The Eye of Argon Jim Theis,2007-04-01 This is not a hoax. Jim Theis was a real person, who wrote The Eye of Argon in all seriousness as a teenager, and published it in a fanzine, Ofsan in 1970. But the story did not pass into the oblivion that awaits most amateur fiction. Instead, a miracle happened, and transcribed and photocopied texts began to circulate in science fiction circles, gaining a wide and incredulous audience among both professionals and fans. It became the ultimate samizdat, an underground classic, and for more than thirty years it has been the subject of midnight readings at conventions, as thousands have come to appreciate the negative genius of this amazing Ed Wood of prose.

Seven Going on Seventeen Jacqueline Reid-Walsh,2005 The tween is the «new girl on the block» in girlhood studies. Although the study of tween life may have derived from a particular marketing orientation at the end of the twentieth century, it is not limited by it. On the contrary, this collection of essays shows that «tween» is not a simple or unified concept, nor is it limited to a certain class of girls in a few countries. This collection by an international group of authors highlights specific methodologies for working with (and studying) tween-age girls, provides challenges to the presumed innocence of girlhood, and engages in an analysis of marketing in relation to girlhood. In so doing, this book offers a reading on these three or four years in a girl's life that suggests that this period is as fascinating as the teen years, and as generative in its implications for girlhood studies as studies of both younger and adolescent girls.
