Thomas Heffernan, E Ann Matter

Rome Richard Krautheimer, 2000-04-09 Rome has long held an attraction as one of the world's great cultural, religious, and intellectual centers. In this classic study, surveying the city's life from Christian Antiquity through the Middle Ages, Richard Krautheimer focuses on monuments of art and architecture as they reflect the historical events, the ideological currents, and the meaning Rome held for its contemporaries. Lavishly illustrated, this book tells an intriguing story in which the heritage of antiquity intertwines with the living presence of Christianity. Written by one of the great art historians of our time, it offers a profile of the Eternal City unlike any drawn in the past or likely to be drawn in the future.

A History of Interior Design John F. Pile, 2005 Delivers the inside story on 6,000 years of personal and public space. John Pile acknowledges that interior design is a field with unclear boundaries, in which construction, architecture, the arts and crafts, technology and product design all overlap.

The Church Building as a Sacred Place Duncan Stroik, 2012 This collection of twenty-three essays by Duncan Stroik shows the development and consistency of his architectural vision. Packed with informative essays and over 170 photographs, this collection clearly articulates the Church's architectural tradition.

The Sacred Architecture of Byzantium Nicholas N. Patricios, 2014-04-24 The churches of the Byzantine era were built to represent heaven on earth. Architecture, art and liturgy were intertwined in them to a degree that has never been replicated elsewhere, and the symbolism of this relationship had deep and profound meanings. Sacred buildings and their spiritual art underpinned the Eastern liturgical rites, which in turn influenced architectural design and the decoration which accompanied it. Nicholas N Patricios here offers a comprehensive survey, from the age of Constantine to the fall of Constantinople, of the nexus between buildings, worship and art. His identification of seven distinct Byzantine church types, based on a close analysis of 370 church building plans, will have considerable appeal to Byzantinists, lay and scholarly. Beyond categorizing and describing the churches themselves, which are richly illustrated with photographs, plans and diagrams, the author interprets the sacred liturgy that took place within these holy buildings, tracing the development of the worship in conjunction with architectural advances made up to the 15th century. Focusing on buildings located in twenty-two different locations, this sumptuous book is an essential guide to individual features such as the synthronon, templon and ambo and also to the wider significance of Byzantine art and architecture.

Reclaiming Rome Carol M. Richardson,2009 The fifteenth century was a critical juncture for the College of Cardinals. They were accused of prolonging the exile in Avignon and causing the schism. At the councils at the beginning of the period their very existence was questioned. They rebuilt their relationship with the popes by playing a fundamental part in reclaiming Rome when the papacy returned to its city in 1420. Because their careers were usually much longer than that of an individual pope, the cardinals combined to form a much more effective force for restoring Rome. In this book, shifting focus from the popes to the cardinals sheds new light on a relatively unknown period for Renaissance art history and the history of Rome. Dr. Carol M. Richardson has been awarded the Philip Leverhulme Prize (2008) in the field of History of Arts.

Bramante's Tempietto, the Roman Renaissance, and the Spanish Crown Jack Freiberg,2014-11-10 This groundbreaking book situates Bramante's Tempietto at the center of an arts program that exalted Spain's quest for Christian

hegemony.

Early Medieval Rome and the Christian West, 2021-10-01 This illustrated book is a coherently conceived collection of interdisciplinary essays by distinguished authors on the city of Rome and its contacts with western Christendom in the early Middle Ages (c. 500-1000 AD). The first part integrates historical, archaeological, numismatic and art historical approaches to studying the transition of the city of Rome from Antiquity to the Middle Ages and offers groundbreaking new analyses of selected sites and problems. Attention is given to the economic, social, religious and cultural history of the city. In the second part of the volume historical, archaeological, liturgical and palaeographical approaches address Rome's contacts and influence in Latin Christendom in this period, with particular regard to Rome's place within Italian politics and its cultural influence in Carolingian Francia and Anglo-Saxon England.

Symbols As Power Mary Stroll, 1991 *Symbols as Power* concentrates on the papacy from the end of the Investiture Contest in 1122 until the re-establishment of the Roman Senate in 1143. By combining an investigation of such media as art, architecture, and liturgy with written sources it helps to illuminate the ideology and the policies of the individual popes relating to the church, the empire, and the city of Rome.

City of Saints Maya Maskarinec, 2018-02-23 It was far from inevitable that Rome would emerge as the spiritual center of Western Christianity in the early Middle Ages. After the move of the Empire's capital to Constantinople in the fourth century and the Gothic Wars in the sixth century, Rome was gradually depleted physically, economically, and politically. How then, asks Maya Maskarinec, did this exhausted city, with limited Christian presence, transform over the course of the sixth through ninth centuries into a seemingly inexhaustible reservoir of sanctity? Conventional narratives explain the rise of Christian Rome as resulting from an increasingly powerful papacy. In *City of Saints*, Maskarinec looks outward, to examine how Rome interacted with the wider Mediterranean world in the Byzantine period. During the early Middle Ages, the city imported dozens of saints and their legends, naturalized them, and physically layered their cults onto the city's imperial and sacred topography. Maskarinec documents Rome's spectacular physical transformation, drawing on church architecture, frescoes, mosaics, inscriptions, Greek and Latin hagiographical texts, and less-studied documents that attest to the commemoration of these foreign saints. These sources reveal a vibrant plurality of voices—Byzantine administrators, refugees, aristocrats, monks, pilgrims, and others—who shaped a distinctly Roman version of Christianity. *City of Saints* extends its analysis to the end of the ninth century, when the city's ties to the Byzantine world weakened. Rome's political and economic orbits moved toward the Carolingian world, where the saints' cults circulated, valorizing Rome's burgeoning claims as a microcosm of the universal Christian church.

The Liturgy of the Medieval Church Thomas Heffernan,E Ann Matter,2005-04-01 This volume seeks to address the needs of teachers and advanced students who are preparing classes on the Middle Ages or who find themselves confounded in their studies by reference to the various liturgies that were fundamental to the lives of medieval peoples. In a series of essays, scholars of the liturgy examine The Shape of the Liturgical Year, Particular Liturgies, The Physical Setting of the Liturgy, The Liturgy and Books, and Liturgy and the Arts. A concluding essay, which originated in notes left behind by the late C. Clifford Flanigan, seeks to open the field, to examine liturgy within the larger and more inclusive category of ritual. The essays are intended to be introductory but to provide the basic facts and the essential bibliography for further study. They approach particular problems assuming a knowledge of medieval Europe but little expertise in liturgical studies per se.
