, and in order to do this, one has to sense and comprehend it for oneself."

White Fever Jacek Hugo-Bader,2012-10-02 No one in their right mind travels across Siberia in the middle of winter in a modified Russian jeep, with only a CD player (which breaks on the first day) for company. But Jacek Hugo-Bader is no

ordinary traveler. As a fiftieth birthday present to himself, Jacek Hugo-Bader sets out to drive from Moscow to Vladivostok, traversing a continent that is two and a half times bigger than America, awash with bandits, and not always fully equipped with roads. But if his mission sounds deranged it is in keeping with the land he is visiting. For Siberia is slowly dying — or, more accurately, killing itself. This is a traumatized post-Communist landscape peopled by the homeless and the hopeless: alcoholism is endemic, as are suicides, murders, and deaths from AIDS. As he gets to know these communities and speaks to the people, Hugo-Bader discovers a great deal of tragedy, but also dark humor to be shared amongst the reindeer shepherds, the former hippies, the modern-day rappers, the homeless and the sick, the shamans, and the followers of ‘one of the six Russian Christs,’ just one of the many arcane religions that flourish in this isolated, impossible region.
