Gail MacColl, Carol McD. Wallace

The Cave and the Light Arthur Herman, 2013-10-22 The definitive sequel to New York Times bestseller *How the Scots Invented the Modern World* is a magisterial account of how the two greatest thinkers of the ancient world, Plato and Aristotle, laid the foundations of Western culture—and how their rivalry shaped the essential features of our culture down to the present day. Plato came from a wealthy, connected Athenian family and lived a comfortable upper-class lifestyle until he met an odd little man named Socrates, who showed him a new world of ideas and ideals. Socrates taught Plato that a man must use reason to attain wisdom, and that the life of a lover of wisdom, a philosopher, was the pinnacle of achievement. Plato dedicated himself to living that ideal and went on to create a school, his famed Academy, to teach others the path to enlightenment through contemplation. However, the same Academy that spread Plato's teachings also fostered his greatest rival. Born to a family of Greek physicians, Aristotle had learned early on the value of observation and hands-on experience. Rather than rely on pure contemplation, he insisted that the truest path to knowledge is through empirical discovery and exploration of the world around us. Aristotle, Plato's most brilliant pupil, thus settled on a philosophy very different from his instructor's and launched a rivalry with profound effects on Western culture. The two men disagreed on the fundamental purpose of the philosophy. For Plato, the image of the cave summed up man's destined path, emerging from the darkness of material existence to the light of a higher and more spiritual truth. Aristotle thought otherwise. Instead of rising above mundane reality, he insisted, the philosopher's job is to explain how the real world works, and how we can find our place in it. Aristotle set up a school in Athens to rival Plato's Academy: the Lyceum. The competition that ensued between the two schools, and between Plato and Aristotle, set the world on an intellectual adventure that lasted through the Middle Ages and Renaissance and that still continues today. From Martin Luther (who named Aristotle the third great enemy of true religion, after the devil and the Pope) to Karl Marx (whose utopian views rival Plato's), heroes and villains of history have been inspired and incensed by these two master philosophers—but never outside their influence. Accessible, riveting, and eloquently written, *The Cave and the Light* provides a stunning new perspective on the Western world, certain to open eyes and stir debate. Praise for *The Cave and the Light* "A sweeping intellectual history viewed through two ancient Greek lenses . . . breezy and enthusiastic but resting on a sturdy rock of research."—Kirkus Reviews "Examining mathematics, politics, theology, and architecture, the book demonstrates the continuing relevance of the ancient world."—Publishers Weekly "A

fabulous way to understand over two millennia of history, all in one book.”—Library Journal “Entertaining and often illuminating.”—The Wall Street Journal

The History of the Roman Republic Theodor Mommsen,1893

After the Fact James West Davidson,Mark H. Lytle,1982 Under the historians eye, the puzzles of the past turn and reveal themselves. Here are good stories well told, displaying the essential fascination of scholarship in action and what it can accomplish.

Wine and War Donald & Petie Kladstrup,2011-09-01 In the vineyards, wine caves, and cellars of France as war and occupation came to the country winemakers acted heroically not only to save the best wines but to defend their way of life. These are the true stories of vigneron who sheltered Jewish refugees in their cellars and of winemakers who risked their lives to aid the resistance. They made chemicals in secret laboratories to fuel the resistance and fled from the Gestapo when arrests became imminent. There were treacheries too, as some of the nation's winemakers supported the Vichy regime or the Germans themselves and collaborated. Donald Kladstrup is a retired American network correspondent. He and his wife Petie have accumulated these fascinating stories, told with the pace and action that will fascinate fiction and non-fiction readers alike.

