Arresting the Arrester Dr. D. K. Olukoya, 2016-07-18 Arresting the Arrester Knowing that he has a short time left, the enemy is on the rampage to militate, checkmate and possibly arrest every child of God. His arresting agenda is manifested in stunted spiritual growth, destiny derailment, stolen virtues, caged glories, poverty, physical debility and even death. As a believer and an end-time warrior, you need a strategy to arrest the arrester of your destiny. You also need a full knowledge of the identity and tricks of your potential arrester. These needs are met with insightful perspicacity and depth in this new book by one of God's generals that the Lord has gifted this generation. The blueprint for spiritual victory as revealed in the book will show you the ingredients of Christ's winning strategy. You are therefore enjoined to study and appropriate this strategy; as you put on the battle-gear of a prayer warrior, turn the tide against the arrester and begin to claim your divine glory and destined rights in Christ Jesus.

Theological Education in Contemporary Africa Grant LeMarquand, Joseph D. Galgalo, 2004 Part One addresses 'Theological Foundations.' The five essays in this section deal with the Bible, Theology and Ecumenism. The subjects of theological methods, contextual hermeneutics, and appropriate curriculum are given special attention. Of course even foundational issues cannot be discussed in a vacuum and so each of the essays addresses these foundational subjects in the light of African realities. Part Two deals with 'Contemporary Issues.' It is particularly in this section that the traditional themes in African theology have been somewhat displaced by concerns which are today very pressing indeed. Three essays are devoted to the question of HIV/AIDS. This disease, which has devastated the African continent, demands a theological and practical response from those who claim to follow Jesus Christ. If the churches do not respond to this crisis with energy and determination we should not be surprised if the next generation wonders whether the Gospel has the power which we claim that it has. Two essays address the question of Islam and Muslim-Christian Relations in Africa. The resurgence of Islam

in the world today is a concern of many. For those who believe in Jesus, this is a challenge which demands much wisdom and love. How should we respond to our Muslim neighbours? What are appropriate and thoughtful ways to share the love of Christ? Two further essays appear under the title of 'The Marginalized.' This could, of course, be a much large section. Those who suffer from AIDS could be included in this number, and one might have expected to see at least one essay on the place of women. In this volume, however, the 'disabled' and youth are highlighted. Both groups are clearly in need of the attention of the churches, and both groups are clearly misunderstood and neglected. The final section of Part Two contains essays, which focus attention on 'Theological Paedagogy.' All of the other contributions to this volume make suggestions and arguments about curriculum, resources, and issues of concern for theological educators. The causal aim of this book is that these essays may help us to reflect in an intentional way on the implications of contemporary realities for the future of theological education.

An Introduction to Botanical Medicines Antoine Al-Achi, 2008-08-30 Since antiquity, humans have used botanicals to treat various conditions affecting their organ systems. This book is built around explaining which plants may be used for major ailments affecting the various systems. The increasing availability of botanicals on the market, intended to be used as dietary supplements for health, has been fueled by the public's demand for a more natural approach to healthcare. Unfortunately, much of the information fed to the public on alternatives is based on anecdotal evidence (case studies), the advice of friends, or media features that often do not stand up to standards for scientific evidence. In this book, Al-Achi explains current research and science that exists or remains lacking-for the various botanicals as healthcare products. He also details the potential misuse and the dangers of some herbal formulas. Photographs of 62 medicinal plants are included.--

Drawers of Power from the Heavenlies Dr. D. K. Olukoya, 2013-12-16 Many people suffer today because of gross ignorance concerning what is actually going on in the spiritual realm. Some of the stubborn problems that men are struggling with today were actually programmed into human lives through certain hidden powers. These powers carry out their activities in the day and in the night through association with very powerful spiritual strongholds. The importance of this message is to show you that many problems are caused by powers which rule the day and the night. These powers have continued to perpetrate all forms of wickedness in the lives of millions, if not billions of men and women. You will experience a great change in your life the moment you begin to understand and control the powers that rule the day and the night.

Political Violence and Oil in Africa Zainab Ladan Mai-Bornu, 2020-06-08 The book argues that in order to better understand the undercurrents of the Niger Delta conflict, it is imperative to analyse the dynamics of choice in terms of the distinct courses of action taken by the Ogoni and Ijaw. Given the similar structural constraints, the author considers why the Ogoni adopted nonviolent resistance, and the Ijaw violent resistance. This book is divided into seven chapters starting with an introduction to oil and political violence in African conflicts, and includes a synoptic overview of four other resource-rich countries in Africa. Theoretical and conceptual underpinnings of conflict are then presented with the aim of situating the Niger Delta conflicts within the wider conflict literature. Chapter Three concentrates the discussion on the Nigerian Niger Delta, outlining the core issues at the centre of the contestations. The following three chapters offer an in-depth empirical analysis on the interaction between the narratives on nonviolence versus violence, the nature of leadership styles, and the organisation of the Ogoni and Ijaw movements along with a concluding chapter.

Mental Health and Development Natalie Drew, Michelle Funk, World Health Organization, 2010 This report presents compelling evidence that people with mental health conditions meet major criteria for vulnerability. The report also describes how vulnerability can lead to poor mental health, and how mental health conditions are widespread yet largely unaddressed among groups identified as vulnerable. It argues that mental health should be included in sectoral and broader development strategies and plans, and that development stakeholders have important roles to play in ensuring that people with mental health conditions are recognized as a vulnerable group and are not excluded from development opportunities. The recommended actions in this report provide a starting point to achieve these aims.--Page xxiv.

The Illustrated Encyclopedia of Warfare DK, 2012-04-16 Previously published in hardcover as War: The Definitive Visual History War has been central to the rise and fall of civilizations since the dawn of time. The history of warfare first emerges from legend in Mesopotamia, the cradle of civilization, around 3,000 years before the birth of Christ. The first armies that we know about fought in Sumeria, Ancient Egypt, and Syria. From these first battles, fought with spears or axes on horseback or on foot, The Illustrated Encyclopedia of Warfare traces the campaigns and conflicts that have shaped world history and examines the evolution of military tactics and technology. The story of the development from these primitive battles to the global conflicts of the 20th century and the modern War on Terror is the story of humanity itself, reflecting the same political, cultural and technological forces that have defined human history. From longbows to laser-guided missiles;

from chariots to jet aircraft; and from Samurai warriors to SAS soldiers, The Illustrated Encyclopedia of Warfare provides the definitive visual chronicle of this intense, brutal, and often heroic tale. War combines a coherent and compelling spread-by-spread historical narrative with a wealth of supporting features on weapons and technology, strategy and tactics, the experience of war, and history's fighting elites to recount the epic 5,000-year story of warfare and combat through the ages.
