Contemporary Romanian Cinema Dominique Nasta,2013-10-29 Over the last decade, audiences worldwide have become familiar with highly acclaimed films from the Romanian New Wave such as *4 Months, 3 Weeks and 2 Days* (2007), *The Death of Mr. Lazarescu* (2005), and *12:08 East of Bucharest* (2006). However, the hundred or so years of Romanian cinema leading to these accomplishments have been largely overlooked. This book is the first to provide in-depth analyses of essential works ranging from the silent period to contemporary productions. In addition to relevant information on historical and cultural factors influencing contemporary Romanian cinema, this volume covers the careers of daring filmmakers who approached various genres despite fifty years of Communist censorship. An important chapter is dedicated to Lucian Pintilie, whose seminal work, *Reconstruction* (1969), strongly inspired Romania's 21st-century innovative output. The book's second half closely examines both the 'minimalist' trend (Cristian Mungiu, Cristi Puiu, Corneliu Porumboiu, Radu Muntean) and the younger, but no less inspired, directors who have chosen to go beyond the 1989 revolution paradigm by dealing with the complexities of contemporary Romania.

The Day the Country Died Ian Glasper,2014 In this revealing history, author, historian, and musician Ian Glasper explores in minute detail the influential and esoteric UK anarcho-punk scene of the early 1980s. Where some of the colorful punk bands from the first half of the decade were loud, political, and uncompromising, their anarcho-punk counterparts were even more so, totally prepared to risk their liberty to communicate the ideals they believed in so passionately. With Crass and

Poison Girls opening the floodgates, the arrival of bands such as Amebix, Chumbawamba, Flux of Pink Indians, and Zounds heralded a new age of honesty and integrity in underground music. New, exclusive interviews and hundreds of previously unreleased photographs document the impact of all of the scene's biggest names--and a fair few of the smaller ones--highlighting how anarcho-punk took the rebellion inherent in punk from the very beginning to a whole new level of personal awareness.

Circuit Analysis Irving L. Kosow,1988 Engineering educators generally agree that the important insights into theoretical material are gained through the solution of problems - the qualitative portions of the subject are easier understood once the quantitative aspects are mastered. This text adopts this approach by encouraging students to develop problem-solving skills while breaking the 'formula habit' wherein students merely solve problems by plugging in numbers. Instead, worked examples and problems have been selected to develop insight and confidence. Text examples and problems are often recycled, providing alternative solution methods to reinforce comprehension of circuit analysis concepts. In addition, as new examples are presented and solved, the underlying concepts are summarized to ensure and enhance student understanding.

Electric Machinery Fundamentals Stephen J. Chapman,2005 Electric Machinery Fundamentals continues to be a best-selling machinery text due to its accessible, student-friendly coverage of the important topics in the field. Chapman's clear writing persists in being one of the top features of the book. Although not a book on MATLAB, the use of MATLAB has been enhanced in the fourth edition. Additionally, many new problems have been added and remaining ones modified. Electric Machinery Fundamentals is also accompanied by a website that provides solutions for instructors, as well as source code, MATLAB tools, and links to important sites for students.

A Gift of Goddess Lakshmi Manobi Bandopadhyay,Jhimli Mukherjee Pandey,2017-02-10 The extraordinary and courageous journey of a transgender to define her identity and set new standards of achievement. When a boy was born in the Bandhopadhyay family, all rejoiced. A son had been born after two girls and finally the conservative father could boast about having sired a son. However, it wasn't long before the little boy began to feel inadequate in his own body and began questioning his own identity: Why did he constantly feel like he was a girl even when he had male parts? Why was he attracted to boys in a way that girls are? What could he do to stop feeling so incomplete? It was clearly a cruel joke of destiny which the family refused to acknowledge. But unknown to them, the boy had already begun his journey to becoming Manobi—the quintessential female, as nature meant for her to be. With unflinching honesty and deep understanding, Manobi tells the moving story of her transformation from a man to a woman; about how she continued to pursue her academics despite the severe upheavals and went on to become the first transgender principal of a girls' college. And in doing so, she

did not just define her own identity, but also inspired her entire community.

An Introduction to the Theory of Piezoelectricity Jiashi Yang, 2006-06-14 This book is based on lecture notes for a graduate course that has been offered at University of Nebraska-Lincoln on and off since 1998. The course is intended to provide graduate students with the basic aspects of the continuum modeling of electroelastic interactions in solids. A concise treatment of linear, nonlinear, static and dynamic theories and problems is presented. The emphasis is on formulation and understanding of problems useful in device applications rather than solution techniques of mathematical problems. The mathematics used in the book is minimal. The book is suitable for a one-semester graduate course on electroelasticity. It can also be used as a reference for researchers. I would like to take this opportunity to thank UNL for a Maude Hammond Fling Faculty Research Fellowship in 2003 for the preparation of the first draft of this book. I also wish to thank Ms. Deborah Derrick of the College of Engineering and Technology at UNL for editing assistance with the book, and Professor David Y. Gao of Virginia Polytechnic Institute and State University for recommending this book to Kluwer for publication in the series of Advances in Mechanics and Mathematics. JSY Lincoln, Nebraska 2004 Preface Electroelastic materials exhibit electromechanical coupling. They experience mechanical deformations when placed in an electric field, and become electrically polarized under mechanical loads. Strictly speaking, piezoelectricity refers to linear electromechanical couplings only.

