Are We the Next Endangered Species? Richard M. Fleming, 2024-07-16 *Are We the Next Endangered Species?* unravels the complex web of historical events, misinformation, and the ominous convergence of bioweapons and eugenics. In this thought-provoking new book, Dr. Fleming challenges us to navigate the murky waters of history, exposing parallel programs developed over the last 170 years in the United States. This riveting exploration unearths ancient civilizations that embraced slavery, sterilization, and eugenics, drawing chilling parallels to our present reality. Dr. Fleming confronts the uncomfortable truth: are we repeating the mistakes of the past while expecting different outcomes? Are we destined to replicate the errors that led to the rise of powerful individuals and organizations seeking ultimate control over others? Key revelations include the stealthy usurpation of power in the United States since the 1850s, the nation's pivotal role in developing biological and chemical weapons, and its shocking collaboration with Nazi scientists, doctors, and intelligence officers. Dr. Fleming unveils the shadowy world of covert operations, the establishment of the military-industrial complex, and the surrender of medical control to the federal government. Readers will discover the intricate pathways of biowarfare and eugenics converging with the emergence of COVID. They will learn about the gain-of-function bioweapons responsible for the pandemic and the parallel development of eugenic genetic vaccines. Fleming reveals the control wielded by the military-industrial complex and world leaders over your life, movement, property, and freedoms. This book is not just an exploration of the past or a revelation of how those in power are on the brink of realizing their ultimate control, it's a call to action. It doesn't just raise awareness—it empowers readers to understand, question, and take decisive action to halt the ominous path we're on. In a world where truth is elusive and power is coveted, this book is a beacon of knowledge, urging you to discover what you can do to stop the impending threats to our existence. The future hangs in the balance and *Are We the Next Endangered Species?* provides the roadmap to safeguard it.

The Fall of the West Nicholas Hagger, 2022-11-25 In *The Syndicate* (2004) Nicholas Hagger described how in the 20th century a Syndicate of élitist mega-rich families levelled down the leading Western countries by promoting revolutions, wars and independence movements against their empires, and planned a New World Order and world government that would control the earth's resources for their own benefit. In *The Secret History of the West* (2005) he traced the Syndicate's roots

back to secret Freemasonic organisations and revolutions that undermined the West from the Renaissance to the early 20th century. In *The Fall of the West* (2022), the third book in his trilogy on the West, Hagger updates the story to include the pandemic and describes how Syndicate-driven 21st-century events from the War on Terror to Covid have brought the Western financial system to the brink of collapse and shifted power from the West to the East, and China. In this first impartial attempt to assemble all the evidence to date for the origin of Covid (like fitting together available pieces of a jigsaw to reveal the main picture) Hagger, the first to discover the Cultural Revolution in China in March 1966, finds that the three main features of Covid-19 were man-made by American NIAID-funded medics in 2002 and patented 73 times since 2008, and seem to have been surreptitiously used as a bio-weapon in a Syndicate plan to limit the rise of China and its expanding trade. A dangerous new Biological Age has been born, and the West faces being levelled down and a sudden fall. Hagger sees the post-Covid West's dream of creating a good New World Order - a vaccine-protected democratic, presidential, part-federal world government and World State with sufficient authority to abolish war and solve the world's post-Covid problems - as being challenged by the self-interested Syndicate's levelling-down; and to survive, it first has to go along with the Syndicate's plan for West and East to draw together into an authoritarian world government involving China, and democratise later. This is a thought-provoking work with a prophetic vision of the future.

Dark Agenda Samuel Dancey, 2022-11-08 What is the purpose of the medical industry? Is the health of the people really its goal? Medicine has become a sacred topic, unchallenged and undiscussed. But now, more than ever, it needs to be examined more closely. Samuel Dancey argues that the biggest truth in medicine is not about your health, but about making the most money. From Dancey's point of view, the COVID-19 pandemic lays bare this truth. The powers that be went to great effort and expense to ensure that only their side of the narrative was ever given to the public. What were they hiding? Citing a variety of sources that are not widely known by the public, Dancey gives a perspective very different from the one seen on the six o'clock news: the COVID pandemic was the world's biggest medical hoax. *Dark Agenda* looks at the different aspects of pandemic response around the world to support this claim, contending that thousands of doctors and researchers were bullied and threatened with the loss of their medical licenses if they spoke against the mainstream story. Dancey argues that tactics of fear and isolation were used to coerce the public into unreasonable restrictions, such as masking and social distancing, and eventually people were forced to get a vaccine that was eventually proven to be unsafe and ineffective. Why all this political interference and scientific manipulation? The answer, says Dancey, is profit. Imagine a medicine that must be taken by every single individual on the planet: seven billion people getting a vaccination three, four, or even five times. That translates to a lot of money enough to stage a pandemic, for starters. The mishandling of the COVID-19 outbreak and the experimental vaccine have caused far more deaths and other problems than the coronavirus itself. These will remain with us for years to come.

