Houses, Secrets, and the Closet Gero Bauer,2016-04-30 »Houses, Secrets, and the Closet« investigates the literary production of masculinities and their relation to secrets and sexualities in 18th and 19th century fiction. It focusses on close readings of Gothic fiction, Sensation Novels, and tales by Horace Walpole, Ann Radcliffe, William Godwin, Mary Elizabeth Braddon, Wilkie Collins, and Henry James. The study approaches these texts through the lens of domestic space, gender, knowledge, and power. This approach serves to investigate the cultural roots of the ›closet‹ - the male homosexual secret - which reveals a more general notion of male secrecy in modern society. The study thus contributes to a better understanding of the cultural history of masculinities and sexualities.

How To Be Gay David M. Halperin,2012-08-21 No one raises an eyebrow if you suggest that a guy who arranges his furniture just so, rolls his eyes in exaggerated disbelief, likes techno music or show tunes, and knows all of Bette Davis's best lines by heart might, just possibly, be gay. But if you assert that male homosexuality is a cultural practice, expressive of a

unique subjectivity and a distinctive relation to mainstream society, people will immediately protest. Such an idea, they will say, is just a stereotype-ridiculously simplistic, politically irresponsible, and morally suspect. The world acknowledges gay male culture as a fact but denies it as a truth. David Halperin, a pioneer of LGBTQ studies, dares to suggest that gayness is a specific way of being that gay men must learn from one another in order to become who they are. Inspired by the notorious undergraduate course of the same title that Halperin taught at the University of Michigan, provoking cries of outrage from both the right-wing media and the gay press, *How To Be Gay* traces gay men's cultural difference to the social meaning of style. Far from being deterred by stereotypes, Halperin concludes that the genius of gay culture resides in some of its most despised features: its aestheticism, snobbery, melodrama, adoration of glamour, caricatures of women, and obsession with mothers. The insights, impertinence, and unfazed critical intelligence displayed by gay culture, Halperin argues, have much to offer the heterosexual mainstream.

The Stars My Destination Alfred Bester, 2011-06-06 #5 in the Millennium SF Masterworks series, a library of the finest science fiction ever written. "Science fiction has only produced a few works of actual genius, and this is one of them." —Joe Haldeman #5 in the Millennium SF Masterworks series, a library of the finest science fiction ever written. "Science fiction has only produced a few works of actual genius, and this is one of them." —Joe Haldeman Bester at the peak of his powers is, quite simply, unbeatable" —James Lovegrove Marooned in outer space after an attack on his ship, Nomad, Gulliver Foyle lives to obsessively pursue the crew of a rescue vessel that had intended to leave him to die. When it comes to pop culture, Alfred Bester (1913-1987) is something of an unsung hero. He wrote radio scripts, screenplays, and comic books (in which capacity he created the original Green Lantern Oath). But Bester is best known for his science-fiction novels, and *The Stars My Destination* may be his finest creation. With its sly potshotting at corporate skullduggery, *The Stars My Destination* seems utterly contemporary, and has maintained its status as an underground classic for fifty years. (Bester fans should also note that iBooks has reprinted *ReDemolished*, which won the very first Hugo Award in 1953.)

Psychology Hacks: Defend Yourself From Malicious People Using Dark Psychology and Manipulation

Techniques (Bypass Mind Control Brainwashing Tricks of Narcissists and Manipulators) William Piaget,2022-11-10 Ever wondered why some people always get what they want in life, regardless of their personal situations, and you're left feeling like you can't catch a break? What's the secret behind their success? The book covers topics such as: The principles of psychology Persuasion Empathy Manipulation Brainwashing Hypnosis And so much more Research in social psychology shows an incredible density and diversity of experiences carried out in the street, in stores, and also in ordinary organizational contexts. They show that our behaviors are not always under our control, and sometimes, we act without knowledge. Research also shows that we are manipulated daily by influencing factors and they lead us to do something that we would never have done spontaneously. After reading this book you will be amazed at the knowledge you have discovered, and you will come to the realization that you have now an extraordinary power that anyway you must use with caution and respect of others. P.S. These techniques come directly from a former secret agent who has applied them for years against the greatest criminals in history, and for this reason he cannot reveal his identity. The Memoirs of Lady Hyegyong JaHyun Kim Haboush,2013-09-14 Lady Hyegyong's memoirs, which recount the chilling murder of her husband by his father, form one of the best known and most popular classics of Korean literature. From 1795 until 1805 Lady Hyegyong composed this masterpiece, depicting a court life Shakespearean in its pathos, drama, and grandeur. Presented in its social, cultural, and historical contexts, this first complete English translation opens a door into a world teeming with conflicting passions, political intrigue, and the daily preoccupations of a deeply intelligent and articulate woman. JaHyun Kim Haboush's accurate, fluid translation captures the intimate and expressive voice of this consummate storyteller. Reissued nearly twenty years after its initial publication with a new foreword by Dorothy Ko, *The Memoirs of Lady Hyegyong* is a unique exploration of Korean selfhood and an extraordinary example of autobiography in the premodern era.

