**The 10,000 Year Explosion** Gregory Cochran, Henry Harpending, 2009-01-27 Resistance to malaria. Blue eyes. Lactose tolerance. What do all of these traits have in common? Every one of them has emerged in the last 10,000 years. Scientists have long believed that the great leap forward that occurred some 40,000 to 50,000 years ago in Europe marked end of significant biological evolution in humans. In this stunningly original account of our evolutionary history, top scholars Gregory Cochran and Henry Harpending reject this conventional wisdom and reveal that the human species has undergone a storm of genetic change much more recently. Human evolution in fact accelerated after civilization arose, they contend, and these ongoing changes have played a pivotal role in human history. They argue that biology explains the expansion of the Indo-Europeans, the European conquest of the Americas, and European Jews' rise to intellectual prominence. In each of these cases, the key was recent genetic change: adult milk tolerance in the early Indo-Europeans that allowed for a new way of life, increased disease resistance among the Europeans settling America, and new versions of neurological genes among European Jews. Ranging across subjects as diverse as human domestication, Neanderthal hybridization, and IQ tests, Cochran and Harpending's analysis demonstrates convincingly that human genetics have changed and can continue to change much more rapidly than scientists have previously believed. A provocative and fascinating new look at human evolution that turns conventional wisdom on its head, *The 10,000 Year Explosion* reveals the ongoing interplay between culture and biology in the making of the human race.

**The Prison-House of Language** Fredric Jameson, 2020-06-16 Fredric Jameson's survey of Structuralism and Russian Formalism is, at the same time, a critique of their basic methodology. He lays bare the presuppositions of the two movements, clarifying the relationship between the synchronic methods of Saussurean linguistics and the realities of time and history.

*Decision Making: Social and Creative Dimensions* C.M. Allwood, M. Selart, 2013-04-17 Decision making is a complex phenomenon which normally is deeply integrated into social life. At the same time the decision making process often gives the decision maker an opportunity for conscious planning and for taking a reflective stance with respect to the action

considered. This suggests that decision making allows creative solutions with a potential to change the course of events both on an individual and a collective level. Given these considerations, we argue that in order to more fully understand decision making the perspectives of different disciplines are needed. In this volume we have attempted to draw together contributions that would provide a broad view of decision making. Much work has been carried out in the writing and editing of this volume. First of all we would like to thank the contributors for their efforts in producing interesting and important texts and for their patience in the editorial process. Each chapter was edited by two or three reviewers. These reviewers are listed on a separate page in this book. Our heartfelt thanks go to them for their time and for their incisive and constructive reviews! We are also grateful to the publishing editors at Kluwer Academic Publishers, Christiane Roll and Dorien Francissen, who have been generous with their encouragement and patience throughout the editorial process.

The Encyclopedia of New Testament Textual Criticism Robert B. Waltz, 2025-01-23 This is the final version of the Encyclopedia of New Testament Textual Criticism, a web site that has been updated for several decades. This version, released January 2025, represents the final revision. The goal is to provide as much information about the sources (manuscripts, versions, etc.) used to reconstruct the original text of the New Testament. Note that this version is more recent than the web site and represents a (small) update.

*The Order of Minims in Seventeenth-Century France* P.J.S. Whitmore, 2012-12-06 Thinking of the text from the *Dies frae* (S. Matthew, XXV, 40). It is also probable that this other Saint Francis, partly out of admiration for his illustrious compatriot of Assisi and partly from a compelling urge to be superlative in all things, chose the title in opposition to the Franciscans, the *Fratres Minori*, I who had previously adopted this style taken from Saint Matthew, XXIII, 8. The title *Minim* was confirmed in these words ... *eosque Eremitos Ordinis Minimorum Fratrum Eremitarum F. Francesci de Paula in posterum nuncupari*, taken from the Papal Bull, *Meritis religiosae vitae*, of 26 February, 1493. The earliest reference to the Order in France is in a fragment preserved in the *Bibliothèque de l'Arsenal* called, *La règle et vie de Frere Franfois, pauvre et humble hermite de Paule, laquelle donne a tous ses 2 freres voulant entrer et vivre en son ordre*. The dating of this manuscript should be accepted with considerable reserve; it bears a clearly legible 1474, although it seems most unlikely that any reference to an Order occurred before the Bull of 1493 or that any Rule appeared in French before the Founder's visit to Louis XI in 1483. 3 The fame of Francis and his reputation as a *guerisseur* had reached the French court where Louis XI was sick and dying; the

King summoned him to the chateau of Le Plessis-Ies-Tours, but it required the intervention of the Pope to make the hermit undertake the journey

**Brake Design and Safety** Rudolf Limpert,1999-07-16 This book was written to help engineers to design safer brakes that can be operated and maintained easily. All the necessary analytical tools to study and determine the involvement of brakes in accident causation are included as well as all essential concepts, guidelines, and design checks.

*The Grammar of Perspective* Christopher Woods,2008-01-01 The so-called Sumerian conjugation prefixes are the most poorly understood and perplexing elements of Sumerian verbal morphology. Approaching the problem from a functional-typological perspective and basing the analysis upon semantics, Professor Woods argues that these elements, in their primary function, constitute a system of grammatical voice, in which the active voice is set against the middle voice. The latter is represented by heavy and light markers that differ with respect to focus and emphasis. As a system of grammatical voice, the conjugation prefixes provided Sumerian speakers with a linguistic means of altering the perspective from which events may be viewed, giving speakers a series of options for better approximating in language the infinitely graded spectrum of human conceptualization and experience.

Jewish Philosophical Polemics Against Christianity in the Middle Ages: With a New Introduction Daniel J. Lasker,2007-04-26 This meticulously researched study is based on a comprehensive reading of all the major Jewish sources from the Geonic period in the ninth century until the dawn of the Haskalah in the late eighteenth century. Its clearly written and carefully documented exposition of the philosophical arguments used by Jews to refute four central doctrines of Christianity (trinity, incarnation, transubstantiation, and virgin birth) makes a major contribution to a relatively neglected area of medieval Jewish intellectual history.

Cienki,1989 The object of this work will be a selected group of prepositions in English, Polish and Russian which can express spatial relationships? **World Scripture and the Teachings of Sun Myung Moon** Sun Myung Moon,2017-11-09 The Rev. Dr. Sun Myung Moon has said that he commissioned the World Scripture series based upon the firm conviction that religions have a key role

to play in building a world of lasting peace in the twenty-first century. Indeed, in compiling an authoritative selection of his own teachings, Rev. Moon has insisted on the inclusion of the sacred writings of the world. World Scripture and the Teachings of Sun Myung Moon builds on the foundation of World Scripture: A Comparative Anthology of Sacred d104s (1991), a pioneering work that examines the scriptures of the world's religions and illuminates their universal teachings and common ground. For the many people who have come to know and respect rev. Moon for his interreligious work and his efforts for world peace, these pages offer a doorway into his thought. For those who are already well acquainted with his teachings, this book reveals the rich connections between his thought and the universal heritage of the world's religions.
