*The Orphic Hymns*, 2013-07-31 The best-selling English translation of the mysterious and cosmic Greek poetry known as the Orphic Hymns. At the very beginnings of the Archaic Age, the great singer Orpheus taught a new religion that centered around the immortality of the human soul and its journey after death. He felt that achieving purity by avoiding meat and refraining from committing harm further promoted the pursuit of a peaceful life. Elements of the worship of Dionysus, such as shape-shifting and ritualistic ecstasy, were fused with Orphic beliefs to produce a powerful and illuminating new religion that found expression in the mystery cults. Practitioners of this new religion composed a great body of poetry, much of which is translated in *The Orphic Hymns*. The hymns presented in this book were anonymously composed somewhere in Asia Minor, most likely in the middle of the third century AD. At this turbulent time, the Hellenic past was fighting for its survival, while the new Christian faith was spreading everywhere. The Orphic Hymns thus reflect a pious spirituality in the form of traditional literary conventions. The hymns themselves are devoted to specific divinities as well as to cosmic elements. Prefaced with offerings, strings of epithets invoke the various attributes of the divinity and prayers ask for peace and health to the initiate. Apostolos N. Athanassakis and Benjamin M. Wolkow have produced an accurate and elegant translation accompanied by rich commentary.

**Pagan Portals: Planetary Magic** Rebecca Beattie,2023-07-28 At the core of modern pagan witchcraft is a knowledge system concerning traditions of nature, connection, and embodiment to the astrological planets. Throughout magical history, practitioners of magic have looked to the planets for inspiration and magical help. From the earliest beginnings of written magical texts - the Grimoires - magical systems were based on the seven planetary powers that were visible in the night sky. The Grimoires were then studied by practitioners of folk-magic - the Cunning Folk - and by influential groups from the Hermetic Order of the Golden Dawn to practitioners of Modern witchcraft. **Pagan Portals: Planetary Magic** is an accessible and practical introduction to pre-modern planetary magic. It details with each of the planets, what its magical qualities are, and how to work practical magic with each.

tjhe two babylons Alexander Hislop,2007-10-10 The two Babylons, or, The papal worship proved to be the worship of Nimrod and his wife.The Two Babylons is a book written by Alexander Hislop which asserts and documents 2 main points:1. That the Ancient Pagan systems of worship of false gods were based on mysteries, and that the genesis of those mysteries could be found within the old Babylonian (chaldean) system of worship.2. That the Roman Catholic Church - [soon after its creation which occurred 300 Years after Christ] - appropriated the characteristics of Pagan systems of worship, in order to try to convince Pagans into thinking that the Roman Catholic System was the same - as their own pagan worship.