The All of Everything Laura Saltman, 2018-01-04 Three years ago Laura Saltman was living the Hollywood dream, working on and for national TV shows like Access Hollywood, Today and E! News as a reporter, producer and pop culture expert. Spoiled, selfish and obsessed with her career, Laura's life revolved around celebrity gossip, dissecting TV shows and interviewing celebrities on red carpets. Then something happened that changed her life forever. Laura's brother was diagnosed with terminal cancer and died one year later. Distraught, her dad committed suicide shortly thereafter and she lost two babies to miscarriage. During that difficult time, she started to assess who she was and who she wanted to be. Working with a spiritual guidance coach helped Laura cope with her overwhelming grief, as well as open up the intuitive gifts she had been hiding from the world since her early 20's. Suddenly, she went from a pop culture addicted channel changer to a spiritual channel. Some people meditate to gain inner wisdom. As a journalist, this wasn't enough for her. She needed a tangible document, a guide book, something to live by each and every day. Inspired by writers like Neale Donald Walsch and Marianne Williamson, Laura sat down for a late-night Q & A with God (Source, the Universe) to ask about the human world and how it truly works. Much to her surprise the answers came instantaneously and with astonishing clarity and consistency. Within just six weeks she had her book, *The All of Everything, A Spiritual Guide to Inner World Domination*. Plastic surgery, relationships, celebrity gossip, infertility and financial struggles. No topics were off limits. Laura soon realized the answers provided weren't just to benefit her but for every human being ready to hear these powerful messages. The information provided inside the pages of this book are so simple yet life altering. They are in clear and understandable language and will help move you towards changing the way you think and act on a daily basis, so that life becomes easy and unburdened. Think of this book as your spiritual tool box. Everything you need to fix your life is inside.

Getting Stoned with Savages J. Maarten Troost, 2006-06-13 From the bestselling author of *The Sex Lives of Cannibals*, the laugh-out-loud true story of his years on the islands of Vanuatu and Fiji, among cannibals, volcanoes . . . and the world's best narcotics. With *The Sex Lives of Cannibals*, Maarten Troost established himself as one of the most engaging and original

travel writers around. *Getting Stoned with Savages* again reveals his wry wit and infectious joy of discovery in a side-splittingly funny account of life in the farthest reaches of the world. After two grueling years on the island of Tarawa, battling feral dogs, machete-wielding neighbors, and a lack of beer on a daily basis, Maarten Troost was in no hurry to return to the South Pacific. But as time went on, he realized he felt remarkably out of place among the trappings of twenty-first-century America. When he found himself holding down a job—one that might possibly lead to a career—he knew it was time for he and his wife, Sylvia, to repack their bags and set off for parts unknown. *Getting Stoned with Savages* tells the hilarious story of Troost's time on Vanuatu—a rugged cluster of islands where the natives gorge themselves on kava and are still known to “eat the man.” Falling into one amusing misadventure after another, Troost struggles against typhoons, earthquakes, and giant centipedes and soon finds himself swept up in the laid-back, clothing-optional lifestyle of the islanders. When Sylvia gets pregnant, they decamp for slightly-more-civilized Fiji, a fallen paradise where the local chiefs can be found watching rugby in the house next door. And as they contend with new parenthood in a country rife with prostitutes and government coups, their son begins to take quite naturally to island living—in complete contrast to his dad.

[A Short History of Seafaring](#) Brian Lavery, 2022-12-01 A fascinating journey through more than 5,000 years of seafaring history in this essential guide to the most impressive seafaring tales, explorers, and maritime environments. For more than 5,000 years, the seas have challenged, rewarded, and punished the brave sailors who set forth to explore it. This history of the seas and sailing tells the remarkable story of those individuals - whether they lived to tell the tale themselves or not. From the early Polynesian seafarers and the first full circumnavigations of the globe, to explorers picking their way through the coral reefs of the West Indies, this book tells the compelling story of life at sea that lies behind man's search for new lands, new trade, conquest, and uncharted waters. Charting the great milestones of nautical history from the discovery of America to the establishment of the Royal Navy, the naval history of the American Civil War, the Battle of Midway and modern piracy the book sets all of them in their cultural and historical context. *The Conquest of the Ocean* is a unique compendium of awe-inspiring tales of epic sea voyages and great feats of seamanship, navigation, endurance, and ingenuity.

