A Saint a Day Meredith Hinds,2021-11-23 Teach your child to walk in faith, act justly, and lead with kindness and humility with this 365-day devotional for kids. A Saint a Day includes fascinating historical stories as it introduces young readers to over 300 saints who did extraordinary things for God. Mother Teresa left her family at age 18 to become a missionary. St. Patrick helped spread Christianity to Ireland. St. Jerome translated the Bible into Latin--and also had a pet lion! Written for ages 8 to 12, A Saint a Day inspires young readers with remarkable stories of people who made extraordinary choices to love and serve God. Featuring popular saints such as Teresa of Ávila, Francis of Assisi, Juan Diego, and Thomas Aquinas, each of the 365 devotions includes: A Scripture verse and prayer A short summary or inspiring story of a saint A notable fact Artwork with a fresh, kid-friendly design This daily devotional for kids is: An ideal gift for First Communion, Confirmation, or Advent A unique book for strengthening a child's faith A great way to share Catholic Church history with kids A Saint a Day will help your child realize the long history of people of faith. As you journey through this yearlong devotional, your children will grow in their understanding of Church history and better understand how they can love and serve God.

The Secret of Our Success Joseph Henrich,2017-10-17 How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many

cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Broadway Plays and Musicals Thomas S. Hirschak, 2009-04-22
New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.

3D City Models and urban information: Current issues and perspectives
European COST Action TU0801R. Billen, A.-F. Cutting-Decelle, O. Marina, J.-P. de Almeida, Cagliioni M., G. Falquet, T. Leduc, C. Métral, G. Moreau, J. Perret, G. Rabin, R. San Jose, I. Yatskiv and S. Zlatanova
Considering sustainable development of cities implies investigating cities in a holistic way taking into account many interrelations between various urban or environmental issues. 3D city models are increasingly used in different cities and countries for an intended wide range of applications beyond mere visualization. Could these 3D City models be used to integrate urban and environmental knowledge? How could they be improved to fulfill such role? We believe that enriching the semantics of current 3D city models, would extend their

functionality and usability; therefore, they could serve as integration platforms of the knowledge related to urban and environmental issues allowing a huge and significant improvement of city sustainable management and development. But which elements need to be added to 3D city models? What are the most efficient ways to realize such improvement / enrichment? How to evaluate the usability of these improved 3D city models? These were the questions tackled by the COST Action TU0801 Semantic enrichment of 3D city models for sustainable urban development. This book gathers various materials developed all along the four year of the Action and the significant breakthroughs

Mapping Cyberspace Martin Dodge, Rob Kitchin, 2003-09-02 Mapping Cyberspace is a ground-breaking geographic exploration and critical reading of cyberspace, and information and communication technologies. The book: * provides an understanding of what cyberspace looks like and the social interactions that occur there * explores the impacts of cyberspace, and information and communication technologies, on cultural, political and economic relations * charts the spatial forms of virtual spaces * details empirical research and examines a wide variety of maps and spatialisations of cyberspace and the information society * has a related website at <http://www.MappingCyberspace.com>. This book will be a valuable addition to the growing body of literature on cyberspace and what it means for the future.

Combat Motivation A. Kellett, 2013-11-11 What men will fight for seems to be worth looking into, H. L. Mencken noted shortly after the close of the First World War. Prior to that war, although many military commanders and theorists had throughout history shown an aptitude for devising maxims concerning esprit de corps, fighting spirit, morale, and the like, military organizations had rarely sought either to understand or to promote combat motivation. For example, an officer who graduated from the Royal Military College (Sandhurst) at the end of the nineteenth century later commented that the art of leadership was utterly neglected (Charlton 1931, p. 48), while General Wavell recalled that during his course at the British Staff College at Camberley (1909-10) insufficient stress was laid on the factor of morale, or how to induce it and maintain it" (quoted in Connell 1964, p. 63). The First World War forced commanders and staffs to take account of psychological factors and to anticipate widely varied responses to the combat environment because, unlike most previous wars, it was not fought by relatively small and homogeneous armies of regulars and trained reservists. The mobilization by the belligerents of about 65 million men (many of whom were enrolled under duress), the evidence of fairly widespread psychiatric breakdown, and the postwar disillusion (- xiii xiv PREFACE amplified in books like C. E. Montague's *Disenchantment*, published in 1922) all tended to dispel assumptions and to provoke questions about motivation and morale.

Encyclopedia of Ancient Egypt Margaret Bunson, 2014-05-14 An A-Z reference providing concise and accessible information on Ancient Egypt from its predynastic cultures to the suicide of Cleopatra and Mark Anthony in the face of the Roman conquest. Annotation. Bunson (an author of reference works) has revised her 1991 reference (which is appropriate for high school and public libraries) to span Egypt's history from the predynastic period to the Roman conquest. The

encyclopedia includes entries for people, sites, events, and concepts as well as featuring lengthy entries or inset boxes on major topics such as deities, animals, and the military. A plan and photograph are included for each of the major architectural sites.

Models of the Church Avery Dulles, 2002-05-14 There is today a dramatic reexamination of structure, authority, dogma -- indeed, every aspect of the life of the Church is held up to scrutiny. Welcoming this as a sign of vitality, Avery Dulles has carefully studied the writings of contemporary Protestant and Catholic ecclesiologists and sifted out six major approaches, or models, through which the Church's character can be understood: as Institution, Mystical Communion, Sacrament, Herald, Servant, and, in a recent addition to the book, as Community of Disciples. A balanced theology, he concludes, must incorporate the major affirmations of each. The method of models or types, observes Cardinal Dulles, can have great value in helping people to get beyond the limitations of their own particular outlook and to enter into fruitful conversation with others... Such conversation is obviously essential if ecumenism is to get beyond its present impasses. This new edition includes a new Appendix and Preface by the author.