Law and Religion in Public Life Nadirsyah Hosen, Richard Mohr, 2011-04-27 The book is unique in bringing together leading scholars and respected religious leaders to address contemporary issues in the relationship of law, religion and the state. The book highlights the interaction between secular law and religion with particular attention being given to the implications for law and society, religious tolerance and freedom. The book focuses on the practical and topical issues that have arisen in recent years in Australia. As one of the most ethnically diverse countries in the world, a pioneer of multicultural policies in immigration and social justice, Australia is a revealing site for contemporary studies in a world afraid of immigration and terrorism., issues that are affecting much of the globe.

What Cinema Is! Dudley Andrew, 2011-09-09 What Cinema Is! offers an engaging answer to Andre Bazin's famous question, exploring his 'idea of cinema' with a sweeping look back at the near century of Cinema's phenomenal ascendancy. Written by one of the foremost film scholars of our time Establishes cinema's distinction from the current enthusiasm over audio-visual entertainment, without relegating cinema to a single, older mode Examines cinema's institutions and its social force through the qualities of key films Traces the history of an idea that has made cinema supremely alive to (and in) our times

Java in the 14th Century Theodore G.Th. Pigeaud, 2013-03-09 Essentially the following commentary on the contents of the Nāgara-Kertāgama has been made up from notes by former editors of the text together with remarks, criticisms and digressions by the present author. As Kern, Krom and their contemporaries were especially interested in dynastie history and archeology their notes on those subjects are legion, and as a result of their studies on many points a communis opinio has been reached. The argumentations which led up to this end are not reproduced in the present edition. The interested reader is referred to Krom's great books: Oud-Javaansche Kunst and Hindoe-Javaansche Geschiedenis. It is to be expected that before long the results of Krom's life-work will be made accessible for English readers by De Casparis. On the other hand cultural history, religion, economics and sociology have been rather neglected by the first editors of the Nāgara-Kertā gama. The present author has done his best to remedy that omission. The reader will find that the greater part of the following commen taries is concerned with those subjects. The contemporaneous minor texts and the charters that are published, translated and annotated in the present book in the same manner as the Nāgara-Kertāgama have been chosen almost exc1usively for the valuable information on social, economic and religious conditions in the 14th century Majapahit realm that is afforded by them.

Me Hijra, Me Laxmi Laxmi, R. Raj Rao, P. G. Joshi, 2015-02-20 He was born a boy, but never felt like one. What was he then? He felt attracted to boys. What did this make him? He loved to dance. But why did others make fun of him? Battling such emotional turmoil from a very young age, Laxminarayan Tripathi, born in a high-caste Brahman household, felt confused, trapped, and lonely. Slowly, he began wearing women's clothes. Over time, he became bold and assertive about his real sexual identity. Finally, he found his true self-she was Laxmi, a hijra. From numerous love affairs to finding solace by dancing in Mumbai's bars; from being taunted as a homo to being the first Indian hijra to attend the World AIDS Conference in Toronto; from mental and physical abuse to finding a life of grace, dignity, and fame, this autobiography is an extraordinary journey of a hijra who fought against tremendous odds for the recognition of hijras and their rights.

The Cult of the Goddess Pattini Gananath Obeyesekere, 1987-01-01 Pattini-goddess, virgin, wife and mother; folk deity of Sinhala Buddhists and Jains; and assimilated goddess of the Hindu pantheon-has been worshiped in Sri Lanka and South India for fifteen hundred years or more, as she still is today. This long-awaited book is the culmination of Gananath Obeyesekere's comprehensive study of the Pattini cult and its historical, sociological, and psychoanalytical role in the culture

of South Asia. A well-known anthropologist and a native of Sri Lanka, Obeyesekere displays his impeccable scholarship and a stunning range of theoretical perspectives in this work, the most detailed analysis of a single religious complex in South Asian ethnography (and possibly in all of anthropology). Since 1955 Obeyesekere has observed and participated in modern performances of the rituals of worship, healing, and propitiation in the Pattini cult, particularly the postharvest ritual known as the gammaduva. He presents detailed texts of the gammaduva, placing them in their historical and mythic traditions. Using the texts, he formulates a cultural analysis of the Buddhist pantheon and a critique of empiricist notions of South Asian historiography. Obeyesekere shows that some seemingly historical figures of South India and Sri Lanka are mythic characters and that their historical significance can best be understood by an anthropological analysis of myth rather than through a reification of myth in history. The concurrent Hindu worship of Pattini with its myths and rituals is described in detail. Obeyesekere documents the Sanskritization of Pattini, the changing physical structures of the goddess's shrines from the 1930s to the present, the assumption by Brahman priests of ritual functions formerly carried out by folk priest, and the sociocultural causes of these changes. He traces, too, the origins and diffusion of the cult throughout its entire history, as well as its survival today. Of psychological interest is the problematic status of Pattini as virgin, wife, and mother and her relationship with her god-husband Palanga and his courtesan Madevi. Obeyesekere discusses the psychodynamics of this relationship in detail and explains its role in Hindu-Buddhist socialization and family structure. Further, he uses this analysis to account for local variations in the performance and structure of the ritual. The ritual of the killing and resurrection of Pattini's husband and her role as mater dolorosa will interest scholars of comparative religion.
