Indigenous Homelessness Evelyn Peters, Julia Christensen, 2016-10-28 Being homeless in one's homeland is a colonial legacy for many Indigenous people in settler societies. The construction of Commonwealth nation-states from colonial settler societies depended on the dispossession of Indigenous peoples from their lands. The legacy of that dispossession and related attempts at assimilation that disrupted Indigenous practices, languages, and cultures—including patterns of housing and land use—can be seen today in the disproportionate number of Indigenous people affected by homelessness in both rural and urban settings. Essays in this collection explore the meaning and scope of Indigenous homelessness in the Canada, Australia, and New Zealand. They argue that effective policy and support programs aimed at relieving Indigenous homelessness must be rooted in Indigenous conceptions of home, land, and kinship, and cannot ignore the context of systemic inequality, institutionalization, landlessness, among other things, that stem from a history of colonialism. *Indigenous Homelessness: Perspectives from Canada, New Zealand and Australia* provides a comprehensive exploration of the Indigenous experience of homelessness. It testifies to ongoing cultural resilience and lays the groundwork for practices and policies designed to better address the conditions that lead to homelessness among Indigenous peoples.

The Theory and Practice of Local Government Reform Brian Dollery,Lorenzo Robotti,2008-01-01 'Structural reform has been one of the most important, and yet one of the most neglected, aspects of modern local government. This book represents the first attempt, since the early seventies, at providing a comprehensive account of both the theory and practice of structural reform in local government in developed countries. Using recent policy experience from seven different countries, the authors present seminal theoretical perspectives on structural reforms in local governance and the policy implications deriving from them. Written by well-known scholars of local government from around the world, this volume is a must-read for all academics, practitioners, students and policymakers.' - Giorgio Brosio, University of Turin, Italy

Broken Circles Anna Haebich,2000-11-01 This major work reveals the dark heart of the history of the Stolen Generations in Australia. It shows that, from the earliest times of European colonization, Aboriginal Australians experienced the trauma of loss and separation, as their children were abducted, enslaved, institutionalized, and culturally remodeled. Providing a moving and comprehensive account of this tragic history, this study covers all Australian colonies, states, and territories. The analysis spans 200 years of white occupation and intervention, from the earliest seizure of Aboriginal children, through their systematic state removal and incarceration, and on to the harsh treatment of families under the assimilation policies of the 1950s and 1960s. The resistance struggle and achievements of Aboriginal people in defending their communities, regaining their rights and mending the broken circles of family life provides a compelling parallel story of determination and courage.
