Descubrió además lo mucho que podía atraerla Zane Best, un ranchero sexy y testarudo, decidido a no relacionarse con mujeres de ciudad. Branding el arte de marcar corazones Ricardo Hoyos,2016-01-01 La marca (brand, en inglés) de un bien o servicio es un activo clave de la empresa para generar ganancias y generar impacto en el mercado. A través de su presencia en la publicidad esta tiene la capacidad de generar en los consumidores estímulos racionales, sensoriales y emocionales para permanecer por largo tiempo en su lista de preferencias de consumo. La construcción, planeación y gerencia de este activo en beneficio de los objetivos de la empresa se conoce como Branding. Este libro llena un vacío en la literatura sobre marketing y publicidad pues reúne los principales aportes conceptuales sobre la marca y su uso en el mundo empresarial. Branding: el arte de marcar corazones hace un recorrido teórico y práctico por las generalidades de esta rama del marketing (tipos de marca, componentes, asignación de nombres, protección legal y la marca como activo) y por las estrategias de gerencia de marca a partir de ejemplos de marcas colombianas y extranjeras exitosas. Estudiantes de pregrado y posgrado de Marketing, Publicidad, Diseño gráfico, Diseño industrial y Administración de Empresas encontrarán aquí una completa fuente de recursos sobre marcas y publicidad. El libro incluye contenido especial en forma de realidad aumentada que los lectores pueden disfrutar por medio de un dispositivo electrónico. Incluye: - Modelos de construcción de marcas poderosas (Keller, Aaker, Young & Rubicam, Milward Brown). - Protección legal de marcas y registro marcario. - El gerente de marca y el manual de identidad como elementos clave del departamento de marketing. Contenidos en el Sistema de Información en Línea (SIL): Al final del libro está ubicado el código para que pueda acceder al Sistema de Información en Línea - SIL, donde encontrar todos los videos utilizados a los largo del libro que le ayudarán a profundizar en los temas mencionados, junto con un ejemplo de un manual de identidad corporativa.

A User's Guide to the Brain John J. Ratey, M.D.,2001-11-13 John Ratey, bestselling author and clinical professor of psychiatry at Harvard Medical School, lucidly explains the human brain's workings, and paves the way for a better

understanding of how the brain affects who we are. Ratey provides insight into the basic structure and chemistry of the brain, and demonstrates how its systems shape our perceptions, emotions, and behavior. By giving us a greater understanding of how the brain responds to the guidance of its user, he provides us with knowledge that can enable us to improve our lives. In *A User's Guide to the Brain*, Ratey clearly and succinctly surveys what scientists now know about the brain and how we use it. He looks at the brain as a malleable organ capable of improvement and change, like any muscle, and examines the way specific motor functions might be applied to overcome neural disorders ranging from everyday shyness to autism. Drawing on examples from his practice and from everyday life, Ratey illustrates that the most important lesson we can learn about our brains is how to use them to their maximum potential.

LA FAMILIA MARIA ANGELES RUBIO GIL,2007-06-26 La gestión de las personas de la familia puede ser mucho más complicada que la de cualquier multinacional. Las cualidades, aptitudes, actitudes, capacidades, emociones, etc., se viven más libremente y más profundamente. Amor, apoyo y respeto mutuo son básicos para ser feliz en una familia sin esperar nada. No poseemos a los demás y todos tienen derecho a decidir y equivocarse. La Familia es una organización en la que todos dirigen y planifican de las más diversas maneras; se informan, comunican, y deciden. Por ello -entendida en términos muy amplios-, es una organización que merece ser vivida, atendida y considerada en toda su realidad.

Te alerta sobre los efectos perjudiciales que tienen los limpiadores y jabones aromatizados en nuestras mascotas y en nuestros niños. El libro comparte datos contundentes sobre grandes laboratorios e industrias que ocultan los químicos nocivos en sus productos, los efectos de talcos y fragancias en nuestros bebés y la trágica forma en la que los químicos tóxicos afectan las hormonas. De la necropolítica neoliberal a la empatía radical Clara Valverde Gefaell,2020-05-12 La necropolítica (del griego necro, muerte) del neoliberalismo no necesita armas para matar a los excluidos. Mediante sus políticas, los cuerpos que estorban viven muertos en vida o se les deja morir porque no son rentables. Pero como no es suficiente con mantenerlos sin acceso a comida, a techo o a atención sanitaria, se desarrollan políticas y formas de violencia discreta que aceleran su muerte y que aseguran que estén al límite de la vida con el privilegio de sobrevivir. Porque aun desde su exclusión, desde los espacios intermedios en los que habitan, los marginados son una amenaza. Sin darse cuenta ni proponérselo, esos cuerpos resonantes actúan como altavoces que ponen en evidencia todas las injusticias del neoliberalismo. Y eso, los poderosos no lo van a tolerar porque tiene el potencial de inspirar, en el resto de la sociedad, la repolitización, una empatía radical que se podría convertir en revuelta. Entre los cuerpos excluidos en los que se enfoca este libro, se profundiza de manera más detallada en la situación de los enfermos de Síndromes de Sensibilización Central como ejemplo de las motivaciones y consecuencias de la necropolítica del neoliberalismo.

Toward a Psychology of Awakening John Welwood,2000 Can the meditative traditions of Buddhism be integrated with the practice of Western psychology? John Welwood's latest book addresses this question with new comprehensiveness and depth. His psychological approach brings together three major dimensions of human existence: personal, interpersonal, and suprapersonal, in one overall framework of understanding and practice. TOWARDS A PSYCHOLOGY OF AWAKENING addresses basic questions about the relationship between psychology and contemplative spirituality, the practical implications of this convergence for psychological health and healing, and the implications for relationship and community.

The Way Out Vicki Jarrett,2021-12-02 A girl on a paper round gets more than she bargained for. A couple feels the strain when the money runs out. Life plays out in the call centre, the bingo hall and at the bus stop. Vicki Jarrett's debut collection - reissued here with the bonus story 'Up Dog Down Dog' - is a deftly observed insight into the lives of people just trying to get by. Jarrett, whose first novel, *Nothing is Heavy*, was shortlisted for Scottish First Book of the Year, is drawn to the absurdity of everyday life. The characters in *The Way Out* dream of escape from jobs, relationships and disappointments, yet these darker tones are finely balanced by a natural lightness of touch. These stories are at once heart-breaking, tender, devastatingly honest and brimming with black comedy. 'There is heart here... a very impressive collection.' - Rodge Glass, author of *Bring Me the Head of Ryan Giggs* 'These stories are warm yet chilling, barbed but sensuous, gruesome then tender, funny and wistful. In her accounts of men, women, children and arseholes, Jarrett serves up a platter of dilemmas, desires and disappointments. This is a collection full of style and control.' - Anneliese Mackintosh, author of *Any Other Mouth*
