The Voyages and Adventures of Ferdinand Mendez Pinto, the Portuguese Fernão Mendes Pinto,1892

A History of Portugal and the Portuguese Empire: Volume 1, Portugal A. R. Disney,2009-04-13 The Kingdom of Portugal was created as a by-product of the Christian Reconquest of Hispania. With no geographical raison d'être and no obvious political roots in its Roman, Germanic, or Islamic pasts, it for long remained a small, struggling realm on Europe's outer fringe. Then, in the early fifteenth century, this unlikely springboard for Western expansion suddenly began to accumulate an empire of its own, eventually extending more than halfway around the globe. *A History of Portugal and the Portuguese Empire*, drawing particularly on historical scholarship postdating the 1974 Portuguese Revolution, offers readers a comprehensive overview and reinterpretation of how all this happened - the first such account to appear in English for more than a generation. Volume I concerns the history of Portugal itself from pre-Roman times to the climactic French invasion of 1807, and Volume II traces the history of the Portuguese overseas empire.

Historical Dictionary of Portugal Douglas L. Wheeler,Walter C. Opello, Jr.,2010-05-10 The third edition of *Historical Dictionary of Portugal* greatly expands on the second edition through a chronology, an introductory essay, a bibliography, and hundreds of cross-referenced dictionary entries on important persons, places, events, and institutions, as well as on significant political, economic, social, and cultural aspects.

The Origins of the Angolan Civil War Fernando Andresen Guimaraes,2016-02-08 An investigation of the origins of the Angolan civil war of 1975-76. By looking at the interaction between internal and external factors, it reveals the domestic roots of the conflict and the impact of foreign intervention on the civil war. The formative influence of colonialism and anti-colonialism on the emergence of Angolan rivalry since 1961 is described, and the externalization of that power struggle is analysed from a perspective of both international and domestic politics.

The History of Cartography, Volume 4 Matthew H. Edney, Mary Sponberg Pedley, 2020-05-15 Since its launch in 1987, the History of Cartography series has garnered critical acclaim and sparked a new generation of interdisciplinary scholarship. Cartography in the European Enlightenment, the highly anticipated fourth volume, offers a comprehensive overview of the cartographic practices of Europeans, Russians, and the Ottomans, both at home and in overseas territories, from 1650 to 1800. The social and intellectual changes that swept Enlightenment Europe also transformed many of its mapmaking practices. A new emphasis on geometric principles gave rise to improved tools for measuring and mapping the world, even as large-scale cartographic projects became possible under the aegis of powerful states. Yet older mapping practices persisted: Enlightenment cartography encompassed a wide variety of processes for making, circulating, and using maps of different types. The volume's more than four hundred encyclopedic articles explore the era's mapping, covering topics both detailed—such as geodetic surveying, thematic mapping, and map collecting—and broad, such as women and cartography, cartography and the economy, and the art and design of maps. Copious bibliographical references and nearly one thousand full-color illustrations complement the detailed entries.

Europe 1780 - 1830 Franklin L. Ford, 2014-01-21 Europe 1780--1830 rapidly established itself as a standard introduction to European history in the age of the French Revolution and its aftermath when it first appeared. Now for the first time the book has been fully revised, updated and expanded. The half-century covered constitutes one of the most complex, eventful and rapidly changing of any in Europe's history. It is a period whose emphasis on conflict and political crisis combines daring innovation with the stubborn persistence of many older attitudes and patterns of human behaviour. Professor Ford explores these tensions throughout; and he gives his readers a powerful sense of the extraordinary energy, in every aspect of human activity, that characterised the time.

Domingos Álvares, African Healing, and the Intellectual History of the Atlantic World James H. Sweet, 2011-02-28 Between 1730 and 1750, powerful healer and vodun priest Domingos Álvares traversed the colonial Atlantic world like few Africans of his time--from Africa to South America to Europe--addressing the profound alienation of warfare, capitalism, and the African slave trade through the language of health and healing. In Domingos Álvares, African Healing, and the

Intellectual History of the Atlantic World, James H. Sweet finds dramatic means for unfolding a history of the eighteenth-century Atlantic world in which healing, religion, kinship, and political subversion were intimately connected.

