The Master and Margarita Mikhail Bulgakov, 2016-03-18 Satan comes to Soviet Moscow in this critically acclaimed translation of one of the most important and best-loved modern classics in world literature. The Master and Margarita has been captivating readers around the world ever since its first publication in 1967. Written during Stalin's time in power but suppressed in the Soviet Union for decades, Bulgakov's masterpiece is an ironic parable on power and its corruption, on good and evil, and on human frailty and the strength of love. In *The Master and Margarita*, the Devil himself pays a visit to Soviet Moscow. Accompanied by a retinue that includes the fast-talking, vodka-drinking, giant tomcat Behemoth, he sets about creating a whirlwind of chaos that soon involves the beautiful Margarita and her beloved, a distraught writer known only as the Master, and even Jesus Christ and Pontius Pilate. *The Master and Margarita* combines fable, fantasy, political satire, and slapstick comedy to create a wildly entertaining and unforgettable tale that is commonly considered the greatest novel to come out of the Soviet Union. It appears in this edition in a translation by Mirra Ginsburg that was judged "brilliant" by Publishers Weekly. Praise for *The Master and Margarita* "A wild surrealistic romp. . . . Brilliantly flamboyant and outrageous." —Joyce Carol Oates, *The Detroit News* "Fine, funny, imaginative. . . . The Master and Margarita stands squarely in the great Gogolesque tradition of satiric narrative." —Saul Maloff, *Newsweek* "A rich, funny, moving and bitter novel. . . . Vast and boisterous entertainment." —*The New York Times* "The book is by turns hilarious, mysterious, contemplative and poignant. . . . A great work." —*Chicago Tribune* "Funny, devilish, brilliant satire. . . . It's literature of the highest order and . . . it will deliver a full measure of enjoyment and enlightenment." —Publishers Weekly

NAKO Gabriela Krist, 2016-10-10 The Nako temple complex from the 12th century is an extraordinary testimony of early Tibetan Buddhism not anymore preserved in today's Tibet. Endangered by the rough environment, improper treatment and frequent earthquakes, the outstanding monuments were re-discovered by scholars from Austrian universities in the 1980s. The transdisciplinary research project carried out over more than 20 years led to in-depth studies, preservation and model-like conservation of the temples and their artworks.

Deep Learning Ian Goodfellow, Yoshua Bengio, Aaron Courville, 2016-11-18 An introduction to a broad range of topics in deep learning, covering mathematical and conceptual background, deep learning techniques used in industry, and research perspectives. "Written by three experts in the field, *Deep Learning* is the only comprehensive book on the subject." —Elon

Musk, cochair of OpenAI; cofounder and CEO of Tesla and SpaceX Deep learning is a form of machine learning that enables computers to learn from experience and understand the world in terms of a hierarchy of concepts. Because the computer gathers knowledge from experience, there is no need for a human computer operator to formally specify all the knowledge that the computer needs. The hierarchy of concepts allows the computer to learn complicated concepts by building them out of simpler ones; a graph of these hierarchies would be many layers deep. This book introduces a broad range of topics in deep learning. The text offers mathematical and conceptual background, covering relevant concepts in linear algebra, probability theory and information theory, numerical computation, and machine learning. It describes deep learning techniques used by practitioners in industry, including deep feedforward networks, regularization, optimization algorithms, convolutional networks, sequence modeling, and practical methodology; and it surveys such applications as natural language processing, speech recognition, computer vision, online recommendation systems, bioinformatics, and videogames. Finally, the book offers research perspectives, covering such theoretical topics as linear factor models, autoencoders, representation learning, structured probabilistic models, Monte Carlo methods, the partition function, approximate inference, and deep generative models. Deep Learning can be used by undergraduate or graduate students planning careers in either industry or research, and by software engineers who want to begin using deep learning in their products or platforms. A website offers supplementary material for both readers and instructors.

Techno-Societal 2020 Prashant M. Pawar, R. Balasubramaniam, Babruvahan P. Ronge, Santosh B. Salunkhe, Anup S. Vibhute, Bhuwaneshwari Melinamath, 2021-06-19 This book, divided in two volumes, originates from Techno-Societal 2020: the 3rd International Conference on Advanced Technologies for Societal Applications, Maharashtra, India, that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations. The focus of this volume is on technologies that help develop and improve society, in particular on issues such as advanced and sustainable technologies for manufacturing processes, environment, livelihood, rural employment, agriculture, energy, transport, sanitation, water, education. This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions. This offers a multidisciplinary platform for researchers from a broad range of disciplines of Science, Engineering and Technology for reporting innovations at different levels.

