Lesson Plans Judson G. Everitt, 2017-12-21 In *Lesson Plans*, Judson G. Everitt takes readers into the everyday worlds of teacher training, and reveals the complexities and dilemmas teacher candidates confront as they learn how to perform a job that many people assume anybody can do. Using rich qualitative data, Everitt analyzes how people make sense of their prospective jobs as teachers, and how their introduction to this profession is shaped by the institutionalized rules and practices of higher education, K-12 education, and gender. Trained to constantly adapt to various contingencies that routinely arise in schools and classrooms, teacher candidates learn that they must continually try to reconcile the competing expectations of their jobs to meet students' needs in an era of accountability. *Lesson Plans* reveals how institutions shape the ways we produce teachers, and how new teachers make sense of the multiple and complicated demands they face in their efforts to educate students.

Critical Race Theory and Classroom Practice Daniella Ann Cook, Nathaniel Bryan, 2024-05-03 This edited book shows how critical race theory (CRT) can shape teacher practices in ways that improve educational outcomes for all children, especially those most marginalized in PreK-20 classrooms. The volume bridges the gap between the theoretical foundations of critical race theory and its application in formal and informal learning environments. To promote an active and interdisciplinary engagement of critical race praxis, it illuminates the pedagogical possibilities of using CRT while explicitly addressing grade span-specific content area standards and skills. Each chapter explores how educators use a critical race theory lens to deepen student learning, teach honestly about racism and white supremacy, and actively prepare learners to equitably participate in a multiracial democracy. Written for pre- and in-service teachers, teacher educators, and anti-racist community stakeholders, the text addresses the applicability of CRT as a pedagogical practice for PreK-20 educators seeking to meaningfully combat intersectional racial injustice and to create a more just democracy. This book is necessary reading for educators, and courses in Educational Foundations, Anti-Racist Education, Social Justice Education, Curriculum Studies, Educational Leadership, and Multicultural Education.

Teaching Yoga for Life Nanette Tummers, 2009 Through Teaching Yoga for Life: Preparing Children and Teens for Healthy, Balanced Living, you can - help kids become more confident and self-directed, - use a holistic approach to enrich students' lives, and - guide kids to manage stress more effectively. Yoga is gaining popularity in schools and community programs for good reason: It provides an antidote to our fast-paced, technology-based society in which we never stop to relax, dig deeper, and learn more about ourselves and the world around us. Through Teaching Yoga for Life: Preparing Children and Teens for Healthy, Balanced Living, you can employ a simple, safe, and pragmatic method for yoga instruction even if you've never taught it before. The clear, step-by-step directions and ample illustrations make it easy for you to present each of the activities, lessons, and 52 poses included in the book. These lessons are based on a holistic approach that focuses on the physical, mental, emotional, and spiritual aspects of yoga. The book introduces basic yoga philosophy in simplified take-home messages that help students live better lives. It also explains how yoga can enrich students' health and why it should be a vital part of their lives. Yoga students commonly - improve their self-awareness and emotional intelligence; -

enhance their abilities to focus and concentrate; - develop greater cardiorespiratory endurance, muscular strength and endurance, and flexibility; and - learn how to handle stress (particularly helpful for kids with learning, behavioral, or social and economic challenges). This visual and user-friendly book is based on applied research and evidence from piloted programs, and it applies the pedagogical standards of the National Association for Sport and Physical Education. The book supplies lessons and unit plans, and you'll learn all about the basic physical poses, breathing techniques, play, visualizations, and relaxation methods. You'll also discover how to teach yoga effectively and learn the science and movement principles behind yoga. Teaching yoga can help you create a safe and relaxed atmosphere for students. You can use a multiple-intelligence approach to engage all of your students, particularly those who don't enjoy traditional sport-based activities. Yoga requires little or no equipment and can be adapted to anyone's needs. It helps people slow down and discover, or rediscover, who they are. Best of all, anyone can do it. With the expert guidance and practical approach of this text, yoga can revitalize your classroom and your students.

Success on the Spectrum Emily Wiskera, Anna Smith, Tina Sue Fletcher, Lynda Wilbur, Francis Yong Chen, 2024-01-04 The

role of arts and cultural institutions is changing. Once viewed as stewards of objects, institutions are increasingly upheld as stewards of people—spaces where the diversity of human experience is asserted, explored, and celebrated. As such, they function as public resources and should be equally accessible to all members of diverse communities. Individuals with autism spectrum disorder account for a significant portion of the community. Advocates are working to shift attitudes and nomenclature, with terms such as neurodiversity and sensory-friendly becoming more commonplace. With this, cultural institutions are putting effort into creating tailored programs and resources to welcome neurodiverse visitors who have historically been excluded from these spaces. Despite their desire to connect, many cultural workers fear they lack the expertise or resources needed to effectively create inclusive spaces and experiences. This book's content is presented by museum educators, arts administrators, occupational therapists, and school psychologists—contributors with different expertise and perspectives on the stakes of cultural arts experiences for neurodiverse visitors. We offer advice based on what has worked for us and share the sometimes-difficult lessons learned along the way. However, this advice comes with the caution there is no one-size-fits-all solution. To be truly successful, arts and cultural institutions must respond to their unique community and work within the resources and limitations of their institution. Our practical goals for the reader are threefold: To understand the value of programming for neurodiverse visitors and effectively communicate this to others, To build a toolkit of strategies and resources for neurodiverse visitors to have successful visits to cultural institutions, no matter the staff size, budget, or current stages of accessibility, To develop evaluation strategies to gauge the impact of offerings for neurodiverse visitors with results that help the reader improve, grow, and refine for the future.