Enslaving Spirits José C. Curto, 2003-12-01 Long recognized as having played many important roles in the slave export trade of western Africa, foreign alcohol and its various functions within this context have nevertheless escaped systematic analysis. This volume focuses on the topic at Luanda and its Hinterland, where the connections between foreign alcohol and the slave export trade reached their zenith. Here, following the mid-1500s, an extremely close relationship developed between imported intoxicants and slaves exported, by the thousands in any given year, into the Atlantic World: first, fortified Portuguese wine and, following 1650, Brazilian rum emerged as crucial trade goods for the acquisition of slaves. But the significance of Luso-Brazilian intoxicants goes far beyond this singular fact: they also served a number of other functions, some of which were directly tied to slave trading and others indirectly underpinned the business. The volume addresses the problem of alcohol in African history, historicizes “indigenous” alcoholic beverages in West-Central Africa at the time of contact, analyzes the introduction and increasing use of foreign intoxicants for the acquisition of exportable slaves, ponders the profits that such transactions generated within the Atlantic world, reconstructs the other uses of imported alcohol in directly and indirectly underpinning the export slave trade of Luanda, and assesses the impact of foreign alcohol upon West-Central African consumers.

Culture and Customs of Portugal Carlos A. Cunha, Rhonda Cunha, 2010-05-20 This descriptive analysis of contemporary Portuguese culture from a historical perspective covers topics ranging from art, cuisine, and music to government, politics, and religion. Portugal is evolving quickly as an integrated part of modern Europe. What was until the mid-1970s an old-world society, where 80 percent of the economy was controlled by an oligarchy of eight elite families, is now increasingly a model of an advanced European state. Portugal now ranks highly among the countries of the world in level of globalization and quality of life; it even boasts one of the best-developed renewable energy infrastructures of any developed country. Despite such widespread modernization, however, old country Portuguese traditions persist in the political realms, as well as the traditional lifestyles that endure in the countryside. Culture and Customs of Portugal devotes careful attention to such topics as Portuguese holidays, media, marriage, gender roles, architecture, and education, providing readers with a full account of Portugal's rich heritage and modern culture. The drastic changes in the nation following the

1974 military coup that overthrew a 48-year dictatorship receive special attention.

Portuguese Africa and the West William Minter, 1973

Handbook of Portuguese Studies Ieda Siqueira Wiarda, 1999-11-19

Women and Wealth in Late Medieval Europe T. Earenfight, 2010-03-15 The twelve essays in *Women and Wealth in Late Medieval Europe* re-examine the vexing issue of women, money, wealth, and power from distinctive perspectives - literature, history, architectural history - using new archival sources. The contributors examine how money and changing attitudes toward wealth affected power relations between women and men of all ranks, especially the patriarchal social forces that constrained the range of women's economic choices. Employing theories on gender, culture, and power, this volume reveals wealth as both the motive force in gender relations and a precise indicator of other, more subtle, forms of power and influence mediated by gender.

The First Global Village Martin Page, 2002 When Jonah was swallowed by the big fish, he was trying to escape to what is now Portugal. Here, Hannibal discovered the warriors, weapons and gold, to march on Rome; and Julius Caesar found the fortune that paid the way to his conquests of Gaul and England. During the Dark Ages further north, Portugal's Arab rulers made it part of the world's most advanced civilization. After the Norman conquest of Lisbon, the new Portugal bankrupted Venice and became the wealthiest nation in Europe. Before he became Pope John XXI, Joao Hispano of Lisbon wrote one of the first modern medical textbooks, consulted through much of Europe more than a century later. Portuguese Jews introduced tulips, chocolate and diamonds to Holland. The Portuguese gave the English afternoon tea, and Bombay, the key to empire. They brought to Africa protection from malaria, and slave-shipments to America; to India, higher education, curry and samosas; to Japan, tempura and firearms. Portugal entered the 21st century as the first European nation to have freed itself from communism, returned to democracy and set about rebuilding itself as a vital part of the new Europe. - Cover flap.

History of Technology Volume 27 Ian Inkster, 2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays. It deals with the history of technical discovery and change and explores the relationship of technology to other aspects of life - social, cultural and economic - and shows how technological development has shaped, and been shaped by, the society in which it occurred. Volume 27 includes a special issue on *The Professional Identity of Engineers: Historical and Contemporary Issues*.
