Black Morocco Chouki El Hamel,2014-02-27 *Black Morocco: A History of Slavery, Race, and Islam* chronicles the experiences, identity and achievements of enslaved black people in Morocco from the sixteenth century to the beginning of the twentieth century. Chouki El Hamel argues that we cannot rely solely on Islamic ideology as the key to explain social relations and particularly the history of black slavery in the Muslim world, for this viewpoint yields an inaccurate historical record of the people, institutions and social practices of slavery in Northwest Africa. El Hamel focuses on black Moroccans' collective experience beginning with their enslavement to serve as the loyal army of the Sultan Isma'il. By the time the Sultan died in 1727, they had become a political force, making and unmaking rulers well into the nineteenth century. The emphasis on the political history of the black army is augmented by a close examination of the continuity of black Moroccan identity through the musical and cultural practices of the Gnawa.

The Sword of Allah Ibn Kathir,2017-10-18 *The Sword of Allah: Khalid Bin Al-Waleed, His Life and Campaigns* Khalid bin Al-Waleed was one of the greatest generals in history, and one of the greatest heroes of history. Besides him, Genghis Khan was the only other general to remain undefeated in his entire military life. Khalid was sent to the Persian Empire with an army consisting of 18,000 volunteers to conquer the richest province of the Persian empire, Euphrates region of lower Mesopotamia, (present day Iraq). Khalid entered lower Mesopotamia with this force. He won quick victories in four consecutive battles: the Battle of Chains, fought in April 633; the Battle of River, fought in the third week of April 633; the Battle of Walaja, fought in May 633 (where he successfully used a double envelopment manoeuvre), and Battle of Ullais, fought in the mid-May 633. In the last week of May 633, al-Hira, the regional capital city of lower Mesopotamia, fell to Khalid. The inhabitants were given peace on the terms of annual payment of jizya (tribute) and agreed to provide intelligence for Muslims. After resting his armies, in June 633, Khalid laid siege to Anbar which despite fierce resistance fell in July 633 as a result of the siege imposed on the town. Khalid then moved towards the south, and captured Ein ul Tamr in the last week of July, 633.

Haqiqatul-Wahi Hazrat Mirza Ghulam Ahmad,2018-06-01 In this book the Promised Messiah, on whom be peace, discusses the philosophy of divine revelation, the three categories of people who claim to receive revelation, and the distinction of the truthful from the false. He then establishes his truthfulness by documenting over 200 Signs, including the fulfillment of prophecies made by the Holy Prophet Muhammad, may peace and blessings of Allah be upon him, other men of God, earlier scriptures, and his own revelations spanning over twenty-five years. The author cites numerous examples of his enemies who publicly predicted his downfall and demise, only to become the very victims of their own prophecies. God, however, protected him against every assault, while continuously reassuring him of His promise to bless his Community—a promise which continues to bear the seal and testimony of history. The author also appeals to the followers of different faiths to read this book cover to cover to appreciate and accept this evidence as proof that God is One and the Holy Prophet Muhammad is the Messenger of God, and that he is the Promised Messiah raised to unite humanity under the banner of Islam.

Classical and Statistical Thermodynamics Ashley H. Carter, 2001 This book provides a solid introduction to the classical and statistical theories of thermodynamics while assuming no background beyond general physics and advanced calculus. Though an acquaintance with probability and statistics is helpful, it is not necessary. Providing a thorough, yet concise treatment of the phenomenological basis of thermal physics followed by a presentation of the statistical theory, this book presupposes no exposure to statistics or quantum mechanics. It covers several important topics, including a mathematically sound presentation of classical thermodynamics; the kinetic theory of gases including transport processes; and thorough, modern treatment of the thermodynamics of magnetism. It includes up-to-date examples of applications of the statistical theory, such as Bose-Einstein condensation, population inversions, and white dwarf stars. And, it also includes a chapter on the connection between thermodynamics and information theory. Standard International units are used throughout. An important reference book for every professional whose work requires and understanding of thermodynamics: from engineers to industrial designers.ÿ

The Caliphate Hugh Kennedy, 2016-07-07 What is a caliphate? Who can be caliph? And how are contemporary ideologues such as ISIS reviving - and abusing - the term today? In the first modern account of a subject of critical importance today, acclaimed historian Hugh Kennedy answers these questions by chronicling the rich history of the caliphate, from the death of Muhammad to the present. At its height, the caliphate stretched from Spain to China and was the most powerful political entity in western Eurasia. In an era when Paris and London boasted a few thousand inhabitants, Baghdad and Cairo were sophisticated centres of trade and culture, and the Ummayyad and Abbasid caliphates were distinguished by extraordinary advances in science, medicine and architecture. By ending with the recent re-emergence of caliphal ideology within fundamentalist Islam, *The Caliphate* underscores why it is crucial that we understand this form of Islamic government before groups such as ISIS distort its practice completely.

