**Units of Study for Teaching Reading** Lucy Calkins,Elizabeth Franco,Amanda Hartman,Havilah Jespersen,Lindsay Barton,Elizabeth Moore (Writing teacher),2015 The start of first grade is a time for dusting off the skills and habits that children learned during kindergarten. In the first unit, Building Good Reading Habits, you'll reinforce children's learning from kindergarten, and you'll establish ability-based partnerships that tap into the social power of peers working together to help each other become more strategic as readers. The second unit, Learning About the World: Reading Nonfiction, taps into children's natural curiosity as they explore nonfiction, while you teach comprehension strategies, word solving, vocabulary, fluency, and author's craft. The third unit, Readers Have Big Jobs to Do: Fluency, Phonics, and Comprehension, focuses on the reading process to set children up to read increasingly complex texts. The last unit of first grade, Meeting Characters and Learning Lessons: A Study of Story Elements, spotlights story elements and the skills that are foundational to literal and inferential comprehension, including empathy, imagination, envisioning, prediction, character study, and interpretation-- provided by publisher.

**A Teacher's Guide to Reading Conferences** Jennifer Serravallo,2019-01-24 With a focus on goal-directed, purpose-driven reading conferences, the author shows how form follows function--the structure of each conference is clearly designed to serve its purpose. Through Researcher Spotlights in each chapter, she'll also introduce you to a few of the teaching mentors and researchers who've had a profound influence on her work. The author describes different types of conferences, some designed for individuals, others for small groups. Some are used during independent reading time, others during partnership or club time. One can read the chapters in order or dip into the chapter that best suits their needs and purpose--

*The Leprechaun's Gold* Pamela Duncan Edwards,2006-01-24 In this classic Irish legend, two harpists -- merry-hearted Old Pat and ill-spirited Young Tom -- set off for a contest to name the finest harpist in all of Ireland. When Young Tom realizes that Old Pat is truly the better musician, he schemes to be the winner -- but he doesn't reckon with the clever trickery of a mischievous little leprechaun. Noted picture book creators Pamela Duncan Edwards and Henry Cole have imagined a joyful

and fanciful tale with a priceless lesson.

Comprehension from the Ground Up Sharon Taberski, 2011 Why has comprehension instruction become so complex? She shares the daily how-tos needed to sustain a literacy block that engages children in authentic reading and writing practices including dozens of effective practices that illustrate amazing ways to organize instructional and independent reading for kids including: letter and sound searches that improve students' word accuracy and fluency companion books bags that develop their confidence and comprehension strategy sheets that make children's thinking about text concrete a Putting Our Strategies to Work Board that enables students to reflect on and discuss the meta-cognitive strategies they're using Idea Books and Ta-da Publishing Books that help children get inside the reading and writing process and see how each feeds the other. Two Options for dynamic DVD-based staff development: for your workshop or PLC, the Lessons from the Ground Up DVD features 105-minutes of video clips of Sharon in the classroom, modeling effective ways to develop comprehension plus a 64-page facilitator's guide supports the DVD, lesson by lesson. Growing Readers Kathy Collins, 2004 Primary-grade teachers face an important challenge: teaching children how to read while enabling them to build good habits so they fall in love with reading. Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence, intention, and joy as readers. In *Growing Readers*, Kathy Collins helps teachers plan for independent reading workshops in their own classrooms. She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong, well-rounded readers. Kathy outlines a sequence of possible units of study for a yearlong curriculum. Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini-lessons and reading conferences. There are also four Getting Ready sections that suggest some behind-the-scenes work teachers can do to prepare for the units. Topics explored in these units include: print and comprehension strategies; reading in genres such as poetry and nonfiction; connecting in-school reading and out-of-school reading; developing the strategies and habits of lifelong readers. A series of planning sheets and management tips are presented throughout to help ensure smooth implementation. We want our students to learn to read, and we want them to love to read. To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day. The ideas found in *Growing Readers* create the kind of primary classrooms where that happens.

*Reading in the Wild* Donalyn Miller, 2013-11-04 In *Reading in the Wild*, reading expert Donalyn Miller continues the conversation that began in her bestselling book, *The Book Whisperer*. While *The Book Whisperer* revealed the secrets of getting students to love reading, *Reading in the Wild*, written with reading teacher Susan Kelley, describes how to truly instill lifelong wild reading habits in our students. Based, in part, on survey responses from adult readers as well as students, *Reading in the Wild* offers solid advice and strategies on how to develop, encourage, and assess five key reading habits that cultivate a lifelong love of reading. Also included are strategies, lesson plans, management tools, and comprehensive lists of recommended books. Copublished with Editorial Projects in Education, publisher of *Education Week* and *Teacher* magazine, *Reading in the Wild* is packed with ideas for helping students build capacity for a lifetime of wild reading. When the thrill of choice reading starts to fade, it's time to grab *Reading in the Wild*. This treasure trove of resources and management techniques will enhance and improve existing classroom systems and structures. —Cris Tovani, secondary teacher, Cherry Creek School District, Colorado, consultant, and author of *Do I Really Have to Teach Reading?* With *Reading in the Wild*, Donalyn Miller gives educators another important book. She reminds us that creating lifelong readers goes far beyond the first step of putting good books into kids' hands. —Franki Sibberson, third-grade teacher, Dublin City Schools, Dublin, Ohio, and author of *Beyond Leveled Books* *Reading in the Wild*, along with the now legendary *The Book Whisperer*, constitutes the complete guide to creating a stimulating literature program that also gets students excited about pleasure reading, the kind of reading that best prepares students for understanding demanding academic texts. In other words, Donalyn Miller has solved one of the central problems in language education. —Stephen Krashen, professor emeritus, University of Southern California

**The Best Story** Eileen Spinelli, 2008-05-29 The best story is one that comes from the heart. The library is having a contest for the best story, and the quirky narrator of this book just has to win that rollercoaster ride with her favorite author! But what makes a story the best? Her brother Tim says the best stories have lots of action. Her father thinks the best stories are the funniest. And Aunt Jane tells her that the best stories have to make people cry. A story that does all these things doesn't seem quite right, though, and the one thing the whole family can agree on is that the best story has to be your own. Anne Wilsdorf's hilarious illustrations perfectly capture this colorful family and their outrageous stories in Eileen Spinelli's heartfelt tale about creativity and finding your own voice.