The Global Coup d'État Jacob Nordangård, 2024-10-15 We are in the midst of a devastating takeover of our world. The Global Coup d'État shows how, why, and what we can do to stop it. The year 2020 will go down in history as the year when the global coup d'état was initiated. In a historical context, the COVID-19 crisis, the murder of George Floyd by a police officer and subsequent riots, mass protests against government lockdowns, and the 2020 election appear rather as part of a well-directed chess game, with complete control of the whole planet as the final goal. During the crescendo of this drama, the powers behind the coup emerged quite openly, offering a techno-totalitarian and very far-reaching solution to the world. This solution, which they call the Great Reset, means that mankind must be fully integrated and merged with a worldwide

technological system, through the application of the technologies of the Fourth Industrial Revolution—all for our own safety, security, and well-being. Most people probably associate the phrase “coup d'état” with a sudden, violent takeover, with tanks around government buildings, takeover of media channels, purges of dissidents, arrests, and so on. But this is not always the case. The usurpers can also seize power without violence, in a completely legal and democratic way, with the consent or even enthusiasm of the people, as evidenced in 2020. There are many “existential threats” (climate crisis, refugee crises, terrorism, pandemics, etc.) that can be used to establish a firmer and more centralized governance. This can be a gradual process, barely perceivable until it's almost a *fait accompli*. In *The Global Coup d'État*, author and researcher Jacob Nordangård shares the history, describes the process, reveals the methods, and identifies the agents of this worldwide takeover so that we can take action before it is too late.

Limited Boxed Set: The Real Anthony Fauci Robert F. Kennedy Jr.,2023-02-14 #1 on AMAZON, and a NEW YORK TIMES, WALL STREET JOURNAL, USA TODAY and PUBLISHERS WEEKLY NATIONAL BESTSELLER Pharma-funded mainstream media has convinced millions of Americans that Dr. Anthony Fauci is a hero. He is anything but. As director of the National Institute of Allergy and Infectious Diseases (NIAID), Dr. Anthony Fauci dispenses \$6.1 billion in annual taxpayer-provided funding for scientific research, allowing him to dictate the subject, content, and outcome of scientific health research across the globe. Fauci uses the financial clout at his disposal to wield extraordinary influence over hospitals, universities, journals, and thousands of influential doctors and scientists—whose careers and institutions he has the power to ruin, advance, or reward. During more than a year of painstaking and meticulous research, Robert F. Kennedy Jr. unearthed a shocking story that obliterates media spin on Dr. Fauci . . . and that will alarm every American—Democrat or Republican—who cares about democracy, our Constitution, and the future of our children's health. *The Real Anthony Fauci* reveals how “America's Doctor” launched his career during the early AIDS crisis by partnering with pharmaceutical companies to sabotage safe and effective off-patent therapeutic treatments for AIDS. Fauci orchestrated fraudulent studies, and then pressured US Food and Drug Administration (FDA) regulators into approving a deadly chemotherapy treatment he had good reason to know was worthless against AIDS. Fauci repeatedly violated federal laws to allow his Pharma partners to use impoverished and dark-skinned children as lab rats in deadly experiments with toxic AIDS and cancer chemotherapies. In early 2000, Fauci shook hands with Bill Gates in the library of Gates' \$147 million Seattle mansion, cementing a partnership that would aim to control an increasingly profitable \$60 billion global vaccine enterprise with unlimited growth potential. Through funding leverage and carefully cultivated personal relationships with heads of state and leading media and social media institutions, the Pharma-Fauci-Gates alliance exercises dominion over global health policy. *The Real Anthony Fauci* details how Fauci, Gates, and their

cohorts use their control of media outlets, scientific journals, key government and quasi-governmental agencies, global intelligence agencies, and influential scientists and physicians to flood the public with fearful propaganda about COVID-19 virulence and pathogenesis, and to muzzle debate and ruthlessly censor dissent.

