*Filming the Children's Book* Casie Hermansson, 2018-12-19 Just as a work of self-reflexive 'metafiction' - and the experience of reading it - differ from other types of literature, the work and the experience of viewing films that adapt metafiction are distinct from those of other films, and from other film adaptations of literary works. This book explores the adaptation of children's metafiction, including works such as *Inkheart*, *The Invention of Hugo Cabret* and the *Harry Potter* series. Not only are the plot devices of books and reading explored on screen in these adaptations, but so is the nature of transmedial adaptation itself - the act of representing one work of art in another medium. Analysing the 'work' done by children's metafiction and the experience of reading it, Casie E. Hermansson situates the adaptations of these types of books to film within contemporary adaptation criticism.

**The Palgrave Handbook of Children's Film and Television** Casie Hermansson, Janet Zepernick, 2019-05-28 This volume explores film and television for children and youth. While children's film and television vary in form and content from country to country, their youth audience, ranging from infants to "screenagers", is the defining feature of the genre and is written into the DNA of the medium itself. This collection offers a contemporary analysis of film and television designed for this important audience, with particular attention to new directions evident in the late twentieth and early twenty-first centuries. With examples drawn from Iran, China, Korea, India, Israel, Eastern Europe, the Philippines, and France, as well as from the United States and the United Kingdom, contributors address a variety of issues ranging from content to production, distribution, marketing, and the use of film, both as object and medium, in education. Through a diverse consideration of media for young infants up to young adults, this volume reveals the newest trends in children's film and television and its role as both a source of entertainment and pedagogy.

**Christopher Nolan** Darren Mooney,2018-10-24 Christopher Nolan is one of the defining directors of the 21st century. Few of his contemporaries can compete in terms of critical and commercial success, let alone cultural impact. His films have a rare ability to transcend audience expectations, appealing to both casual moviegoers and dyed-in-the-wool cineastes. Nolan's work ranges from gritty crime thrillers (Memento, Insomnia) to spectacular blockbusters (the Dark Knight trilogy, Inception). They have taken audiences from the depths of space (Interstellar) to the harsh realities of war (Dunkirk). And they have pushed the boundaries of the possible in modern movie making. This critical history covers his complete filmography, tracing his career from film student to indie darling to Oscar-nominated auteur.

**The Beat of the Pendulum** Catherine Chidgey,2018-12-17 The book of the year... Every day for a year, Catherine Chidgey recorded the words and language she came across during her day-to-day life - phone calls, television commercials, emails, radio shows, conversations with her family, street signs and satnav instructions. From these seemingly random snippets, she creates a fascinating portrait of modern life, focusing on the things that most people filter out. Chidgey listens in as her daughter, born through surrogacy, begins to speak and develop a personality, and her mother slips into dementia. With her husband, she debates the pros and cons of moving to a new town. With her publisher, she discusses the novel she is writing. While, all around, the world is bombarding her with information. In *The Beat of the Pendulum*, Chidgey approaches the idea of the novel from an experimental new direction. It is bold, exciting, funny, moving and utterly compelling. 'For those who love books, Catherine Chidgey is a find' - Ali Smith

Wild Pork and Watercress Barry Crump,2016-02-29 When Ricky's beloved Aunt Bella dies and Social Welfare threatens to put him into care, the overweight Maori boy and cantankerous Uncle Hec flee into the remote and rugged Ureweras. The impassable bush serves up perilous adventures, forcing the pair of misfits to use all their skills to survive hunger, wild pigs and the vicissitudes of the weather. Worse still are the authorities, determined to bring Ricky and Uncle Hec to justice. But despite the difficulties of life on the run, a bond of trust and love blossoms between the world-weary man and his withdrawn side-kick--Publisher information.

**Caging Skies** Christine Leunens,2010-09-01 A gripping, atmospheric novel about obsession and love. 'Little by little, Elsa leaked out of her enclosure, strayed out into every corner of the house . . . In my bed at night, she switched places with me, she enjoying the softness of my bed, and I finding myself cramped up in her airless niche.' This extraordinary novel is seen through the eyes of Johannes. An avid member of the Hitler Youth in the 1940s, he discovers his parents are hiding a Jewish girl called Elsa behind a false wall in their large house in Vienna. His initial horror turns to interest, then love and obsession. After the disappearance of his parents, Johannes finds he is the only one aware of Elsa's existence in the house, the only one responsible for her survival. Both manipulating and manipulated, Johannes dreads the end of the war: with it will come the prospect of losing Elsa and their relationship, which ranges through passion and obsession, dependence and indifference, love and hate. This gripping, masterful work examines truth and lies at both political and personal levels, laying bare the darkest corners of the human soul.

Earth Abides George.R. Stewart,2015-06-30 In this profound ecological fable, a mysterious plague has destroyed the vast

majority of the human race. Isherwood Williams, one of the few survivors, returns from a wilderness field trip to discover that civilization has vanished during his absence. Eventually he returns to San Francisco and encounters a female survivor who becomes his wife. Around them and their children a small community develops, living like their pioneer ancestors, but rebuilding civilization is beyond their resources, and gradually they return to a simpler way of life. A poignant novel about finding a new normal after the upheaval of a global crisis.