The Spoils of Poynton Henry James,1897 Mrs. Gareth, widowed chatelaine of Poynton, is fighting to keep her house with its priceless objets d'art from her son Owen and his lovely, utterly philistine fiancée. When she discovers that her young friend and sympathized Fleda Vetch is secretly in love with Owen, she thrusts her into the battle-line. The power struggle that ensues between the three women leaves Owen vacillating. What is at stake is not the mere possession of tables and chairs; it is, for Fleda, a conflict between aesthetic ideals, ethical imperatives, and her innermost feelings, in which she risks betraying, and being betrayed by, all that she holds most dear.

Transparency in International Law Andrea Bianchi,Anne Peters,2013-11-07 While its importance in domestic law has long been acknowledged, transparency has until now remained largely unexplored in international law. This study of transparency issues in key areas such as international economic law, environmental law, human rights law and humanitarian

law brings together new and important insights on this pressing issue. Contributors explore the framing and content of transparency in their respective fields with regard to proceedings, institutions, law-making processes and legal culture, and a selection of cross-cutting essays completes the study by examining transparency in international law-making and adjudication.

But It's Your Family . . . Sherrie Campbell, 2019-01-01 A psychologist offers a roadmap for those looking to break free of toxic family relationships and thrive in the aftermath. Toxic family abuse is always two-fold. The first layer of abuse is the original poor treatment by toxic family members, and the second is someone's denial of the ways in which abusers treat and harm them. Loving someone doesn't always mean having a relationship with them, just like forgiveness doesn't always mean reconciliation. A significant part of healing comes with accepting that there are some relationships that are so poisonous that they destroy one's ability to be healthy and function best. *But It's Your Family* is a remarkable account of what it means to cut ties to toxic family abuse and thrive in the aftermath. Inside, Dr. Sherrie Campbell clarifies: · How parents, adult children, siblings, grandparents, and in-laws can be toxic · The difference between flawed and toxic family members · Explaining the cutting of ties to children and others who may not understand · Spiritual and religious views on forgiveness · The definition of cutting ties and what No Contact actually means When readers are able to bring closure to those toxic relationships, they give themselves the space to love those family members from a distance, as fellow human beings, with the knowledge that it is unwise to remain connected. Readers learn how to love themselves in the process and fundamentally change their lives for the better!

Replenishing the Earth James Belich, 2009-06-25 Pioneering study of the anglophone 'settler boom' in North America, Canada, South Africa, Australia, and New Zealand between the early 19th and early 20th centuries, looking at what made it the most successful of all such settler revolutions, and how this laid the basis of British and American power in the 19th and 20th centuries.

The Eye of the North Sinéad O'Hart, 2017-08-22 For fans of Karen Foxlee's *Ophelia* and the *Marvelous Boy* comes a rollicking debut about a young girl's adventures in the far reaches of the icy north. When Emmeline's scientist parents mysteriously disappear, she finds herself heading for a safe house, where allies have pledged to protect her. But along the way, she is kidnapped by the villainous Doctor Siegfried Bauer, who is bound for the ice fields of Greenland. There he hopes to summon a mystical creature from the depths of the ancient glaciers, a creature said to be so powerful that whoever controls it can control the world. Unfortunately, Bauer isn't the only one determined to unleash the creature. The North Witch has laid claim to the mythical beast, too, and Emmeline—along with a scrappy stowaway named Thing—may be the only one with the power to save the world as we know it. Can Emmeline face one of the greatest legends of all time—and live to tell the tale?

