The Road to Oxiana Robert Byron,1982 In 1933 Robert Byron began a journey through the Middle East via Beirut, Jerusalem, Baghdad, and Teheran to Oxiana--the country of the Oxus, the ancient name for the river Amu Darya which forms part of the border between Afghanistan and the Soviet Union. The Road to Oxiana offers not only a wonderful record of his adventures, but also a rare account of the architectural treasures of a region now inaccessible to most Western travelers.

Mass Mediations Walter Armbrust,2000-09-19 This book takes a new approach to studying the contemporary Middle East, focusing on popular culture, including film, music, and television. Innovative essays by a group of smart young scholars in anthropology, history, and ethnomusicology.

The Challenge of the Silver Screen Freek L. Bakker,2009 In 1897 only two years after the invention of film the first feature film about Jesus appeared. This and other films about Jesus became examples for and an inspiration for films on other important religious figures like Rama, Buddha and Muhammad. Although religious leaders did not always approve of these films, they did find a ready audience among believers. This book explores these films and looks at how these films dealt with the fundamental question of portraying an individual thought to have either divine status or a very special and unique status among human beings. This book will thus benefit not only students of religious film but also those studying the portrayal of central religious figures in the contemporary world.

Mafia Queens of Mumbai S. Hussain Zaidi,Jane Borges,2011 Smuggling, gun-running, drugs, terrorism for many decades, Mumbai has lived under the shadow of the Underworld. Dawood Ibrahim, Karim Lala, Varadara- jan Mudaliar: these are names that any Indian would recognise. Analysed in print, immortalised on film, their lives, their gangs, More ... their 'businesses' are out there for anyone who wants the information. But there have been women, too, who have been part of this murky side of the city, walking along side, sometimes leading and manipulating men in the Underworld to run their own illegal businesses. Here, for the first time, crime journal- ists S. Hussain Zaidi and Jane Borges explore the lives of some of these women, and how, in cold blood, they were able to make their way up in what was certainly a man's world. From Kamathipura to Dongri, from assassins to molls, this is a collection that tells the stories of women who have become legend in

Mumbai's streets, lanes and back-alleys. Absorbingly told, impeccably researched, Mafia Queens of Mumbai reveals a side of Mumbai's Underworld that has never been seen before.

The Hierarchical Genome and Differentiation Waves Richard Gordon,1999 Over the past few decades numerous scientists have called for a unification of the fields of embryo development, genetics, and evolution. Each field has glaring holes in its ability to explain the fundamental phenomena of life. In this book, the author shows how the phenomenon of cell differentiation, considered in its temporal and spatial aspects during embryogenesis, provides a starting point for a unified theory of multicellular organisms (plants, fungi and animals), including their evolution and genetics. This unification is based on the recent discovery of differentiation waves by the author and his colleagues, described in the appendices, and illustrated by a flip movie prepared by a medical artist. To help the reader through the many fields covered, a glossary is included. This book will be of great value to the researcher and practicing doctors/scientists alike. The research students will receive an in-depth tutorial on the topics covered. The seasoned researcher will appreciate the applications and the gold mine of other possibilities for novel research topics.

Schooling Muslims in Natal Goolam H. Vahed,Thembisa Waetjen,2015 Traces the labors and fortunes of a set of progressive idealists who, mobilizing merchant capital, transoceanic networks and informal political influence, established the Orient Islamic Educational Institute in 1943 to found schools and promote a secular curriculum that could be integrated with Islamic teaching. Through the story of their Durban flagship project - the Orient Islamic School - the book provides a fascinating account of the changing politics of religious identity, education and citizenship in South Africa.

Bollywood FAQ Piyush Roy,2019-09-20 Bollywood, a popular nomenclature for India's "national" film industry in the Hindi language, along with the Taj Mahal, yoga, Buddha, and Mahatma Gandhi, is one of the best-known introductions and universally recognized associations with India across the world today. Despite its predominant narrative styles not confirming to the First World European and/or American cinema structure, Indian cinema is increasingly viewed as the world's second-most important film industry, after Hollywood, with box-office influence crossing over with European cinema. Bollywood FAQ provides a thrilling, entertaining, and intellectually stimulating joy ride into the vibrant, colorful, and multi-emotional universe of the world's most prolific (over 30 000 film titles) and most-watched film industry (at 3 billion-plus ticket sales). Bollywood blockbusters are simultaneously screened in theaters and cinemas in over 100 nations from the USA to Japan, New Zealand to the Netherlands, and Peru to Pakistan. Every major Hollywood studio (Warner Bros., Fox Star, Disney, Sony Pictures, and Viacom 18) is now making or distributing Bollywood films. Yet much of Indian cinema continues to amuse and confuse audiences and critics outside of India, including during their first/occasional introductions to its, in the words of

Salman Rushdie, "epico-mythico-tragico-comico-super-sexy-high-masala-art form in which the unifying principle is a technicolor-storyline." Bollywood FAQ explains and explores the above myths and magic. It introduces India's maharajah-like stars and their cult-commanding stardom. Movie buffs will find a ready reckoner on iconic Bollywood films, with a bonus must-watch listing of the cinema's most spectacular song-and-dance moments, highlighting the pleasures and popularity of a national cinema that has come to be a genre in itself. This book is a reader-friendly reference to everything one has ever wanted to know about the spectacular, robust, humongous, colorful, and dramatic multi-generic cinematic being called Bollywood. The narrative is enriched with insider insights culled from its author's long career as a film writer and critic in the city of Bollywood, Bombay (now Mumbai).

Civilization Helen Fewster (Editor), 2020-09 From the beginning of human history, the one thing that has defined us is our talent for making things, from basic technology and everyday objects, such as bowls and hand axes, to high-tech inventions, such as supersonic aircraft, smart devices, and Mars rovers. Objects speak volumes about a civilization, telling us how our ancestors lived - as well as what they believed in and valued. A bronze cat mummy shows us how highly the ancient Egyptians valued their feline companions, while a mechanical tiger toy tells the story of rising tensions between an Indian sultan and European colonisers. With stunning, specially commissioned photography, *Civilization* shows you the objects that our ancestors treasured - from the jewellery worn by the Mesopotamians to the prized ritual vessels used by the people of the

Shang dynasty - and gives you an insight into what gave each culture its own identity. From astrolabes and aeroplanes to vacuum cleaners and X-rays, DK uses its hallmark visual style to weave the extraordinary legacy of our creativity into a unique view of world history that will change the way you see the objects all around us.--Publisher.
