

Cairo Egypt Population Density

Markus Porsche-Ludwig, Ying-Yu Chen

Population, Land Use, and Environment National Research Council, Division of Behavioral and Social Sciences and Education, Center for Economics, Governance, and International Studies, Committee on the Human Dimensions of Global Change, Panel on New Research on Population and the Environment, 2005-10-15 *Population, Land Use, and Environment: Research Directions* offers recommendations for future research to improve understanding of how changes in human populations affect the natural environment by means of changes in land use, such as deforestation, urban development, and development of coastal zones. It also features a set of state-of-the-art papers by leading researchers that analyze population-land use-environment relationships in urban and rural settings in developed and underdeveloped countries and that show how remote sensing and other observational methods are being applied to these issues. This book will serve as a resource for researchers, research funders, and students.

Egypt John Pallister, 2004 Landscape, climate and water - Population - Agriculture - Economy and trade - Tourism - Managing the Nile - Religion - Role of women - Social, economic and environmental issues for the future.

Egypt Lillian C Harris, 2005-06-22 Kassem provides a concise and accessible introduction to Egypt, including chapters on domestic politics, foreign policy, economy and state formation. It will be of interest to anyone studying Egypt from a social science perspective.

Inside Inequality in the Arab Republic of Egypt Paolo Verme, Sherine Al-Shawarby, 2014-04-08 *Inside Inequality in the Arab Republic of Egypt: Facts and Perceptions Across People, Time, and Space* comprises four papers prepared in the framework of the Egypt inequality study financed by the World Bank. The first paper, by Sherine Al-Shawarby, reviews the studies on inequality in Egypt since the 1950s with the double objective of illustrating the importance attributed to inequality through time and of presenting and compare the main published statistics on inequality. The second paper, by Branko Milanovic, turns to the global and spatial dimensions of inequality. The Egyptian society remains deeply divided across space and in terms of welfare, and this study unveils some of the hidden features of this inequality. The third paper, by Paolo Verme, studies facts and perceptions of inequality during the 2000-2009 period, which preceded the Egyptian revolution. The fourth paper, by Sahar El Tawila, May Gadallah, and Enas Ali A.El-Majeed, assesses the state of poverty and inequality among the poorest villages of Egypt. The paper attempts to explain the level of inequality in an effort to disentangle those

factors that derive from household abilities from those factors that derive from local opportunities. Inside Inequality in the Arab Republic of Egypt provides some initial elements that could explain the apparent mismatch between inequality measured with household surveys and inequality aversion measured by values surveys. This is a particularly important and timely topic to address in light of the unfolding developments in the Arab region. The book should be of interest to any observer of the political and economic evolution of the Arab region in the past few years and to poverty and inequality specialists interested in a deeper understanding of the distribution of incomes in Egypt and other countries in the Middle East and North Africa region. World Bank Studies are available individually or on standing order. The World Bank Studies series is also available online through the Open Knowledge Repository (<https://openknowledge.worldbank.org/>) and the World Bank e-Library (www.worldbank.org/elibrary). Book jacket.

Population Situation Analysis (PSA) ,2010 The Population Situation Analysis (PSA) provides the basis for an integrated appraisal of the population and reproductive health dynamics and their impacts on poverty, inequality and development. By integrating a micro and macro analytical approach, the population situation analysis clarifies the interactions between individual behaviour and demographic dynamics. The Population Situation Analysis (PSA) responds to demand by countries that international cooperation should promote national capacity-building and recognize national ownership and leadership as prerequisites for development, in accordance with the principles agreed at the International Conference on Population and Development (ICPD) and the Millennium Declaration. This manual contributes to more efficient evidence-based programming, which relies on increased capacity for data generation, new databases, the consolidation of available evidence and the promotion of the use of hard data. The knowledge generated thr

Language and Identity in Modern Egypt Reem Bassiouney,2015-01-27 Focussing on nationalist discourse before, during and after the revolution of 2011, Reem Bassiouney explores the two-way relationship between language in Egyptian public discourse and Egyptian identity. Her sources include newspaper articles, caricatures,

Cairo Max Rodenbeck,2017-10-04 From a noted journalist who has spent much of his life in Cairo, here is a dazzling cultural excavation of that most ancient, colorful, and multifaceted of cities. The seat of pharaohs and sultans, the prize of conquerors from Alexander to Saladin to Napoleon, Cairo--nicknamed the Victorious--has never ceased reinventing herself.

With intimate knowledge, humor, and affection, Rodenbeck takes us on an insider's tour of the magnificent city: its backstreets and bazaars, its belly-dance theaters and hashish dens, its crowded slums and fashionable salons, its incomparably rich past and its challenging future. *Cairo: The City Victorious* is a unique blend of travel and history, an epic, resonant work that brings one of the world's great metropolises to life in all its dusty, chaotic beauty.

Routledge Handbook on Contemporary Egypt Robert Springborg, Amr Adly, Anthony Gorman, Tamir Moustafa, Aisha Saad, Naomi Sakr, Sarah Smierciak, 2021-03-30 Investigating key features of contemporary Egypt, this volume includes Egypt's modern history, politics, economics, the legal system, environment, and its media and modes of cultural expression. It examines Egypt's capacities to meet developmental challenges, ranging from responding to globalization and regional competition to generating sufficient economic growth and political inclusion to accommodate the interests and demands of a rapidly growing population. The macrohistory of Egypt is complemented by the microhistories of specific institutions and processes that constitute separate sections in this handbook. The chapters revolve around political economy: it is shaped by the people and their abilities, political and legal institutions, organization of the economy, natural and built environments, and culture and communication. Politics has been overwhelmingly authoritarian and coercive since the military seized power in 1952; consequently, the contributions address both the causes and consequences of unbalanced civil-military relations, military rule, and persisting authoritarianism in the political society. This multidisciplinary handbook serves a dual purpose of introducing readers to Egypt's history and contemporary political economy and as a comprehensive key resource for postgraduate students and academics interested in modern Egypt.

The Atlas of Global Conservation Jonathan M. Hoekstra, 2010 The Atlas of Global Conservation is a premier resource for everyone concerned about the natural world. Top scientists at The Nature Conservancy have joined forces to create this guide to the state of the planet today. With over 80 full-color maps and other graphics contextualized with clear, informative discussion, this book offers an unprecedented view of trends across the world's terrestrial, marine, and freshwater environments. Interspersed throughout, essays by noted international authorities point the way forward in confronting some of our greatest conservation challenges.--Publisher information.