Conceiving the Goddess Jayant Bhalchandra Bapat, Ian Mabbett, 2017 Conceiving the Goddess is an exploration of goddess cults in South Asia that embodies research on South Asian goddesses in various disciplines. The theme running through all the contributions, with their multiple approaches and points of view, is the concept of appropriation, whereby one religious group adopts a religious belief or practice not formerly its own. What is the motivation behind this? Are such actions attempts to dominate, or to resist the domination of others, or to adapt to changing social circumstances - or perhaps simply to enrich the religious experience of a group's members? In examining these questions, Conceiving the Goddess considers a range of settings: a Jain goddess lurking in a Brahminical temple, the fraught relationship between the humble Camār caste and the river goddess Gaṅgā, the mutual appropriation of disciple and goddess in the tantric exercises of Kashmiri Śaivism, and the alarming self-decapitation of the fierce goddess Chinnamastā

The God of Small Things Arundhati Roy, 2008-12-16 BOOKER PRIZE WINNER • NEW YORK TIMES BESTSELLER • An affluent Indian family is forever changed by one fateful day in 1969, from the author of The Ministry of Utmost Happiness “[The God of Small Things] offers such magic, mystery, and sadness that, literally, this reader turned the last page and decided to reread it. Immediately. It’s that haunting.”—USA Today Compared favorably to the works of Faulkner and Dickens, Arundhati Roy’s modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing “big things [that] lurk unsaid” in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, The God of Small Things is an award-winning landmark that started for its author an esteemed career of fiction and political commentary that continues unabated.

Exploring and Optimizing Agricultural Landscapes Lothar Mueller, Viktor G. Sychev, Nikolai M. Dronin, Frank Eulenstein, 2021-06-14 The book informs about agricultural landscapes, their features, functions and regulatory mechanisms. It characterizes agricultural production systems, trends of their development, and their impacts on the landscape. Agricultural landscapes are multifunctional systems, coupled with all nexus problems of the 21th century. This has led to

serious discrepancies between agriculture and environment, and between urban and rural population. The mission, key topics and methods of research in order to understanding, monitoring and controlling processes in rural landscapes is being explained. Studies of international expert teams, many of them from Russia, demonstrate approaches towards both improving agricultural productivity and sustainability, and enhancing ecosystem services of agricultural landscapes. Scientists of different disciplines, decision makers, farmers and further informed people dealing with the evolvement of thriving rural landscapes are the primary audience of this book.

Co-Production and Co-Creation Taco Brandsen, Bram Verschuere, Trui Steen, 2018-03-15 Co-production and co-creation occur when citizens participate actively in delivering and designing the services they receive. It has come increasingly onto the agenda of policymakers, as interest in citizen participation has more generally soared. Expectations are high and it is regarded as a possible solution to the public sector's decreased legitimacy and dwindling resources, by accessing more of society's capacities. In addition, it is seen as part of a more general drive to reinvigorate voluntary participation and strengthen social cohesion in an increasingly fragmented and individualized society. *Co-Production and Co-Creation: Engaging Citizens in Public Services* offers a systematic and comprehensive theoretical and empirical examination of the concepts of co-production and co-creation and their application in practice. It shows the latest state of knowledge on the topic and will be of interest both to students at an advanced level, academics and reflective practitioners. It addresses the topics with regard to co-production and co-creation and will be of interest to researchers, academics, policymakers, and students in the fields of public administration, business administration, economics, political science, public management, political science service management, sociology and voluntary sector studies.

Sociological Theory Beyond the Canon Syed Farid Alatas, Vineeta Sinha, 2017-05-27 This book expands the sociological canon by introducing non-Western and female voices, and subjects the existing canon itself to critique. Including chapters on both the 'founding fathers' of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism, while also offering much-needed correctives to them. The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time. This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon. This book's global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory.

