*Bears* Kevin Van Tighem,2013 Fear of bears seems almost to be part of what it is to be human. Our species emerged out of the depths of time into a world already populated by these great carnivores. Before we mastered iron and later developed firearms, we had few defences against bears--only watchful caution and elaborate ceremonies and sacrifices to ward off fear. Where human populations grow, bears have traditionally dwindled or disappeared. But when we return to the wild, to places where bears still survive, all our primeval fears awaken again. The risk of an automobile accident on the way to bear country far outstrips the risk of a close-range encounter with a bear, but it's the bear that worries us as we hurtle down the pavement at a hundred kilometres an hour. In this timely and sensitive book, Kevin Van Tighem calls on decades of experience, knowledge and understanding in order to enlighten readers about our relationship with and attitude toward bears. Along the way we are confronted with the realities confronting these great animals as a result of our ever-expanding human population and their ever-shrinking natural habitat. Through historical research, field observation, practical advice, personal anecdotes and an array of stunning photos, Van Tighem has written a comprehensive book that is meant to demystify bears in order to promote a deeper understanding of these powerful yet vulnerable creatures.

**What It Takes** Raegan Moya-Jones,2019-05-07 'In the space of three years, I went from a thirty-something full-time corporate cog, wife and mother who didn't know a thing about business, to the owner of a \$100 million company. I didn't have an MBA or well-connected friends, I had an idea that I believed in and I worked my arse off. I succeeded, despite all the odds and curveballs thrown my way, and you can too. I'm here to tell you, that you do have what it takes to start a business, change careers and be successful, and I'm going to show you how.' In *What It Takes*, Raegan Moya-Jones shares inspiration, advice and a healthy dose of real talk about what it's like to be an entrepreneur. As the founder and former CEO of aden + anais, a boutique baby swaddle company, Raegan learnt that success isn't about an Ivy League education and an influential network, success is about trusting your instincts, following your gut and knowing which rules to follow and which to break. Raegan's extraordinary story proves that it's never too late to follow your dreams. Empowering and energising, *What It Takes* will give you the kick up the arse you need to reach your full potential. So get ready to check your doubts at the door and

jump in. 'An inspiring story for anyone who wants to change their career, play by their own rules, and build a successful business in the process' Rebecca Minkoff, Founder & Creative Director

First Hundred Million E. Haldeman-Julius,2008-07-01 Every publisher dreams of selling 100 million books. E. Haldeman Julius made it happen. Year after year, publishers go under before they even see a fraction of that number. The reason is simple. Few publishers truly know what the American public wants to read. Fewer still know what key words in a title can trigger a buying frenzy. Be different and gain control of your publishing success by applying the results of E. Haldeman Julius's amazing, scientific experiment. He published thousands of books, all with the same cover design, size and price. The only thing that set them apart was the title. He discovered that a change of a single word literally could mean thousands more in sales. Gain an insight into the American public's buying habits without breaking the bank. Apply key words that trigger your buyers' insatiable appetites and be the next publishing success. Don't hesitate, because your competitors sure won't.

**Billion Dollar Whale** Tom Wright, Bradley Hope, 2019-09-05 A FORTUNE MAGAZINE AND FINANCIAL TIMES BEST BOOK The epic story of how a young social climber from Malaysia pulled off one of the biggest financial heists in history. In 2015, rumours began circulating that billions of dollars had been stolen from a Malaysian investment fund. The mastermind of the heist was twenty-seven-year-old Jho Low, a serial fabulist from an upper-middle-class Malaysian family, who had carefully built his reputation as a member of the jet-setting elite by arranging and financing elaborate parties for Wall Street bankers, celebrities, and even royalty. With the aid of Goldman Sachs and others, Low stole billions of dollars, right under the nose of global financial industry watchdogs. He used the money to finance elections, purchase luxury real estate, throw champagne-drenched parties, and bankroll Hollywood films like *The Wolf of Wall Street*. *Billion Dollar Whale* reveals how this silver-tongued con man, a 'modern Gatsby', emerged from obscurity to pull off one of the most audacious financial heists the world has ever seen, and how the financial industry let him. It is a classic harrowing parable of hubris and greed in the financial world.
