I Choose to Live Sabine Dardenne, 2006-01-16 I lived through the Dutroux affair from the inside, and all these years I have kept silent about it - about my 'personal' Dutroux Affair, my time in the company of the most hated psychopath in Belgium. I need to write this book for three reasons: so that people stop giving me strange looks and treating me like a curiosity; so that no one ever asks me any more questions ever again; and so that the judicial system never again frees a paedophile for 'good behaviour'. 'The Dutroux Affair' shook the whole of Europe. In the middle of the immense machinery of investigation and justice there was Sabine Dardenne herself, Dutroux's last victim. She was held captive for eighty days - and survived. Far from sensationalising the horror, her story, dignified and restrained, is ultimately uplifting. Says Sabine Dardenne, 'I choose to live'.

And the Sea Will Tell Vincent Bugliosi, 2011-02-07 Grips you by the throat from beginning to end.—Cleveland Plain Dealer ALONE WITH HER NEW HUSBAND on a tiny Pacific atoll, a young woman, combing the beach, finds an odd aluminum container washed up out of the lagoon, and beside it on the sand something glitters: a gold tooth in a scorched human skull. The investigation that follows uncovers an extraordinarily complex and puzzling true-crime story. Only Vincent Bugliosi, who recounted his successful prosecution of mass murderer Charles Manson in the bestseller *Helter Skelter*, was able to draw together the hundreds of conflicting details of the mystery and reconstruct what really happened when four people found hell in a tropical paradise. *And the Sea Will Tell* reconstructs the events and subsequent trial of a riveting true murder mystery, and probes into the dark heart of a serpentine scenario of death.

Race Against Time Jerry Mitchell, 2021-02-02 “For almost two decades, investigative journalist Jerry Mitchell doggedly pursued the Klansmen responsible for some of the most notorious murders of the civil rights movement. This book is his amazing story. Thanks to him, and to courageous prosecutors, witnesses, and FBI agents, justice finally prevailed.” —John Grisham, author of *The Guardians* On June 21, 1964, more than twenty Klansmen murdered three civil rights workers. The killings, in what would become known as the “Mississippi Burning” case, were among the most brazen acts of violence during the civil rights movement. And even though the killers’ identities, including the sheriff’s deputy, were an open secret, no one

was charged with murder in the months and years that followed. It took forty-one years before the mastermind was brought to trial and finally convicted for the three innocent lives he took. If there is one man who helped pave the way for justice, it is investigative reporter Jerry Mitchell. In *Race Against Time*, Mitchell takes readers on the twisting, pulse-racing road that led to the reopening of four of the most infamous killings from the days of the civil rights movement, decades after the fact. His work played a central role in bringing killers to justice for the assassination of Medgar Evers, the firebombing of Vernon Dahmer, the 16th Street Church bombing in Birmingham and the Mississippi Burning case. Mitchell reveals how he unearthed secret documents, found long-lost suspects and witnesses, building up evidence strong enough to take on the Klan. He takes us into every harrowing scene along the way, as when Mitchell goes into the lion's den, meeting one-on-one with the very murderers he is seeking to catch. His efforts have put four leading Klansmen behind bars, years after they thought they had gotten away with murder. *Race Against Time* is an astonishing, courageous story capturing a historic race for justice, as the past is uncovered, clue by clue, and long-ignored evils are brought into the light. This is a landmark book and essential reading for all Americans.