I Am a Truck Michelle Winters, 2016 Finalist for the Scotiabank Giller Prize A National Post Best Book of the Year A tender but lively debut novel about a man, a woman, and their Chevrolet dealer. Agathe and R jean Lapointe are about to celebrate their twentieth wedding anniversary when R jean's beloved Chevy Silverado is found abandoned at the side of the

road--with no trace of R jean. Agathe handles her grief by fondling the shirts in the Big and Tall department at Hickey's Family Apparel and carrying on a relationship with a cigarette survey. As her hope dwindles, Agathe falls in with her spirited coworker, Debbie, who teaches Agathe about rock and roll, and with Martin Bureau, the one man who might know the truth about R jean's fate. Set against the landscape of rural Acadia, *I Am a Truck* is a funny and moving tale about the possibilities and impossibilities of love and loyalty. 2017 Scotiabank Giller Prize Jury Citation: French or English, stick or twist, Chevy or Ford? Michelle Winters has written an original, off-beat novel that explores the gaps between what people are and what they want to be. For a short book *I Am a Truck* is bursting with huge appetites, for love and le rock-and-roll and cheese, for male friendship and takeout tea with the bag left in. Within the novel's distinctive Acadian setting French and English co-exist like old friends - comfortable, supple to each other's whims and rhythms, sometimes bickering but always contributing to this fine, very funny, fully-achieved novel about connection and misunderstanding. And trucks. The wonder-packed drama of *I Am a Truck* plays itself out in the impossible intersection of a Coen brothers movie, a James M. Cain novel and a Looney Tunes feature. Michelle Winters has created a fresh novel overflowing with mystery, emotional complexity and a new and welcome breed of goofy charm. - Stuart Ross, author of *Snowball*, *Dragonfly*, *Jew*

Postcolonialism Cross-Examined Monika Albrecht, 2019-06-19 Taking a strikingly interdisciplinary and global approach, *Postcolonialism Cross-Examined* reflects on the current status of postcolonial studies and attempts to break through traditional boundaries, creating a truly comparative and genuinely global phenomenon. Drawing together the field of mainstream postcolonial studies with post-Soviet postcolonial studies and studies of the late Ottoman Empire, the contributors in this volume question many of the concepts and assumptions we have become accustomed to in postcolonial studies, creating a fresh new version of the field. The volume calls the merits of the field into question, investigating how postcolonial studies may have perpetuated and normalized colonialism as an issue exclusive to Western colonial and imperial powers. The volume is the first to open a dialogue between three different areas of postcolonial scholarship that previously developed independently from one another: the wide field of postcolonial studies working on European colonialism the growing field of post-Soviet postcolonial/post-imperial studies the still fledgling field of post-Ottoman postcolonial/post-imperial studies, supported by sideways glances at the multidirectional conditions of interaction in East Africa and the East

and West Indies Postcolonialism Cross-Examined looks at topics such as humanism, nationalism, multiculturalism, nostalgia, and the Anthropocene in order to piece together a new, broader vision for postcolonial studies in the twenty-first century. By including territories other than those covered by the postcolonial mainstream, the book strives to reframe the “postcolonial” as a genuinely global phenomenon and develop multidirectional postcolonial perspectives.

Competing Knowledges - Wissen im Widerstreit Anna Margaretha Horatschek, 2020-06-22 Whatever societies accept as ‘knowledge’ is embedded in epistemological, institutional, political, and economic power relations. How is knowledge produced under such circumstances? What is the difference between general knowledge and the sciences? Can there be science without universal truth claims? Questions like these are discussed in eleven essays from the perspective of Sociology, Law, Cultural Studies, and the Humanities.

LEGEND OF LAKSHMI PRASAD Lakshmi Prasad, 2017-03-14 I am Lakshmi Prasad, native of Bitihar. I am doing PhD on a very important subject -Mating habits of gay chimpanzees in West Africa- at PANU University, the best University in India and possibly the best University in the world. My idols are -Faizal Guru-, -Janab Kasab Sahib-, -Focus Carat-, -Baba Badkar-, -Zakir Nalayak-, -Gharkha Dutt-, -Dr. Kana Ayyub- and all PhD students who had committed suicide since they failed to solve their PhD problems. I personally feel that, all deprived Indians should automatically be awarded a PhD degree coupled with a free pension of 1 lakh rupees/month to be delivered in cash via post at door step. Till then we are going to fight for azaadi from India. Imagine a day, when no PhD student would have to commit suicide, imagine a day, when no lower caste will be humiliated by upper caste, s/he can use his/her doctorate degree and force others to call him/her Dr. X, Dr. Y, etc. Imagine a day, when all deprived people can take part in active politics and -Make Communism Great Again- thanks to my -one lakh per month- pension idea.
