**Solutions** Allen Salowe, Leon Lessinger, 2002-05-14 This easy-to-read book integrates research and performance-based concepts in order to demystify and debunk the conventional wisdom about education. For many years, education has been beset by myths — myths that it can't be fixed with new concepts, that it takes specialists to diagnose what's wrong, that research doesn't reflect the real world, that the lessons of business cannot be generalized to education. This book takes on these misunderstandings and shows precisely what educators may do in order to overcome them. Educators will find Salowe and Lessinger's advice to be a rational, sober, and research-based approach to an often-debated topic.

*Professional, Ethical, Legal, and Educational Lessons in Medicine* Kirk Lalwani, Ira Todd Cohen, Ellen Y. Choi, Berklee Robins, Jeffrey Kirsch, 2024-09-06 With a diverse set of over 70 cases, quizzes, and a problem-based learning approach, this volume expertly provides an interactive and in-depth learning experience for any medical professional.

*Assessing Student Outcomes - Why, Who, What, How?* J. Fredericks Volkwein, 2011-11-22 This volume offers administrators and practitioners a summary guide to assessment in higher education, from the reasons for undertaking assessment to the delivery of findings. It opens with the questions that precede an effective study and drive research design: To what extent is the study aimed at educational improvement, and to what extent is it aimed at external accountability? Are the results expected to demonstrate goal attainment, improvement, comparison to others, meeting standards, cost-effective investment? What is the population from whom assessment data are being collected: Are we measuring the knowledge and skills of individuals and making decisions about their remediation, certification, or development? Or are we sampling from particular groups of students and comparing them to each other, or perhaps to themselves over time? The core of the volume is devoted to the objects of assessment: basic skills, general education knowledge, attainment in the major, personal growth, attitudes and satisfaction, and alumni outcomes, keeping in mind both cognitive and noncognitive measures. One chapter describes common obstacles to effective assessment; others describe conceptual models, research methods, and data collection strategies and instruments. The concluding chapter underscores the importance of communicating research results effectively. This is a special volume of the Jossey-Bass higher education quarterly report series *New Directions for Institutional Research*. Always timely and comprehensive, *New Directions for Institutional Research* provides planners and administrators in all types of academic institutions with guidelines in such areas as resource coordination, information analysis, program evaluation, and institutional management.

*Essentials of Practice-Based Coaching* Patricia Snyder, Lise Fox, Mary Louise Hemmeter, 2021-11-15 Join us for a webinar on Practice-Based Coaching on November 10 Widely adopted across the U.S. and around the world, Practice-Based Coaching (PBC) is a research-based coaching framework for supporting early childhood practitioners' use of evidence-informed teaching practices. This book--created by the respected developers of the PBC framework--is the first to offer a comprehensive introduction to this popular coaching approach and practical guidance on how to implement it with fidelity. Ideal for use in professional development, this research-to-practice resource gives readers an in-depth overview of the Practice-Based Coaching framework and a complete guide to implementing its three key components: shared goals and action planning, focused observation, and reflection and feedback. To help professionals implement PBC with fidelity, they'll get case stories, tip boxes, reflection questions, and 30+ downloadable supporting resources, including coaching data collection forms, checklists, and organizational templates. The definitive resource on PBC, this essential guide will help programs and coaches prepare every early childhood practitioner to master today's recommended practices--and nurture the

learning and healthy development of infants, toddlers, and preschoolers. LEARN HOW TO: Develop collaborative partnerships between coach and coachee Write effective goals and action plans Put five essential coaching strategies into practice Conduct practice-focused strengths and needs assessments Observe the coachee's practices and collect data about coaching efforts and effects Make data-based decisions Give supportive and constructive feedback Employ web-based platforms and coaching apps to support PBC WHY PBC? Meets the Head Start Performance Standards' definition of a research-based, coordinated coaching strategy, which all programs are required to use. Supports the Pyramid Model: PBC is recognized as an effective professional development approach for implementing the social, emotional, and behavioral practices of the popular Pyramid Model. Supports embedded intervention and instruction: PBC has been shown to be an effective professional development approach for implementing embedded intervention and instruction practices. Practice-ready: PBC is a practice-ready coaching framework that has been used with a variety of effective early childhood practices. Flexible for today's programs: PBC can be implemented in person or virtually using video recordings. Proven effective: PBC is supported by evidence that it changes or enhances practices and has related effects on child and family outcomes.
