

# Watermelon Democracy Egypt's Turbulent Transition

**Joe Studwell**

**Watermelon Democracy** Joshua Stacher, 2020-03-31 In Egypt, something that fails to live up to its advertised expectations is often called a watermelon: a grand promise that later turns out to be empty talk. The political transition in Egypt after protests overthrew Hosni Mubarak in 2011 is one such watermelon. Stacher examines the uprising and its aftermath to show how the country's new ruling incumbents deferred the democratic dreams of the people of Egypt. At the same time, he lays out in meticulous fashion the circumstances that gave the army's well-armed and well-funded institution an advantage against its citizens during and after Egypt's turbulent transition. Stacher outlines the ways in which Egypt's military manipulated the country's empowering uprising into a nightmare situation that now counts as the most repressive period in Egypt's modern history. In particular, Stacher charts the opposition dynamics during uprisings, elections, state violence, and political economy to show the multiple ways autocratic state elites try to construct a new political regime on the ashes of a discredited one. As they encounter these different aspects working together as a larger process, readers come to grips with the totality of the military-led counterrevolution as well as understand why Egyptians rightfully feel they ended up living in a watermelon democracy.

*Adaptable Autocrats* Joshua Stacher, 2012-04-25 The decades-long resilience of Middle Eastern regimes meant that few anticipated the 2011 Arab Spring. But from the seemingly rapid leadership turnovers in Tunisia and Egypt to the protracted stalemates in Yemen and Syria, there remains a common outcome: ongoing control of the ruling regimes. While some analysts and media outlets rush to look for democratic breakthroughs, autocratic continuity—not wide-ranging political change—remains the hallmark of the region's upheaval. Contrasting Egypt and Syria, Joshua Stacher examines how executive power is structured in each country to show how these preexisting power configurations shaped the uprisings and, in turn, the outcomes. Presidential power in Egypt was centralized. Even as Mubarak was forced to relinquish the presidency, military generals from the regime were charged with leading the transition. The course of the Syrian uprising reveals a key difference: the decentralized character of Syrian politics. Only time will tell if Assad will survive in office, but for now, the regime continues to unify around him. While debates about election timetables, new laws, and the constitution have come about in Egypt, bloody street confrontations continue to define Syrian politics—the differences in authoritarian rule could not be more stark. Political structures, elite alliances, state institutions, and governing practices are seldom swept away

entirely—even following successful revolutions—so it is vital to examine the various contexts for regime survival. Elections, protests, and political struggles will continue to define the region in the upcoming years. Examining the lead-up to the Egyptian and Syrian uprisings helps us unlock the complexity behind the protests and transitions. Without this understanding, we lack a roadmap to make sense of the Middle East's most important political moment in decades.

**Spatializing Authoritarianism** Natalie Koch,2022-06-30 Authoritarianism has emerged as a prominent theme in popular and academic discussions of politics since the 2016 US presidential election and the coinciding expansion of authoritarian rhetoric and ideals across Europe, Asia, and beyond. Until recently, however, academic geographers have not focused squarely on the concept of authoritarianism. Its longstanding absence from the field is noteworthy as geographers have made extensive contributions to theorizing structural inequalities, injustice, and other expressions of oppressive or illiberal power relations and their diverse spatialities. Identifying this void, *Spatializing Authoritarianism* builds upon recent research to show that even when conceptualized as a set of practices rather than as a simple territorial label, authoritarianism has a spatiality: both drawing from and producing political space and scale in many often surprising ways. This volume advances the argument that authoritarianism must be investigated by accounting for the many scales at which it is produced, enacted, and imagined. Including a diverse array of theoretical perspectives and empirical cases drawn from the Global South and North, this collection illustrates the analytical power of attending to authoritarianism's diverse scalar and spatial expressions, and how intimately connected it is with identity narratives, built landscapes, borders, legal systems, markets, and other territorial and extraterritorial expressions of power.

**Egypt's Occupation** Aaron G. Jakes,2020-08-25 The history of capitalism in Egypt has long been synonymous with cotton cultivation and dependent development. From this perspective, the British occupation of 1882 merely sealed the country's fate as a vast plantation for European textile mills. All but obscured in such accounts, however, is Egypt's emergence as a colonial laboratory for financial investment and experimentation. *Egypt's Occupation* tells for the first time the story of that financial expansion and the devastating crises that followed. Aaron Jakes offers a sweeping reinterpretation of both the historical geography of capitalism in Egypt and the role of political-economic thought in the struggles that raged over the occupation. He traces the complex ramifications and the contested legacy of colonial economism, the animating theory of British imperial rule that held Egyptians to be capable of only a recognition of their own bare economic interests. Even as British officials claimed that economic development and the multiplication of new financial institutions would be crucial to the political legitimacy of the occupation, Egypt's early nationalists elaborated their own critical accounts of boom and bust. As Jakes shows, these Egyptian thinkers offered a set of sophisticated and troubling meditations on the deeper contradictions of capitalism and the very meaning of freedom in a capitalist world.