The Franciscan Saints Robert Ellsberg, 2017-08-30 Reading Robert Ellsberg's profiles of holy men and women is like throwing open a window in a stuffy old church and taking in great gulps of fresh air. Henri Nouwen has described his writing as "evocative without being pious." He broadens the traditional vision of sanctity and calls modern readers of all stripes to claim their potential for moral and spiritual growth, courage and action. By choosing relevant models and contemporary heroes, he makes holiness accessible and attractive to ordinary people. These 101 spiritual trailblazers span the centuries from Francis and Clare to Solanus Casey and Mychal Judge, with representatives from every walk of life and corner of the world. Each entry features the essential biographical facts and adds the insight and depth only Ellsberg can provide. The author's sharp eye for signs and stories of holiness in the gritty, messy real world informs his selections, making his work unique. Obscure lay peasants, married activists, and controversial social reformers take pride of place alongside better-known theologians, founders, and canonized saints. The audio edition of this book can be downloaded via Audible.

Code-meshing as World English Vershawn Ashanti Young, Aja Y. Martinez, 2011 Although linguists have traditionally viewed code-switching as the simultaneous use of two language varieties in a single context, scholars and teachers of English have appropriated the term to argue for teaching minority students to monitor their languages and dialects according to

context. For advocates of code-switching, teaching students to distinguish between home language and school language offers a solution to the tug-of-war between standard and nonstandard Englishes. This volume arises from concerns that this kind of code-switching may actually facilitate the illiteracy and academic failure that educators seek to eliminate and can promote resistance to Standard English rather than encouraging its use. The original essays in this collection offer various perspectives on why code-meshing--blending minoritized dialects and world Englishes with Standard English--is a better pedagogical alternative than code-switching in the teaching of reading, writing, listening, speaking, and visually representing to diverse learners. This collection argues that code-meshing rather than code-switching leads to lucid, often dynamic prose by people whose first language is something other than English, as well as by native English speakers who speak and write with accents and those whose home language or neighborhood dialects are deemed nonstandard. While acknowledging the difficulties in implementing a code-meshing pedagogy, editors Vershawn Ashanti Young and Aja Y. Martinez, along with a range of scholars from international and national literacy studies, English education, writing studies, sociolinguistics, and critical pedagogy, argue that all writers and speakers benefit when we demystify academic language and encourage students to explore the plurality of the English language in both unofficial and official spaces.

Speculator John Hunt, Doug Casey, 2016-09-27 Halfway between Frederick Forsyth's *Dogs of War* and Ayn Rand's *Fountainhead*. The gold mine in the jungle, the mercenaries, and the child soldiers keep you turning the pages. A morality tale with modern twists. -John Mackey (Founder, Whole Foods Market and author of *Conscious Capitalism*) The greatest gold discovery in history draws a young Charles Knight to West Africa, where he unearths deception, violence, and romance. Xander Winn-a Dutchman on his own mission-mentors Charles on his voyage into the world of speculation and African politics. But a psychopathic rebel leader, the purveyors of a six-billion-dollar fraud, a team of mercenaries bent on early retirement, and the US government all get in his way. Everyone wants him dead. But Charles plans to strike it rich. ADVANCE PRAISE FOR SPECULATOR *Speculator* uses the cover of a thrilling tale of international intrigue to provide an economic and moral defense of the much-maligned speculator and an economic and moral condemnation of those who profit via force and fraud. Doug Casey and John Hunt have provided an invaluable service to those looking for unique ways to spread the ideas of liberty. -Dr. Ron Paul *Speculator* may prove to be the first in a new genre of fiction. Give this book to all your friends and enemies. -John Hart (Author of *Redemption Road*) Adventure... intrigue... philosophy... politics... you'll find it all in this fast-paced novel from Doug Casey and John Hunt. Most important, you'll find thoughts - the kind of thoughts that will make you think too. -Bill Bonner (Author of *Empire of Debt and Mobs, Messiahs, and Markets*) *Speculator* will keep you thinking long past the conclusion and for years to come.-Robert Ringer (Author of *Looking Out for #1* and *Winning Through Intimidation*) *Speculator* is a roller-coaster lesson on the arcane world of gold-mine investing. An African revolution, massive fraud with massive profits and losses-the novel is such fun you don't notice how much you are learning. But, mostly, it is a

good read with a unique protagonist. -Wendy McElroy (Author of Liberty for Women) Move over John Galt and Humphrey Bogart, Speculator has created an old-fashioned hero with contemporary style and sex appeal. Expert cicerones lead us through the dark world of African mining and international finance. It is a riveting tale, perfect for a day at the beach or a long-winter's-night read. Pure gold. -Richard Harteis (Author of Marathon and Publishing Director of Poets-Choice.com) Passionately pointed and provocative.-David Brin (Author of Earth and The Postman) Speculator combines the fast-paced action of a Dirk Pitt adventure story with the cerebral message of an Ayn Rand novel. The authors' knowledge of how markets, mining, and governments work is impressive, yet the book reads like a day at the beach. Crisp, intelligent, and witty, this new adventure series might even out-Rand Rand. -Jo Ann Skousen (Professor of English Literature, Chapman University)
