Visto y no visto Peter Burke, 2005

Visto y no visto Andreu Martín, 2021-09-06 Tercera y última entrega de la desternillante saga de aventuras de Gregorio Miedo y Medio. Desde que dominó los secretos del Grimorio Gregoriano y se convirtió en Mago Mistagogo, ya nadie llama cobarde a Gregorio. Sin embargo, el Grimorio ha perdido fuelle y el valor de Gregorio se ha esfumado. Ahora todos vuelven a tratarlo por la punta del pie... al menos hasta que Julián Medoy, padre de Gregorio, pierde su trabajo a causa de un turbio asunto. Ha llegado la hora de que Gregorio vuelva a echar mano del Grimorio y de su valor una vez más. Andreu Martín es un autor español nacido en Barcelona en 1949. Referente absoluto y pilar del género de novela negra en España, ha escrito algunos de los títulos más emblemáticos del panorama hispanohablante en el siglo XX y XXI. Asimismo, ha cultivado la novela infantil y juvenil con series como la del detective adolescente Flanagan. Su obra le ha valido premios como el Hammet, el Nacional de Literatura Juvenil, el Deutsche Krimi Preis en Alemania o La Sonrisa Vertical.

The Fabrication of Louis XIV Peter Burke, 1994-01-01 Louis XIV was a man like any other, but the money and attention lavished on his public image by the French government transformed him into a godlike figure. In this engrossing book, an internationally respected historian gives an account of contemporary representations of Louis XIV and shows how the making of the royal image illuminates the relationship between art and power. Images of Louis XIV included hundreds of oil paintings and engravings, three-hundred-odd medals struck to commemorate the major events of the reign, sculptures, and bronzes, as well as plays, ballets (in which the king himself sometimes appeared on stage), operas, odes, sermons, official newspapers and histories, fireworks, fountains, and tapestries. Drawing on an analysis of these representations as well as on surviving documentary sources, Peter Burke shows the conscious attempt to invent the image of the king and reveals how the supervision of the royal image was entrusted to a committee, the so-called small academy. This book is not only a fascinating chronological study of the mechanics of the image-making of a king over the course of a seventy-year reign but is also an investigation into the genre of cultural construction. Burke discusses the element of propaganda implicit in image-making, the manipulation of seventeenth-century media of communication (oral, visual, and textual) and their codes (literary and artistic), and the intended audience and its response. He concludes by comparing and contrasting Louis's public image with

that of other rulers ranging from Augustus to contemporary American presidents.

Para otras, la de la liberación. O de la esperanza. Todo se hace, se deshace, renace. Las muchachas avanzan con grandes zancadas. Nunca sabemos lo que está por llegar. Contenemos la respiración, cruzamos los dedos. ¡Vivan las muchachas!

Contemporary Spanish Women's Narrative and the Publishing Industry Christine Henseler, 2003 As in other countries, the effects of commercialization in Spain are changing the direction of publishing. Arguing that women face a particularly complex situation because the inclusion of their work is still considered a novelty in a male-dominated field, Christine Henseler examines the strategies of Spanish women authors in the face of market forces. In a consumer economy that places books in supermarkets and mega-bookstores and in which novels are promoted and read more for entertainment than for their literary merit, women's books tend to be more highly regarded when they cater to feminist, erotic, or

commercial niche markets. Henseler examines the visual creation of the seductive female body inside and outside the texts and the verbal application of this female figure on a narrative level in the works of authors including Paloma Díaz-Mas, Lourdes Ortiz, Cristina Peri Rossi, Esther Tusquets, Almudena Grandes, and Lucía Etxebarria. She looks at novels of seduction, award-winning novels, and novels sold on the basis of an author's prior reputation, as well as advertisements, literary prizes, and reviews. She also draws on interviews with authors to provide insider views of contemporary Spanish publishing. *Contemporary Spanish Women's Narrative and the Publishing Industry* reveals the ways women writers are reacting -- both textually and promotionally--to the changing demands of the publishing industry and the construction of a literary canon.

The Future is Now Vanessa K. Valdés, 2012-01-17 *The Future is Now: A New Look at African Diaspora Studies* is an exciting collection of essays representative of new voices in this ever-expanding field. Writing in English, Spanish, French, and Haitian Creole, the volume's contributors look at the fields of art, literature, film, and music. From the Hispanophone, Francophone, and Anglophone Caribbean to the United States and Europe, the scholars here interrogate themes of memory, power, gender, identity, race, and religion. In so doing, they uncover forgotten episodes of history previously lost to hegemonic tellings of the past. Here, readers will find studies on Haitian documentary, Puerto Rican art, Trinidadian calypso, Colombian poetry, the African-American novel, and African photography and collage. *The Future Is Now* serves as a celebration of the contributions made by peoples of African descent, providing a glimpse at the breadth of cultural offerings to be found throughout the African Diaspora in the Americas and Europe.

Horizonte Vacío Daniel C. NARVÁEZ, 2022-05-15 Jukka Lehto, desolado por no haber tomado la decisión correcta en su momento, decidió dar un cambio radical a su vida. Renunció al mundo de la docencia y se refugió en la rutina de un trabajo repetitivo. Un par de hechos fortuitos se cruzaron en su camino haciendo que conociera a dos mujeres: Helena y Jana. Desde ese día, sus miedos, sus silencios y una serie de mentiras hábilmente disfrazadas se convirtieron en el verdadero rostro del microcosmos que Jukka percibía como seguro.

