Poetics and Politics Toni Bernhart, Jaša Drnovsek, Sven Thorsten Kilian, Joachim Küpper, Jan Mosch, 2018-08-21 Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and net structures in Drama Studies.

Eva Cassidy Rob Burley, Jonathan Maitland, Elana Rhodes Byrd, Hugh Cassidy, Barbara Cassidy, 2003 Discusses the late singer's intimate relationships with friends, family, and fellow performers; reveals her legacy as BBC's most-requested artist; and recounts her tragic death at the age of thirty-three to cancer.

Annotations in Scholarly Editions and Research Julia Nantke, Frederik Schlupkothen, 2020-10-26 The term 'annotation' is associated in the Humanities and Technical Sciences with different concepts that vary in coverage, application and direction but which also have instructive parallels. This publication mirrors the increasing cooperation that has been taking place between the two disciplines within the scope of the digitalization of the Humanities. It presents the results of an international conference on the concept of annotation that took place at the University of Wuppertal in February 2019. This publication reflects on different practices and associated concepts of annotation in an interdisciplinary perspective, puts them in relation to each other and attempts to systematize their commonalities and divergences. Trauma Biomechanics Kai-Uwe Schmitt, Peter F. Niederer, Markus H. Muser, Felix Walz, 2013-04-09 The 2004 World

Health Day is dedicated to the theme of road safety by the World Health Organization (WHO) due mostly to the enormous socio economic costs attributed to trafik accidents. More than 140,000 people are injured, 3,000 killed, and 15,000 disabled for life everyday on the world's roads. The field of trauma biomechanics, or injury biomechanics, uses the principles of mechanics to study the response and tolerance level of biological tissues under extreme loading conditions. Through an understanding of mechanical factors that influence the function and structure of human tissues, countermeasures can be developed to alleviate or even eliminate such injuries. This book, Trauma-Biomechanics, surveys a wide variety of topics in injury biomechanics including anatomy, injury c1assification, injury mechanism, and injury criteria. It is the first collection I am aware of that lists regional injury reference values, or injury criterion, either currently in use or proposed by both U. S. and European communities. Although the book is meant to be an introduction for medical doctors and engineers who are beginners in the field of injury biomechanics, sufficient references are provided for those who wish to conduct further research, and even established researchers will find it useful as a reference for finding the biomechanical background of each proposed injury mechanism and injury criterion.

Riggs Sawyer Bennett,2021-10-26 Known as the team loner, Riggs Nadeau gives his all on the ice, but nothing extra off it. A beautiful stranger is about to cause chaos in his very structured world. As a professional hockey player, people think I live a charmed life. On the surface, I do. But they don't know the horrors of my childhood, or the real reason that I have custody of my seventeen-year-old sister, Janelle. And that's exactly the way I like it. They may think I'm a prick because I don't like to share, but that's fine. They don't know me, and they don't need to. In an effort to help Janelle get settled in Phoenix and stay out of trouble at school, I set her up with a job at Clarke's Corner, the local bookstore owned by the girlfriend of a teammate. It's there that she makes friends with Veronica Woodley, the extremely annoying, arrogant, money-hungry divorcee who I don't want anywhere near my sister. Janelle insists I'm completely wrong about Veronica, but I refuse to accept that. I have to keep reminding myself that that the gorgeous blond with legs for days is off limits. Through a series of events, I start to see Veronica for what she really is—an amazing woman who has survived her own hell to come out even stronger. I have to admit, we're more alike than not and the attraction between us burns hot. Maybe I was all wrong about my ability to love and commit, but when the past comes back to haunt me, can I be the man that Veronica, and Janelle, deserve?

The Creole Debate John H. McWhorter,2018-05-17 Creoles have long been the subject of debate in linguistics, with many conflicting views, both on how they are formed, and what their political and linguistic status should be. Indeed, over the past twenty years, some creole specialists have argued that it has been wrong to think of creoles as anything but language blends in the same way that Yiddish is a blend of German and Hebrew and Slavic. Here, John H. McWhorter debunks the most widely accepted idea that creoles are created in the same way as 'children', taking characteristics from both 'parent'

languages, and its underlying assumption that all historical and biological processes are the same. Instead, the facts support the original, and more interesting, argument that creoles are their own unique entity and are among the world's only genuinely new languages.