A Killing in Amish Country Gregg Olsen,Rebecca Morris,2016-07-05 At just 30 years old, with dark-blond hair and freckles, Barbara Weaver was as pretty as the women depicted on the covers of her favorite bonnet stories - romance novels set in Amish America. Barbara had everything she'd ever wanted: five beautiful children, a home, her faith, and a husband named Eli. But while Barbara was happy to live as the Amish have for centuries - without modern conveniences, Eli was tempted by technology: cell phones, the Internet, and sexting. Online he called himself Amish Stud and found no shortage of English women looking for love and sex. Twice he left Barbara and their children, was shunned, begged for forgiveness, and had been welcomed back to the church. Barb Raber was raised Amish, but is now a Conservative Mennonite. She drove Eli to appointments in her car, and she gave him what he wanted when he wanted: a cell phone, a laptop, rides to his favorite fishing and hunting places, and, most importantly, sex. When Eli starts asking people to kill his wife for him, Barb offers to help. One night, just after Eli had hitched a ride with a group of men to go fishing in the hours before dawn, Barb Raber entered the Weaver house and shot Barbara Weaver in the chest at close range. It was only the third murder in hundreds of years of Amish life in America, and it fell to Edna Boyle, a young assistant prosecutor to seek justice for Barbara Weaver.

Fortune's Fool Terry Alford,2015 When John Wilkes Booth assassinated President Abraham Lincoln at Ford's Theatre, his friends were stunned--not only by the murder but by the thought that someone they knew as fantastically gifted, successful and kind-hearted could commit such a crime. *Fortune's Fool*, the first biography of Booth ever written, is the life story of this talented and troubling individual.

Her-2 Robert Bazell,2011-04-27 Two years after she underwent a mastectomy and chemotherapy, Barbara Bradfield's aggressive breast cancer had recurred and spread to her lungs. The outlook was grim. Then she took part in Genentech's clinical trials for a new drug. Five years later she remains cancer-free. Her-2 is the biography of Herceptin, the drug that provoked dramatic responses in Barbara Bradfield and other women in the trials and that offers promise for hundreds of thousands of breast cancer patients. Unlike chemotherapy or radiation, Herceptin has no disabling side effects. It works by inactivating Her-2/neu--a protein that makes cancer cells grow especially quickly-- produced by a gene found in 25 to 30 percent of all breast tumors. Herceptin caused some patients' cancers to disappear completely; in others, it slowed the progression of the disease and gave the women months or years they wouldn't otherwise have had. Herceptin is the first treatment targeted at a gene defect that gives rise to cancer. It marks the beginning of a new era of treatment for all kinds of cancers. Robert Bazell presents a riveting account of how Herceptin was born. Her-2 is a story of dramatic discoveries and strong personalities, showing the combination of scientific investigation, money, politics, ego, corporate decisions, patient activism, and luck involved in moving this groundbreaking drug from the lab to a patient's bedside. Bazell's deft portraits introduce us to the remarkable people instrumental in Herceptin's history, including Dr. Dennis Slamon, the driven UCLA oncologist who played the primary role in developing the treatment; Lily Tartikoff, wife of television executive Brandon Tartikoff, who tapped into Hollywood money and glamour to help fund Slamon's research; and Marti Nelson, who inspired the activists who lobbied for a compassionate use program that would allow women outside the clinical trials to have access to the limited supplies of Herceptin prior to FDA approval of the drug. And throughout there are the stories of the heroic women with advanced breast cancer who volunteered for the trials, risking what time they had left on an unproven treatment. Meticulously researched, written with clarity and compassion, Her-2 is masterly reporting on cutting-edge science.

The Book of the Dead Muriel Rukeyser,2018 Written in response to the Hawk's Nest Tunnel disaster of 1931 in Gauley Bridge, West Virginia, The Book of the Dead is an important part of West Virginia's cultural heritage and a powerful account of one of the worst industrial catastrophes in American history. The poems collected here investigate the roots of a tragedy that killed hundreds of workers, most of them African American. They are a rare engagement with the overlap between race and environment in Appalachia. Published for the first time alongside photographs by Nancy Naumburg, who accompanied Rukeyser to Gauley Bridge in 1936, this edition of The Book of the Dead includes an introduction by Catherine Venable Moore, whose writing on the topic has been anthologized in Best American Essays.

The Devil In The White City Erik Larson,2010-09-30 'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The

architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .
