This volume comprises a collection of articles dedicated to Gisbert on the occasion of his 60th birthday, covering a range of topics from these areas and beyond. The contributions have in common that in a broad sense they have to do with language structures (and thus trees), and that in a more specific sense they have to do with birds. They thus cover two of Gisbert's major interests in- and outside of the linguistic world (and perhaps even at the interface).

Liturgy Wars Theodore M. Vial,2004-03-01 The nineteenth century was a period of intense religious conflict across Europe, as people confronted the major changes brought by modernity. In Zurich, one phase of this religious conflict was played out in a struggle over revisions to the ritual of baptism. In its analysis of the Zurich conflict, *Liturgy Wars* offers a strategy for understanding the links between theology, ritual, and socio-politics. Theodore M. Vial offers a new perspective on contemporary ritual studies - and critiques the cognitivist approaches of Lawson and McCauley, as well as Catherine Bell's analysis of power and the body - by reintergrating the importance of speech acts into considerations of ritual.

Six Bridges Darl Rastorfer,2000-01-01 Othmar Ammann created six long-span bridges in New York, as part of the region's interstate highway system. They came to define an epoch and shape the modern New York metropolis. This book shows the physical transformation of the city, the construction and the completed bridges.

Architect of Reformation Bruce Gordon,Emidio Campi,2019-03-22 Heinrich Bullinger, the friend and successor of Huldrych Zwingli, led the Zurich church for almost fifty years after Zwingli's death and was largely responsible for the construction of the Reformed church in the sixteenth century. Nevertheless, Bullinger has often been called the forgotten Reformer of the sixteenth century. *Architect of Reformation* is the first broad introduction to Bullinger's life and theology available in English. The book features an international collection of the world's leading Bullinger and Reformation scholars addressing such categories as theology, spirituality, ecclesiology, humanism, politics, and family. At the five-hundred-year anniversary of Bullinger's birth, *Architect of Reformation* gives the often-overlooked Swiss Reformer his long-overdue and much-deserved recognition as a leading figure among second generation Reformers.

Embracing the Track of Expression: An Emotional Symphony within **Deutscher Bildhauer Ewald Gestorben 1965**

In some sort of consumed by displays and the ceaseless chatter of fast interaction, the melodic beauty and psychological symphony developed by the published term often fade into the backdrop, eclipsed by the persistent noise and distractions that permeate our lives. But, situated within the pages of **Deutscher Bildhauer Ewald Gestorben 1965** a charming fictional value filled with organic emotions, lies an immersive symphony waiting to be embraced. Crafted by a masterful composer of language, this interesting masterpiece conducts visitors on a mental journey, well unraveling the hidden songs and profound affect resonating within each cautiously constructed phrase. Within the depths of this poignant examination, we can discover the book is central harmonies, analyze its enthralling writing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