The Adult Attachment Projective Picture System Carol George, Malcolm L. West, 2012-04-10 This book presents cutting-edge research on adult attachment together with a complete overview of the Adult Attachment Projective Picture System (AAP), the authors' validated developmental assessment. In addition to identifying attachment classification groups, the AAP yields important information about dimensions—including defensive processes—not evaluated by other available measures. Detailed case illustrations show what the AAP looks like in action and what it reveals about individuals' early experiences, sense of self, and capacity to engage in close, protective relationships. The AAP can be used in clinical or research settings; the concluding chapter discusses promising applications to studying the neurobiology of attachment.

Dax Sawyer Bennett, 2019-07-09 The Arizona Vengeance is killing it on the ice. But one player can't seem to keep his eye on the puck—all thanks to the woman he just married to save her life. "Find your next hockey hero in Sawyer Bennett's Arizona Vengeance series."—New York Times bestselling author Jill Shalvis My name is Dax Monahan and hockey is my passion. And if you want to succeed in this sport you have to bust your ass 24/7. I've never had a hard time focusing on my career, but when my past comes knocking, no amount of training can prepare me for what lies on the other side of the door. Regan Miles was always like a sister to me. When a shared tragedy brings us face to face after several years, I'm shocked to see just how much she's changed. Gone is the shy, awkward little girl that always used to chase me and her brother around. Instead, I'm faced with a gorgeous woman who makes it damn hard to concentrate on anything but her. Turns out, she's in trouble, and the only way out is to get married. I surprise myself when I tell her to marry me. Order her, actually. And most shocking of all, she doesn't even hesitate before saying yes. So it's settled. We're getting hitched and she's moving to Arizona with me. All platonic, of course. The catch? I never knew I'd fall so hard for my best friend's little sister. Texts, Animals, Environments Frederike Middelhoff, Sebastian Schönbeck, Roland Borgards, Catrin Gersdorf, 2019 Texts, Animals, Environments. Zoopoetics and Eco-poetics probes the multiple links between ecocriticism and animal studies, assessing the relations between animals, environments and poetics. While ecocriticism usually relies on a relational approach to explore phenomena related to the environment or ecology more broadly, animal studies tends to examine individual or species-specific aspects. As a consequence, ecocriticism concentrates on ecopoetical, animal studies on zoopoetical elements and modes of representation in literature (and the arts more generally). Bringing key concepts of ecocriticism and animal

studies into dialogue, the volume explores new ways of thinking about and reading texts, animals, and environments - not as separate entities but as part of the same collective.

Nutrition and Physical Activity Nicole Wolfram, Michael Rigby, Michael Sjöström, Rosa G. Frazzica, Wilhelm Kirch, 2008-09-23 One important reason for the multitude of research activities in this field is because physical inactivity and nutrition are significant risk factors for many common non-communicable diseases. During the past decades physical inactivity and high dietary fat intakes have become increasingly prevalent in people's daily lives in industrialised countries. To prevent and to tackle these major diseases, there is a need for a much better understanding of the basic biological and underlying patho-physiological processes, as well as more relevant baseline data describing food intakes and physical activity habits amongst the general population. Being aware of the importance of nutrition and physical activity for health status a multitude of projects with different scopes and methodologies has arisen. This variety makes it necessary to bring the results of these activities into a coordinated framework.

Dramatic Experience Katja Gvozdeva, Tatiana Korneeva, Kirill Ospovat, 2016-10-11 In *Dramatic Experience: The Poetics of Drama and the Early Modern Public Sphere(s)* Katja Gvozdeva, Tatiana Korneeva, and Kirill Ospovat (eds.) focus on a fundamental question that transcends the disciplinary boundaries of theatre studies: how and to what extent did the convergence of dramatic theory, theatrical practice, and various modes of audience experience — among both theatregoers and readers of drama — contribute, during the sixteenth to eighteenth centuries, to the emergence of symbolic, social, and cultural space(s) we call 'public sphere(s)'? Developing a post-Habermasian understanding of the public sphere, the articles in this collection demonstrate that related, if diverging, conceptions of the 'public' existed in a variety of forms, locations, and cultures across early modern Europe — and in Asia.

Handbook of Technological Pedagogical Content Knowledge (TPACK) for Educators Matthew J. Koehler, Punya Mishra, 2016-01-29 The 2nd edition of the *Handbook of Technological Pedagogical Content Knowledge (TPACK) for Educators* addresses the concept and implementation of technological pedagogical content knowledge—the knowledge and skills that teachers need in order to integrate technology meaningfully into instruction in specific content areas. Driven by the growing influence of TPACK on research and practice in both K-12 and higher education, the 2nd edition updates current thinking about theory, research, and practice. Offering a series of chapters by scholars in different content areas who apply the technological pedagogical content knowledge framework to their individual content areas, the volume is structured around three themes: Current thoughts on TPACK Theory Research on Technological Pedagogical Content Knowledge in Specific Subject Areas Integrating Technological Pedagogical Content Knowledge into Teacher Education and Professional Development The *Handbook of Technological Pedagogical Content Knowledge (TPACK) for Educators* is simultaneously a mandate and a manifesto on the engagement of technology in classrooms.

100 Years Werner Heisenberg Dietrich Papenfuss, Dieter Lüst, Wolfgang P. Schleich, 2002-12-03 Over 40 renowned scientists from all around the world discuss the work and influence of Werner Heisenberg. The papers result from the symposium held by the Alexander von Humboldt-Stiftung on the occasion of the 100th anniversary of Heisenberg's birth, one of the most important physicists of the 20th century and cofounder of modern-day quantum mechanics. Taking atomic and laser physics as their starting point, the scientists illustrate the impact of Heisenberg's theories on astroparticle physics, high-energy physics and string theory right up to processing quantum information.

Language in the Public Space Holger Schmitt, 2018-06-07 As soon as we leave our private sphere, we are surrounded by a multitude of written messages in various shapes and forms: billboards, shop names, regulatory signs ('STOP'), memorial plaques, messages on clothing, graffiti and many others. In short, we enter a 'Linguistic Landscape' (LL). Language in the public space, however, often follows very different patterns from most other written texts. It tends to be, for example, syntactically simple, pragmatically right to the point, highly creative, visually oriented and multilingual. LL studies are still a fairly young discipline, with an unsettled research agenda and many questions still open. This introduction approaches language in the public space from a wide variety of linguistic perspectives. It covers some of the well-established topics like multilingualism and aspects of semiotics, but goes far beyond them. Features studied include names, writing systems, grammar, dialect and potential applications for language teaching. Each of the main chapters concludes with a series of questions for reflection or independent research as well as a number of suggestions for further reading. Two hundred b/w photographs provide rich illustration. - Holger Schmitt is a linguist (MA, PhD, Habilitation) who taught English Linguistics at various German universities (Koblenz-Landau, Bonn, Karlsruhe, Wuppertal, Konstanz). His areas of specialisation are sociolinguistics, phonetics and phonology, and educational linguistics.

All of a Sudden Jörg Heiser, 2008 Since the mid-nineties, contemporary art has been booming like never before. There is more of everything--more artists, more collectors, more galleries, more art fairs, more museums, more biennials, more interest, more industry, more pop, more hype. Some art professionals feel prompted by all this to reach for the revolvers of cultural pessimism: Mass Stupidity Is Killing Great Art! Others--often the same people a short while later--defect with all the greater abandon to the alleged enemy. The entrenched battle between defenders of art's autonomy and champions of its merging with entertainment culture continues. There is more of everything, with one exception: criteria. Criteria with which the art of the moment can be understood, judged, praised and, if need be, damned--without getting bogged down in this eternal trench warfare. In All of a Sudden: Things that Matter in Contemporary Art, Jörg Heiser provides a sharp summary of contemporary art since Marcel Duchamp. Using many artworks as example, the author shows that art is more than just a randomly chosen cultural field of activity in which to acquire a little specialist knowledge to show off with. When it's good, he claims, art hits where it hurts, striking at the heart of an ossified status quo by which it itself was brought forth. Perhaps this

is something art since Modernism has in common with slapstick. Instead of just aiming to shock and outrage, it shows authority losing its grip. Instead of inflating itself, it deflates the pompous in the name of art. The Frankfurter Allgemeine Zeitung finds the book astonishingly enlightening. The Frankfurter Rundschau praises Heiser for finally opening the eyes of his readers--something many of his colleagues have been unable to do. Jörg Heiser (*1968) lives in Berlin. He is co-editor of frieze magazine, writes for the national daily Süddeutsche Zeitung, and is a frequent contributor to art catalogues and publications. He curated the exhibitions Romantic Conceptualism (2007, Kunsthalle Nürnberg, BAWAG Foundation Vienna) and Funky Lessons (2004/2005, BüroFriedrich Berlin, BAWAG Foundation Vienna).

Joseph and the Amazing Technicolor Dreamcoat Tim Rice, 2012-10-10 Based on the smash-hit musical that has become one of the most popular children's plays of all time, this beautiful book retells in verse and illustrations one of the most action-packed stories of the Old Testament. The lively lyrics by Andrew Lloyd Webber and Tim Rice and the humorous illustrations by Quentin Blake are a delight for children of all ages. A book to be treasured! Age range: 6+ years
