The State of the World's Children 2006 UNICEF.,2005 The 2006 edition of UNICEF's annual report focuses on the millions of children who are most in need of access to essential education, health and protection services, but who are also the hardest to reach and often overlooked by current development programmes. These include children living in the poorest countries and most deprived communities within countries, children who face discrimination on the basis of gender, ethnicity or disability, children caught up in armed conflicts or affected by HIV/AIDS, children who lack a formal identity and who suffer from abuse and exploitation. The report examines the factors which result in their exclusion from current child development programmes and services, and highlights the policy options and actions required to address these challenges, in order to ensure all children benefit from the progress being made to achieve the Millennium Development Goals. Topics discussed include: income disparities and child survival, the marginalisation of Roma communities and their children, disability issues, children and HIV/AIDS, children living on the streets, early marriages, child labour, child protection and child rights.

Orientalism Edward W. Said,2014-10-01 A groundbreaking critique of the West's historical, cultural, and political perceptions of the East that is—three decades after its first publication—one of the most important books written about our divided world. Intellectual history on a high order ... and very exciting. —The New York Times In this wide-ranging, intellectually vigorous study, Said traces the origins of orientalism to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined the orient simply as other than the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding.

The passage of time is continued up to the stage of adolescence and marriage. Special attention is paid to royal infants and their playmates. I Am Malala Malala Yousafzai,Patricia McCormick,2014-08-19 Written in collaboration with critically acclaimed NATIONAL BOOK AWARD finalist Patricia McCormick, Malala tells her story - from her childhood in the Swat Valley to the shooting, her recovery and new life in England. She's a girl who loves cricket, gossips with her best friends, and, on the day of the shooting, nearly overslept and missed an exam. A girl who saw women suddenly banned from public, schools blown up, the Taliban seize control, and her homeland descend into a state of fear and repression. This is the story of her life, and also of her passionate belief in every child's right to education, her determination to make that a reality throughout the world, and her hope to inspire others.

The Tomb of Tutankhamun Howard Carter,John Romer,2008-01 The discovery of the tomb of Tutankhamun is a landmark in archaeological history and an event which yielded a treasure of unimaginable significance. On November 4, 1922, Howard Carter found the first sign of what proved to be Tutankhamun's tomb, but it was not until November 26 that a second sealed doorway was reached and the tomb breached after more than 3,000 years of undisturbed rest. Carter's diary, reprinted here, captures the drama of the moment of discovery and details the events which led up to the unearthing of the boy king, as well as the key events of the decade-long excavation project that followed. This new edition is introduced by distinguished Egyptologist John Romer, who reappraises Carter's achievement and places it within current attitudes towards the discovery and removal of archaeological finds.

Man, Play, and Games Roger Caillois,2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.

Private Religion at Amarna Anna Stevens,2006 In this study the author approaches the realm of 'private religion' in Egypt some 3,300 years ago. The two broad research questions that frame this study are: What was the structure of the private religious landscape at Amarna (Central Egypt, on the Nile), and what were the ideas that shaped this landscape? The starting point is a corpus of objects and structures from settlement remains at one site, Amarna, the location of Egypt's capital for a brief period (c.350 - 330 BCE) towards the end of the Eighteenth Dynasty. At the height of its occupation, Amarna was the

administrative, political and religious centre of Egypt. (Estimates of the city 's population at this time range between 20,000 and 50,000 people.) This publication is divided into three parts. Part I places the study in context. The history of the Amarna period, the layout of the site and its excavation history are summarized. Part 2 explores the issue of how to define private religion and identify its material remnants: the inventory of the material evidence - objects, architectural emplacements and buildings. It is hoped that the dissemination of this material will assist others researching similar topics, making available unpublished evidence from most of the main phases of excavation at the site. Part 3 explores the design, manufacture and acquisition of the material components of religion, and considers the forms of the conduct in which they were used. Also examined are the transcendental forces involved: the royal family and Aten, and 'traditional ' deities and spirits, including private ancestors. Part 3 also considers the shape of the religious cityscape, and the questions of who was participating in religion, and what was done with the material when it was no longer in use. The study concludes with a discussion of the motivating factors that underlay religious conduct, and which open a small window onto the ideas that shaped the religious landscape more broadly.

Génesis: el rol del Derecho en la historia de la civilización Juan Manuel Matera, 2024-08-06 ¿Cuál es el rol del Derecho en la historia de la civilización? Génesis... propone un viaje a los albores de la vida en sociedad, tiempos en que el mito y las primeras manifestaciones literarias cumplían una función normativa fundamental que dio paso, con el correr del tiempo, a las primeras leyes escritas. El primer testamento, las primeras compilaciones legales, los primeros tratados internacionales, las primeras huelgas registradas y hasta la primera declaración de derechos humanos son solo algunos de los episodios de un relato protagonizado por legendarios personajes como Ur-Nammu, Hammurabi, Moisés, Ramsés II, Draco, Solón y Ciro, entre muchos otros, figuras tan familiares como enigmáticas con las que nos topamos en el fascinante recorrido de la historia antigua. Tomando como fuentes obras clásicas de la Literatura y de la Historia, así como los descubrimientos arqueológicos más importantes de los últimos siglos, Juan Manuel Matera repasa el contexto sociopolítico y cultural en el que se gestaron las primeras leyes, para descubrir que su razón de ser es el denominador común tanto de las normas de hoy como de las de cuatro mil años atrás. Y ello, teniendo siempre presente el incuestionable hecho de que no podemos comprender la complejidad de nuestro presente, ni predecir mínimamente nuestro futuro, de no conocer nuestro pasado. Sea el área de interés del lector la Historia, el Derecho o la Literatura Clásica, estas páginas son una invitación a visitar momentos paradigmáticos en la evolución de los derechos personales y sociales, y de las normas que a lo largo del tiempo han sido el instrumento de su garantía.