**Democratic Backsliding in Post-Mubarak Egypt** Arshad,2024-09-24 Arshad examines the phenomenon of 'democratic

backsliding' in post-2011 Egypt. Capturing a critical juncture in Egyptian politics, this book explains the failure of Egypt's nascent democratic experiment and its relapse into authoritarianism. Egypt is the crucial playbook to understand the reversal of a country towards an authoritarian regime and what measures state and non-state actors should employ to prevent backsliding. The book is an essential model for understanding democratic backsliding through 'structural and agential' factors. The former encompasses society, politics, economics, and the military, while the latter deals with the choices and attitudes of the leadership during the political transition. Providing crucial insights into what went wrong during the democratic transition process, this text acts as a guide to curbing the rise of authoritarian regimes in the face of the next potential revolution. The book is a valuable resource for scholars who are interested in democratisation, authoritarian regimes, military leadership, political protests, and political leadership.

*Luxury Arts of the Renaissance* Marina Belozerskaya, 2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d'Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.

*How Asia Works* Joe Studwell, 2013-03-28 Until the catastrophic economic crisis of the late 1990s, East Asia was perceived as a monolithic success story. But heady economic growth rates masked the most divided continent in the world - one half the most extraordinary developmental success story ever seen, the other half a paper tiger. Joe Studwell explores how policies ridiculed by economists created titans in Japan, Korea and Taiwan, and are now behind the rise of China, while the best advice the West could offer sold its allies in South-East Asia down the economic river. The first book to offer an Asia-wide deconstruction of success and failure in economic development, Studwell's latest work is provocative and iconoclastic - and sobering reading for most of the world's developing countries. *How Asia Works* is a must-read book that packs powerful insights about the world's most misunderstood continent.

**Owning the Olympics** Monroe Price, Daniel Dayan, 2009-12-10 A major contribution to the study of global events in times of global media. *Owning the Olympics* tests the possibilities and limits of the concept of 'media events' by analyzing the mega-event of the information age: the Beijing Olympics. . . . A good read from cover to cover. —Guobin Yang, Associate Professor, Asian/Middle Eastern Cultures & Sociology, Barnard College, Columbia University From the moment they were announced, the Beijing Games were a major media event and the focus of intense scrutiny and speculation. In contrast to earlier such events, however, the Beijing Games are also unfolding in a newly volatile global media environment that is no longer monopolized by broadcast media. The dramatic expansion of media outlets and the growth of mobile communications technology have changed the nature of media events, making it significantly more difficult to regulate them or control their meaning. This volatility is reflected in the multiple, well-publicized controversies characterizing the run-up to Beijing 2008. According to many Western commentators, the People's Republic of China seized the Olympics as an opportunity to reinvent itself as the New China—a global leader in economics, technology, and environmental issues, with an improving human-rights record. But China's maneuverings have also been hotly contested by diverse global voices, including prominent human-rights advocates, all seeking to displace the official story of the Games. Bringing together a distinguished group of scholars from Chinese studies, human rights, media studies, law, and other fields, *Owning the Olympics* reveals how multiple entities—including the Chinese Communist Party itself—seek to influence and control the narratives through which the Beijing Games will be understood. *digitalculturebooks* is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. *Bread and Freedom* Mona El-Ghobashy, 2021-07-13 A multivocal account of why Egypt's defeated revolution remains a watershed in the country's political history. *Bread and Freedom* offers a new account of Egypt's 2011 revolutionary mobilization, based on a documentary record hidden in plain sight—party manifestos, military communiqués, open letters, constitutional contentions, protest slogans, parliamentary debates, and court decisions. A rich trove of political arguments, the sources reveal a range of actors vying over the fundamental question in politics: who holds ultimate political authority. The revolution's tangled events engaged competing claims to sovereignty made by insurgent forces and entrenched interests alike, a vital contest that was terminated by the 2013 military coup and its aftermath. Now a decade after the 2011 Arab uprisings, Mona El-Ghobashy rethinks how we study revolutions, looking past causes and consequences to train our sights on the collisions of revolutionary politics. She moves beyond the simple judgments that once celebrated Egypt's revolution as an awe-inspiring irruption of people power or now label it a tragic failure. Revisiting the revolutionary interregnum of

2011-2013, Bread and Freedom takes seriously the political conflicts that developed after the ouster of President Hosni Mubarak, an eventful thirty months when it was impossible to rule Egypt without the Egyptians.

After Repression Elizabeth R. Nugent, 2020-09 In the wake of the Arab Spring, newly empowered factions in Tunisia and Egypt vowed to work together to establish democracy. In Tunisia, political elites passed a new constitution, held parliamentary elections, and demonstrated the strength of their democracy with a peaceful transfer of power. Yet in Egypt, unity crumbled due to polarization among elites. Presenting a new theory of polarization under authoritarianism, the book reveals how polarization and the legacies of repression led to these substantially divergent political outcomes. The book documents polarization among the opposition in Tunisia and Egypt prior to the Arab Spring, tracing how different kinds of repression influenced the bonds between opposition groups.