Reality Check Daniel Ford,2024-03-07 (Revised and re-published) Daniel Ford has spent half his life uncovering an agenda by what he calls a global cult to enslave humanity on every level. In Daniel Ford's first book, Paper View: In Print, a nightmare agenda of total human control and manipulation affecting every area of human life was laid-out and detailed. Ford takes the story further and deeper in Reality Check and reveals the ultimate controllers of our world and why their agenda exists at all. Reality Check is best read alongside Paper View: in Print to allow the full complex picture of humanity's plight to be seen in its entirety. Many of the changes in society since 2020 were predicted in Paper View: In Print because once you know the global agenda and its structure and method of imposition, calling the future is very simple. "Reality Check" places current events into their true context and explains humanity's plight with rare clarity and simplicity. The central premise of Reality Check is to question everything right down to the nature of reality itself which is detailed extensively in this blockbuster new book. Never before in human history has testing our own perceptions been more necessary, and in this extraordinary new book over 860 pages, Ford challenges the reader to reassess their perception of reality and everything they thought they knew. Only by doing so, Ford contends, do we stand a chance of living in a world of health, freedom and prosperity which, he says in an upbeat conclusion, is within our grasp if we only choose to take it. How do we claim this new world of respect for humanity? The answers are in Reality Check and you might be surprised by just how simple and achievable they are and how quickly they can be realised. In an era of cancel culture and ever-increasing censorship, Reality Check is the most explosive and controversial book of modern times, not only due to its content but also the environment into which it is published. Daniel Ford has had the courage to write it. Do you have the courage to read it? Prepare for a perception reboot that will stretch your current worldview to breaking point... The book also features 364 pages demolishing the Covid-19 hoax including 142 pages exposing the Covid-19 vaccine crime against humanity. Why do people think what they do? How do we see the world? How are we manipulated to see the world and current events? Reality Check dives deep into the human psyche to examine human perception and how to set our minds, and therefore our world, free. The book explores how human perception is formed, maintained and perpetuated and thus provides the ultimate answer to true freedom. Daniel Ford reveals the mechanisms of mass manipulation and control and thus the keys to set ourselves free. We live in extraordinary times, and face the most enormous challenge to our individual and collective freedom. We either stand up now and take back our perceptions to take back our freedom or stay silent and regret it forever with the children and grandchildren of today taking the consequences. It's time for a Reality Check!!

Covid-19 and the Global Political Economy Tim Di Muzio, Matt Dow, 2022-09-26 Covid-19 and the Global Political Economy investigates and explores how far and in what ways the Covid-19 pandemic is challenging, restructuring, and perhaps remaking aspects of the global political economy. Since the 1970s, neoliberal capitalism has been the guiding principle of global development: fiscal discipline, privatisations, deregulation, the liberalisation of trade and investment regimes, and lower corporate and wealth taxation. But, after Covid-19, will these trends continue, particularly when states are continuing to struggle with overcoming the pandemic and violating one of neoliberalism's key principles: balanced budgets? The pandemic has exposed the fragility of the global political economy, and it can be argued that the intensification of global trade, tourism, and finance over the past 30 years has facilitated the spread of infectious diseases such as Covid-19. Therefore, economies in lockdown, jittery markets, and massive government spending have sparked interest in potentially re-evaluating certain features of the global political economy. This volume brings together leading and upcoming critical scholars in international relations and international political economy to provide novel, timely, and innovative research on how the Covid-19 pandemic is impacting (and will continue to impact) the global economy in important dimensions, including state fiscal policy, monetary policy, the accumulation of debt, health and social reproduction, and the future of austerity and the fate of neoliberalism. This book will be of great interest to students, scholars, and experts in international relations and international political economy, as well as history, anthropology, political science, sociology, cultural studies, economics, development studies, and human geography. Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Fundamentals of Spacecraft Attitude Determination and Control F. Landis Markley, John L. Crassidis, 2014-05-31 This book explores topics that are central to the field of spacecraft attitude determination and control. The authors provide rigorous theoretical derivations of significant algorithms accompanied by a generous amount of qualitative discussions of the subject matter. The book documents the development of the important concepts and methods in a manner accessible to practicing engineers, graduate-level engineering students and applied mathematicians. It includes detailed examples from

actual mission designs to help ease the transition from theory to practice and also provides prototype algorithms that are readily available on the author's website. Subject matter includes both theoretical derivations and practical implementation of spacecraft attitude determination and control systems. It provides detailed derivations for attitude kinematics and dynamics and provides detailed description of the most widely used attitude parameterization, the quaternion. This title also provides a thorough treatise of attitude dynamics including Jacobian elliptical functions. It is the first known book to provide detailed derivations and explanations of state attitude determination and gives readers real-world examples from actual working spacecraft missions. The subject matter is chosen to fill the void of existing textbooks and treatises, especially in state and dynamics attitude determination. MATLAB code of all examples will be provided through an external website.

Roots of Empire John T. Wing, 2015-01-27 *Roots of Empire* is the first monograph to connect forest management and state-building in the early modern Spanish global monarchy. The Spanish crown's control over valuable sources of shipbuilding timber in Spain, Latin America, and the Philippines was critical for developing and sustaining its maritime empire. This book examines Spain's forest management policies from the sixteenth century through the middle of the eighteenth century, connecting the global imperial level with local lived experiences in forest communities impacted by this manifestation of expanded state power. As home to the early modern world's most extensive forestry bureaucracy, Spain met serious political, technological, and financial limitations while still managing to address most of its timber needs without upending the social balance.
