**The Banquet Years** Roger Shattuck,1968-06-12 The definitive chronicle of the origins of French avant-garde literature and art, Roger Shattuck's classic portrays the cultural bohemia of turn-of-the-century Paris who carried the arts into a period of renewal and accomplishment and laid the groundwork for Dadaism and Surrealism. **Goose the Bear** ,2014-02-04 Bear got more than he bargained for when he accidentally ran into Fox. Little did he know, Bear had picked up Fox's stolen goose egg. Soon, the egg hatches and Bear finds himself holding a confused little gosling that's calling him "Mama." Try as he might to convince the little goose he's not its mother, the goose sticks around. Bear tries to show the goose that he's not its mother by climbing, running, and swimming away, but Goose is there every step of the way, climbing, running, and swimming just as well as Bear. But, Fox is lurking the whole time, waiting to take back his "prize." Just as Bear begins to accept Goose as his own, Fox makes his move. Will Fox get Goose, or will "Goose the Bear" make "Mama" proud? In this quirky mix-up at its finest, Katja Gehrmann tells the heartwarming and species-confused story of Goose the Bear with the help of colorful, offbeat illustrations and a narrative to match. If you want to be a bear, be a bear—even if you're a goose. **He is the Sun, She is the Moon** Heide Wunder,1998 Renowned German social historian Heide Wunder refers to the cosmic image contained in the 1578 Book of Marital Discipline that characterizes the relationship between husband and wife. Today, He is the sun, she is the moon might be interpreted as a hierarchy of dominance and subordination. At the time it was used, however, sun and moon reflected the different but equal status of husband and wife. Wunder shows how the history of women and the history of gender relations can provide crucial insights into how societies organize themselves and provide resources for political action. She observes actual circumstances as well as the normative rules that were supposed to guide women's lives. We learn what skills were necessary to take charge of households, what people ate, how they furnished their homes, what birth control measures were available, what role women played in peasant protest. Wunder finds that, in addition to the history of losses and setbacks for women observed by so many current interpreters, there is a history of gains as well. The regency of noble women was normal, as was the shared responsibility of wife and husband in a peasant household, an artisan's workshop, or a merchant's business. Using sources as diverse as memoirs, wedding and funeral sermons, novels, and chronicles, and including a wealth of demographic information, Wunder reveals a surprising new image of early modern women and provides a richer interpretation of early modern Europe.

**Habitat** Tom Hegen,2018-11 The work of photographer Tom Hegen (b. 1991) deals with human interventions in natural habitats.His photographs document the strong impact human beings' have on our environment and show how we have altered our landscape through our actions.Including many impressive aerial photos, this photo book invites viewers to discover their environment from a new perspective, to comprehend the scale of human interventions on our earth's surface, and, ultimately, to assume responsibility.English and German text.

**The Ship** Cesare Pavese,Hans Henny Jahnn,1970 Clelia, a successful couturier, arrives in Turin after the end of the Second World War to supervise the opening of a salon in the city where she spent her youth in poverty. Drawn into a circle of young people who try to escape the futility and boredom of their lives in a mindless search for pleasure, she encounters Rosetta, whose suicide tragically foreshadows that of the author just a few months after completing this highly acclaimed contemporary classic.

*The Evolution of Useful Things* Henry Petroski,2010-12-01 How did the table fork acquire a fourth tine? What advantage does the Phillips-head screw have over its single-grooved predecessor? Why does the paper clip look the way it does? What makes Scotch tape Scotch? In this delightful book Henry, Petroski takes a microscopic look at artifacts that most of us count on but rarely contemplate, including such icons of the everyday as pins, Post-its, and fast-food clamshell containers. At the same time, he offers a convincing new theory of technological innovation as a response to the perceived failures of existing products—suggesting that irritation, and not necessity, is the mother of invention.

Abläufe, die sich einer bewussten Kontrolle weitgehend entziehen. Die Psychologie kennt Automatismen im individuellen Handeln; die Soziologie untersucht Prozesse der Habitualisierung und der Konventionalisierung, Ökonomen haben die ›unsichtbare Hand‹ des Marktes als einen Automatismus beschrieben. Automatismen scheinen insbesondere in verteilten Systemen wirksam zu sein. Der Band führt in diesen neuen Forschungsbereich mit Beiträgen aus den Medien-, Literatur- und Kulturwissenschaften, der Psychoanalyse, Philosophie, Soziologie und der Informatik ein.

**Sergei Prokofiev's Peter and the Wolf** Sergei Prokofiev, 2011-01-05 THERE IS NO better way to introduce children to classical music than with Prokofiev's musical fairy tale of the little boy who, with the help of a bird, outsmarted the big, bad wolf. A new retelling by Janet Schulman follows the basic story, but with a kinder ending for both the big, bad wolf and the argumentative duck. Peter Malone's paintings have the luminous quality of old Russian masters.