Women and Gender in Islam Jin Xu, 2021 A classic, pioneering account of the lives of women in Islamic history, republished for a new generation This pioneering study of the social and political lives of Muslim women has shaped a whole generation of scholarship. In it, Leila Ahmed explores the historical roots of contemporary debates, ambitiously surveying Islamic discourse on women from Arabia during the period in which Islam was founded to Iraq during the classical age to Egypt during the modern era. The book is now reissued as a Veritas paperback, with a new foreword by Kecia Ali situating the text in its scholarly context and explaining its enduring influence. "Ahmed's book is a serious and independent-minded analysis of its subject, the best-informed, most sympathetic and reliable one that exists today."—Edward W. Said "Destined to

become a classic. . . . It gives [Muslim women] back our rightful place, at the center of our histories.”—Rana Kabbani, *The Guardian*

SALVATION OF THE SOUL AND ISLAMIC DEVOTION. M. A. QUASEM,2023 First Published in 1983, *Salvation of the Soul and Islamic Devotion* demonstrates that salvation is a central concept of the religion of Islam, even though its meaning, causes and results according to Islam may differ from what is taught by Christianity and other world religions. The first chapter of the book presents the Islamic doctrine of salvation as set forth in the Quran and prophetic tradition. The meaning of salvation is explored, and the means to it on both human and divine sides are considered with special emphasis upon Islamic devotions. The remaining eight chapters deal with both obligatory and supererogatory devotions prescribed by Islam, concentrating on the methods of their correct performance, on which salvation is largely dependent. The material used in this book has been derived entirely from the original Islamic sources written in Arabic. Efforts are made to make the book useful to both Muslim and non-Muslim readers of English interested in the Islamic theory of salvation and acts of devotion.

He was called the truthful & the trustworthy long before he became the Messenger of Allah (peace and blessings be upon him).

Organizational Behavior: Core Concepts Angelo Kinicki,2007-07-05 *Organizational Behavior: Core Concepts* was written with the goal of creating a short, up-to-date, practical, user-friendly, interesting, and engaging introduction to the field of organizational behavior. Angelo Kinicki accomplished this goal by selecting content on the basis of his experience in teaching and writing OB textbooks and the desire to provide a brief book on organizational behavior. The 14 chapters present concise coverage of key concepts needed to help students gain an understanding about individual, group, and organizational behavior. The focus is more on content than pedagogy in order to allow instructors the flexibility to incorporate their own

case selections and supplementary materials into their courses. Another key feature of Organizational Behavior: Core Concepts is a boxed feature that provides information about ancillary materials that can be used to enhance student learning and to facilitate a more interactive learning environment. This box identifies when students can test their mastery of the content or enhance their understanding by taking one of 38 Test Your Knowledge Quizzes or 20 self-assessment surveys. The box also calls out when instructors might use 23 group exercises and 15 Manager's Hot Seat video segments to supplement their lectures and facilitate student involvement and interactions. Finally, Organizational Behavior: Core Concepts contains coverage of cutting edge topics and timely examples.

The History of al-Ṭabarī Vol. 7 Abū Ja'far Muḥammad ibn Jarīr al-Ṭabarī, 1987-01-01 The contents of this volume are extremely significant: The specific events in this earliest period set precedents for what later became established Islamic practice. The book deals with the history of the Islamic community at Medina during the first four years of the Islamic period—a time of critical importance for Islam, both as a religion and as a political community. The main events recounted by Ṭabarī are the battles between Muḥammad's supporters in Medina and their adversaries in Mecca. Ṭabarī also describes the rivalries and infighting among Muḥammad's early supporters, including their early relations with the Jewish community in Medina.