1812 in the Americas Jean-Marc Serme, 2015-09-18 This book brings together a variety of interesting perspectives on the circumstances and effects of the war in 1812, offering a range of insights, from an exploration of the role religion played in the conflict to an investigation of low literature of the time reacted to it. The book is opened by a contribution from Adam Rothman, who examines the concept of the paracolonial republic to highlight that the US in 1812 was surrounded by monarchical colonial powers and used imperial means against its indigenous populations. In the second essay, Tangi Villerbu explores the way in which the Catholic Church set out to organize the space for its own development west of the Appalachian

Mountains in the context of a continental war. Following this, John Dickinson explores the heart of the early hours of the conflict in his account of the northern borderland and the new sense of itself Canada gained after successfully defending its territory against US invasion. Using biography as an efficient type of narrative to account for the complex situations of Native American groups during the war, Sheri Shuck-Hall focuses on the fascinating character of William Weatherford, who joined the traditionalists despite his strong cultural and economic interests among the Muscogee/Creek metis class. This volume also contains an essay by Nelly André on revolutionary women in South America. She points out that too much emphasis on a military-political definition of history has pushed women into the corners of national narratives. Her essay presents a few of these remarkable, sometimes forgotten, heroes. American literature had not yet fully emerged in its own right in 1812. As Ed White demonstrates in his essay, novel production at the time was scant and failed to provide satisfactory accounts of the war. Instead, as the author argues, only poetry was able to keep pace with the flow of events and create national representations. In his essay, Marco Sioli considers the events of the period in their cultural dimensions. He looks at the ways in which the press shaped the perceptions of the war and helped devise a more affirmed national identity despite the poor record of American military deeds. The volume closes with insights into another genre that had a major impact on the discussions about going to war against the British Empire: the sermon. Lucia Bergamasco's careful and close reading of such texts provides the reader with the arguments that shook the nation, such as sectional antagonism, slavery, and political and moral reformation.

Fluctuating Alliances Pilar Diez del Corral Corredoira, 2021-09-08 What was the role of art in the context of rapidly changing political alliances of the early modern period? The interdisciplinary contributions to this volume explore this question from the perspectives of War and Peace, Jesuits and Diplomacy, Negotiating with Faith, and Court and Diplomatic Celebrations. Special attention is paid to those art genres that were suitable for easy distribution due to their reproducibility, such as medals and prints. But also paintings, tombs and ephemeral festivities like fireworks served the manifestation of claims to power. The exemplary analyses provide a broad view of the political dimensions of early modern transcultural artistic exchange in Europe and beyond.

Modelling the Future Martin Lawn, 2009-05-11 The role of World Exhibitions in the 19th and early 20th centuries was to confirm a relation between the nation state and modernity. As a display about industries, inventions and identities, the Exhibition, in a sense, put entire nations into an elevated, viewable space. It is a significant element in modernity as comparisons can be made, progress is assumed and the future can be made manageable. The Exhibition links the national and local, with the international and global. Nationalism and internationalism are in tension in the space, and so is the relation between government, business and media. The educational dimension of Exhibitions is an area of research rich in

possibilities for historians of education. It is a dimension of comparative education which illuminates classifications and genealogies, networks and audiences, cross border industries of education, and the factors which shape discursive and technical exchanges. Displays of education objects can be read as demonstrations of modernity in education and schooling. They were catalogues of the future.

Social Studies Education in Latin America Sebastián Plá, E. Wayne Ross, 2022-08-30 This book offers a path forward, for the growing collaboration in social studies education between Global North and South educators, practitioners, and researchers. In this volume, leading critical social studies education researchers from Latin America explore the constant presence of colonialism, capitalism, patriarchy, and state violence. Chapter contributors represent a large part of the continent and offer perspectives on a wide range of topics, including recent history and memory, cultural dimensions of social studies education, and comparative studies among Latin American countries. By bringing together this critical work in one volume, the book fosters conversation across geographic regions to transcend the national contexts for which these analyses are generally produced. This collection provides insights into issues of curriculum, teaching, teacher education, and research in the region and will be of interest to readers both familiar with and new to research on social studies, history, citizenship, and geography education in Latin America.

En defensa del altar de la Victoria J.F. P.R. Tales, 2018-07-16 ¿Quién es tan enemigo de Roma como para no defender el altar de la diosa Victoria? Verano de 384. El Imperio Romano está dividido. Teodosio gobierna oriente desde Constantinopla. El pequeño Valentiniano II reside en Milán y, asistido por su madre Justina y vigilado por el obispo Ambrosio, administra los territorios centrales. Mientras, el usurpador Máximo, cuyos dominios se extienden por occidente, tiene su sede en Tréveris. Los hunos amenazan las fronteras de l Imperio. La nación goda, tras varias revueltas, se somete a los tratados para establecerse como aliada en las provincias de Mesia y Tracia. El cristianismo goza del respaldo de los emperadores, pero entre sus seguidores existen importantes desavenencias y conflictos. En Roma, un grupo de senadores, encabezados por el prefecto Simmaco, urde un plan para conseguir que el joven Valentiniano devuelva las ayudas económicas a los cultos paganos y restituya la estatua de la diosa Victoria al lugar donde siempre estuvo, el edificio de la Curia. Mientras tanto, en un lugar de Italia, unos monjes destruyen un santuario dedicado a la diosa Diana.