Operation Thunderbolt Saul David, 2015-12-01 The definitive account of one of the greatest Special Forces missions ever, the Raid of Entebbe, by acclaimed military historian Saul David. On June 27, 1976, an Air France flight from Tel Aviv to Paris was hijacked by a group of Arab and German terrorists who demanded the release of 53 terrorists. The plane was forced to divert to Entebbe, in Uganda -- ruled by the murderous despot Idi Amin, who had no interest in intervening. Days later, Israeli commandos disguised as Ugandan soldiers assaulted the airport terminal, killed all the terrorists, and rescued all the hostages but three who were killed in the crossfire. The assault force suffered just one fatality: its commander, Yoni Netanyahu (brother of Israel's Prime Minister.) Three of the country's greatest leaders -- Ehud Barak, Shimon Peres and Yitzhak Rabin -- planned and pulled off one of the most astonishing military operations in history.

To Marry an English Lord Gail MacColl, Carol McD. Wallace, 2012-03-15 “Marvelous and entertaining.” —Julian Fellowes, creator of *Downton Abbey* Discover the true stories behind the women who inspired *Downton Abbey* and HBO’s *The Gilded Age*, the heiresses—including a Vanderbilt (railroads), a LaRoche (pharmaceuticals), and a Rogers (oil)—who staked their ground in England, swapping dollars for titles and marrying peers of the British realm. Filled with vivid personalities, grand houses, dashing earls, and a wealth of period details and quotes on the finer points of Victorian and Edwardian etiquette, *To Marry an English Lord* is social history at its liveliest and most accessible. Sex, snobbery, humor, social triumphs (and gaffes), are all recalled in marvelous detail, complete with parties, clothes, scandals, affairs, and 100-year-old gossip that’s still scorching.

My Planet Mary Roach, 2013-04-04 From acclaimed, New York Times best-selling author Mary Roach comes the complete collection of her “My Planet” articles published in *Reader’s Digest*. The quirky, brilliant author takes a magnifying glass to everyday life, exposing moments of hilarity in the mundane. Best-selling author Mary Roach was a hit columnist in the *Reader’s Digest* magazine, and this book features the articles she wrote in that time. Insightful and hilarious, Mary explores the ins and outs of the modern world: marriage, friends, family, food, technology, customer service, dental floss, and ants—she leaves no element of the American experience unchecked for its inherent paradoxes, pleasures, and foibles. On Cleanliness: Ed has crud vision, and I don’t. I don’t notice filth. Ed sees it everywhere. I am reasonably convinced that Ed can actually see bacteria. . . . He confessed he didn’t like me using his bathrobe because I’d wear it while sitting on the toilet. “It’s not like it goes in the water,” I protested, though if you counted the sash as part of the robe, this wasn’t strictly true. On the Internet: The Internet is a boon for hypochondriacs like me. Right now, for instance, I’m feeling a shooting pain on the side of my neck. A Web search produces five matches, the first three for a condition called Arnold-Chiari Malformation. While my husband, Ed, reads over my shoulder, I recite symptoms from the list. “‘General clumsiness’ and ‘general imbalance,’” I say, as though announcing arrivals at the Marine Corps Ball. “‘Difficulty driving,’ ‘lack of taste,’ ‘difficulty feeling feet on ground.’” “Those aren’t symptoms,” says Ed. “Those are your character flaws.” On Fashion: My husband recently made me try on a bikini. A bikini is not so much a garment as a cloth-based reminder that your parts have been migrating all these years. My waist, I realized that day in the dressing room, has completely disappeared beneath my rib cage, which now rests directly on my hips. I’m exhibiting continental drift in reverse. On Eating Healthy: So Ed and I were eating a lot of vegetables. Vegetables on pasta, vegetables on rice. This was extremely healthy, until you got to the part where Ed and I are found in the kitchen at 10 p.m., feeding on Froot Loops and tubes of cookie dough.
