A faca de dois gumes Fernando Tavares Sabino, 1985

The Cambridge History of Latin American Literature Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-19 The Cambridge History of Latin American Literature is by far the most comprehensive work of its kind ever written. Its three volumes cover the whole sweep of Latin American literature (including Brazilian) from pre-Colombian times to the present, and contain chapters on Latin American writing in the USA. Volume 3 is devoted partly to the history of Brazilian literature, from the earliest writing through the colonial period and the Portuguese-language traditions of the nineteenth and twentieth centuries; and partly also to an extensive bibliographical section in which annotated reading lists relating to the chapters in all three volumes of The Cambridge History of Latin American Literature are presented. These bibliographies are a unique feature of the History, further enhancing its immense value as a reference work.

Historical Dictionary of Latin American Literature and Theater Richard Young, Odile Cisneros, 2010-12-18 The Historical Dictionary of Latin American Literature and Theater provides users with an accessible single-volume reference tool covering Portuguese-speaking Brazil and the 16 Spanish-speaking countries of continental Latin America (Argentina, Bolivia, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, and Venezuela). Entries for authors, ranging from the early colonial period to the present, give succinct biographical data and an account of the author's literary production, with particular attention to their most prominent works and where they belong in literary history. The introduction provides a review of Latin American literature and theater as a whole while separate dictionary entries for each country offer insight into the history of national literatures. Entries for literary terms, movements, and genres serve to complement these commentaries, and an extensive bibliography points the way for further reading. The comprehensive view and detailed information obtained from all these elements will make this book of use to the general-interest reader, Latin American studies students, and the academic specialist.

Framing Latin American Cinema Ann Marie Stock, 1997 Proposes new critical directions in Latin American film. Figures of Transcontinental Multilingualism K. Alfons Knauth, Subha Chakraborty Dasgupta, 2018 This volume investigates outstanding figures and configurations of literary and cultural multilingualism on a transcontinental and on a global scale. Its first focus is on the both subcontinental and transcontinental Indies, on the oxymoronic figure of East West India and on the stirring 'relations through words' in Luso-Afro-Indian, Anglo-Indian, and Indo-European areas. The second focus is on the cross-cultural configuration of East and West shaped by some striking Sino-European and Sino-American events in early modern and modern times. A third issue concerns the glocal and globoglot 'people of paper' in a contemporary Californian town, and, lastly, the all-embracing, all-devouring ouroboros and other multi-lingual ophidians. (Series: poethik polyglott, Vol. 4) [Subject: Linguistics, Multilingualism]

The Reception of Alfred Tennyson in Europe Leonee Ormond, 2016-11-17 Alfred Lord Tennyson (1809-1892) has often been considered a particularly British writer in part as his official post as Poet Laureate inevitably committed him to a certain amount of patriotic writing. This volume focuses on his impact on the continent, presenting a major scholarly analysis of Tennyson's wider reception in different areas of Europe. It considers reader and critical responses and explores the effect of his poetry upon his contemporaries and later writers, as well as his influence upon illustrators, painters and musicians. The leading international contributors raise questions of translation and publication and of the choices made for this purpose along with the way in which his ideas and style influenced European writing and culture. Tennyson's reputation in Anglophone countries is now assured, following a decline in the years after his death. This volume enables us to chart the changes in Tennyson's European reputation during the later 19th, 20th and 21st centuries.

Technopolitics Constantino Pereira Martins (Ed.), 2024-09-24 Technopolitics is a follow-up book that intends to depart and expand the concept of Cyberpolitics to all the dimensions and effects of technology in our lives but placing politics at the center of debate and thought. Most investigations in the fields of Humanities have highlighted the impact of digitization and social virtualization and mapped the transition from the Industrial Revolution, and mass disciplinary society, to the digital revolution, telework and social atomism. The fusion of disruptive technologies is changing the fundamentals of our world almost roaming on its own towards a near future with unprecedented and unpredictable outcomes. This new technological reason implies a rupture and a paradigm shift in the radical transition from an instrumental reason (auxiliary) to an autonomous reason (essential). This means the impossibility of further sustaining the illusion of technological neutrality. Science, culture and technology appear to be merging and in combat simultaneously. And all fields of knowledge are alert to a main idea: how deep is technology shaping our societies and politics? Regardless of the outcome, an age of instability is also an age of challenges. In our era of uncertainty, and while our civilization moves forward toward a hyper-technological future, we should not forget to discuss and reflect on the values and ethics we would like to survive the ruin of time and to pass on to the next generations.

The Daily Planet Patricia Aufderheide, 2000-01-01 The Daily Planet is a long-awaited selection of Patricia Aufderheide's most important critical essays, updated and organized thematically to demonstrate the breadth of her thinking on media and film, public telecommunications policy, and contemporary society. The result is a pithy and provocative exploration of the culture of daily life under capitalism. Here, Aufderheide demonstrates criticism that is both activist and analytical. She probes the processes that shape our culture by examining diverse subjects, including the struggle to create quality children's

television programming, the meaning of Paul Harvey, the evolution of the war film over the past thirty years, and the ways journalism is changed by the Internet and other new technologies. Throughout, Aufderheide foregrounds democratic values, displaying the penetrating insights that have made her a leading public intellectual and commentator on contemporary culture.
