Funeral Service Barbara K. Harrah, David F. Harrah, 1976

Do Funerals Matter? William G. Hoy, 2013-03-05 *Do Funerals Matter?* is a creative interweaving of historical, sociocultural, and research-based perspectives on death rituals, drawing from myriad sources to create a picture of what death rituals have been; and where, especially in the Western world, they are going. Death educators, researchers, counselors, clergy, funeral-service professionals, and others will appreciate the book's theory- and research-based approach to the ways in which different cultural groups memorialize their dead. They will also find clear clinical and practical applications in the author's exploration of the five ritual anchors of death-related ceremonial practice and help for professionals counseling the bereaved surrounding funerals. Based on nearly three decades of research and teaching on funeral rites, this volume promises to fill an important gap in the cross-cultural literature on bereavement, while answering an important question for our generation: Do funerals matter?

Great Objectives Robert Finch, 2016-05-26 In his book *Utilitarianism*, John Stuart Mill refers to the great objects of human life. We may assume that that what Mill calls an object is the same as an objective in modern parlance. The examples of great objectives that Mill cites include power, fame, and money. One wonders how seriously Mill was actually endorsing such aims to be the overarching objectives of living or whether he was simply expressing his finding that many people actually do take such aims as these for life. The contention is that Mill was indeed recognizing that people do choose such goals in life. After all, happiness has been recognized as an objective of life at least since the time of Aristotle, and virtue has a similarly ancient pedigree. It is quite common for ordinary people to adopt such mottos as Healthy, wealthy, and wise as aims for life. But we know that having more than one such value can lead to conflicts. This had been a concern to Sidgwick as well as other nineteenth-century moralists. A resolution to the problem was found by the time of the twentieth century, when it was realized that we should not try to achieve definite objectives, but instead look to some other procedure, such as a variety of evolution, to shape our objectives. In that case, we make plans and evaluate them, as we proceed. We should use our values, as Dewey recommended, for guideposts. The book discusses the methods of arriving at such plans and weighs some of the ethical and moral problems an individual or a society might face at the present time.

Baptism and Resurrection Alexander J. M. Wedderburn, 2011-01-01 The assumption that Romans 6 and 1 Corinthians 15

reflects a borrowing of ideas from Graeco-Roman mystery initiations is not the likeliest explanation of these texts nor does justice either to recent studies of the mysteries nor to the difficulty in reinterpreting resurrection to refer to a spiritual state which the baptized enjoyed in the present. Spiritual phenomena may have shown early Christians in the Graeco-Roman world that they had life, but not resurrection. Dying with Christ has other roots than the mysteries and the latter should not be interpreted in the light of Paul, but dying and coming to life again is a theme common to a great many rites of passage.

Exotic No More Jeremy MacClancy, 2019-09-23 In this new edition of the anthropological classic *Exotic No More*, some of today's most respected anthropologists demonstrate the tremendous contributions that anthropological theory and ethnographic methods can make to the study of contemporary society. With chapters covering a wide variety of subjects—the economy, religion, the sciences, gender and sexuality, human rights, music and art, tourism, migration, and the internet—this volume shows how anthropologists grapple with a world that is in constant and accelerating transformation. Each contributor uses examples from their adventurous fieldwork to challenge us to rethink some of our most firmly held notions. This fully updated edition reflects the best that anthropology has to offer in the twenty-first century. The result is both an invaluable introduction to the field for students and a landmark achievement that will set the agenda for critical approaches to the study of contemporary life. Funerals in Africa Michael Jindra,Joël Noret,2011-09-01 Across Africa, funerals and events remembering the dead have become larger and even more numerous over the years. Whereas in the West death is normally a private and family affair, in Africa funerals are often the central life cycle event, unparalleled in cost and importance, for which families harness vast amounts of resources to host lavish events for multitudes of people with ramifications well beyond the event. Though officials may try to regulate them, the popularity of these events often makes such efforts fruitless, and the elites themselves spend tremendously on funerals. This volume brings together scholars who have conducted research on funerary events across sub-Saharan Africa. The contributions offer an in-depth understanding of the broad changes and underlying causes in African societies over the years, such as changes in religious beliefs, social structure, urbanization, and technological changes and health.