The World Beneath Their Feet Scott Ellsworth, 2020-02-18 Winner of the 2020 National Outdoor Book Award for Best History/Biography A saga of survival, technological innovation, and breathtaking human physical achievement -- all set against the backdrop of a world headed toward war -- that became one of the most compelling international dramas of the 20th century. As tension steadily rose between European powers in the 1930s, a different kind of battle was already raging across the Himalayas. Teams of mountaineers from Great Britain, Nazi Germany, and the United States were all competing to be the first to climb the world's highest peaks, including Mount Everest and K2. Unlike climbers today, they had few photographs or maps, no properly working oxygen systems, and they wore leather boots and cotton parkas. Amazingly, and against all odds, they soon went farther and higher than anyone could have imagined. And as they did, their story caught the world's attention. The climbers were mobbed at train stations, and were featured in movies and plays. James Hilton created the mythical land of Shangri-La in *Lost Horizon*, while an English eccentric named Maurice Wilson set out for Tibet in order to climb Mount Everest alone. And in the darkened corridors of the Third Reich, officials soon discovered the propaganda value of planting a Nazi flag on top of the world's highest mountains Set in London, New York, Germany, and in India, China, and Tibet, *The World Beneath Their Feet* is a story not only of climbing and mountain climbers, but also of passion and ambition, courage and folly, tradition and innovation, tragedy and triumph. Scott Ellsworth tells a rollicking, real-life adventure story that moves seamlessly from the streets of Manhattan to the footlights of the West End, deadly avalanches on Nanga Parbat, rioting in the Kashmir, and the wild mountain dreams of a New Zealand beekeeper named Edmund Hillary and a young Sherpa runaway called Tenzing Norgay. Climbing the Himalayas was the Greatest Generation's moonshot-one that was clouded by the onset of war and then, incredibly, fully accomplished. A gritty, fascinating history that promises to enrapture fans of Hampton Sides, Erik Larson, Jon Krakauer, and Laura Hillenbrand, *The World Beneath Their Feet* brings this forgotten story back to life.

Darkthaw Kate A. Boorman, 2015-11-03 Lyrical and pitch-perfect - the second book from a stunning new voice in YA fiction, *Darkthaw* is for fans of *Hunger Games*, *Patrick Ness* and *Blood Red Road*. I heard the winter winds whistling through the trees, Kane's heart beating loud in my ear. We took shelter. The dark rushed in. The river froze. And our dreams began. Emmeline is itching to explore new lands and break free of the settlement where she has grown up. She's desperate for Kane to come with her, and her dreams tell her to leave as soon as winter is over and the river thaws. Spring brings new hope - and new dangers. They knew the journey would take them across dangerous terrain, but they never expected to get caught up in a war between the Dominion and the First Peoples. With everything they know and everyone they love at stake, will Emmeline and Kane follow their dreams or fall apart? An exceptional continuation of the world of *Winterkill*. 'I ripped through, desperate to know the secrets behind this captivating world . . . Thrilling and touching . . . Emmeline is a character I won't soon forget.' James Dashner, author of *The Maze Runner* 'A great read.' BookTrust 'I could go on and on about this

lyrical and memorable novel.' We Love This Book

Salt, Sugar, Fat Michael Moss, 2013-02-28 The No.1 New York Times Bestseller In China, for the first time, the people who weigh too much now outnumber those who weigh too little. In Mexico, the obesity rate has tripled in the past three decades. In the UK over 60 per cent of adults and 30 per cent of children are overweight, while the United States remains the most obese country in the world. We are hooked on salt, sugar and fat. These three simple ingredients are used by the major food companies to achieve the greatest allure for the lowest possible cost. Here, Pulitzer Prize-winning investigative reporter Michael Moss exposes the practices of some of the most recognisable (and profitable) companies and brands of the last half century. He takes us inside the labs where food scientists use cutting-edge technology to calculate the 'bliss point' of sugary drinks. He unearths marketing campaigns designed - in a technique adapted from the tobacco industry - to redirect concerns about the health risks of their products, and reveals how the makers of processed foods have chosen, time and again, to increase consumption and profits, while gambling with our health. Are you ready for the truth about what's in your shopping basket?