*Social Accountability Initiatives in Morocco, Tunisia, and Lebanon* Ward Vloeberghs,

*States, Actors and Geopolitical Drivers in the Mediterranean* Francesca Maria Corrao, Riccardo Redaelli, 2021-09-20

Moving from a historical and cultural perspective, this book examines the geo-political and socio-economic changes involving the enlarged Mediterranean. Organised into two main sections, the first section (The new centrality of the Mediterranean Basin: Trends and Dynamics) is devoted to the analysis of the most relevant drivers and interdisciplinary broader issues, and the second section (Hotspots of Crisis and Regional Interferences in the Mediterranean) assesses the situation in some areas interested by the waves of uprisings since 2011-12. The book aims to uncover this new, critical centrality of the Mediterranean in the global scenario through the analysis of the interactions and intertwining of those trends and dynamics offering a historical holistic broad view. What follows is an Italian perspective that is the result of the research of a group of scholars who have been working for years on the first-hand sources of the countries examined. A peculiar vision connected not only to its unique geographical position at the center of the basin, but also to its deep relations with the southern shore throughout its long history.

**The Middle East** Ellen Lust, 2023-02-01 In the *The Middle East, Sixteenth Edition*, Ellen Lust brings important new coverage to this comprehensive, balanced, and superbly researched text. In clear prose, Lust and her outstanding contributors explain the landscape of this changing region by examining both regional trends and individual countries. The Sixteenth Edition adds a chapter on Sudan, and other country chapters have been streamlined and fully updated to reflect domestic, regional, and international changes of the past three years. This best-selling text offers a wealth of information to help readers not only comprehend more fully the world around them, but also recognize and formulate policies that can more successfully engage the vitally important Middle East.

**Sex and Desire in Muslim Cultures** Aymon Kreil, Lucia Sorbera, Serena Tolino, 2020-12-10 What have different ideas about sex and gender meant for people throughout the history of the Middle East and North Africa? This book traces sex and

desire in Muslim cultures through a collection of chapters that span the 9th to 21st centuries. Looking at spaces and periods where sexual norms and the categories underpinning them emerge out of multiple subjectivities, the book shows how people constantly negotiate the formulation of norms, their boundaries and their subversion. It demonstrates that the cultural and political meanings of sexualities in Muslim cultures - as elsewhere - emerge from very specific social and historical contexts. The first part of the book examines how people constructed, discussed and challenged sexual norms from the Abbasid to the Ottoman period. The second part looks at literary and cinematic Arab cultural production as a site for the construction and transgression of gender norms. The third part builds on feminist historiography and social anthropology to question simplistic dichotomies and binaries. Each of the contributions shows how understanding of sexualities and the subjectivities that evolve from them are rooted in the mutually-constitutive relationships between gender and political power. In identifying the plurality of discourses on desires, the book goes beyond the dichotomy of norm and transgression to glimpse what different sexual norms have meant at different times across the Middle East.

*Contested Waterscapes in the Mekong Region* Francois Molle, 2012-05-04 The catchment area of the Mekong River and its tributaries extends from China, through Burma/Myanmar, Thailand, Laos, Cambodia and to Vietnam. The water resources of the Mekong region - from the Irrawaddy and Nu-Salween in the west, across the Chao Phraya to the Lancang-Mekong and Red River in the east- are increasingly contested. Governments, companies, and banks are driving new investments in roads, dams, diversions, irrigation schemes, navigation facilities, power plants and other emblems of conventional 'development'. Their plans and interventions should provide some benefits, but also pose multiple burdens and risks to millions of people dependent on wetlands, floodplains and aquatic resources, in particular, the wild capture fisheries of rivers and lakes. This book examines how large-scale projects are being proposed, justified, and built. How are such projects contested and how do specific governance regimes influence decision making? The book also highlights the emergence of new actors, rights and trade-off debates, and the social and environmental consequences of 'water resources development'. This book shows how diverse, and often antagonistic, ideologies and interests are contesting for legitimacy. It argues that the distribution of decision-making, political, and discursive power influences how the waterscapes of the region will ultimately look and how benefits, costs and risks will be distributed. These issues are crucial for the transformation of waterscapes and the prospects for democratizing water governance in the Mekong region. The book is part of the action-research of the M-POWER (Mekong Program on Water, Environment and Resilience) knowledge network. Published with IFAD, CGIAR Challenge Program on Water & Food, M-POWER, Project ECHEL-EAU and HEINRICH BOLL STIFTUNG

*Loved Egyptian Night* Hugh Roberts, 2024-02-27 Why did the Arab Spring have such calamitous outcomes? *Loved Egyptian Night* fundamentally reassesses the Arab Spring, refuting the stories the Western powers fed to the world. There is no doubt that the toppling of Ben Ali in Tunisia in January 2011 and what it led to amounted to a political revolution. But the

uprisings in Egypt, Libya and Syria - countries with quite different histories and political traditions - were never revolutions. As Hugh Roberts explains, the bitter ends of these episodes were inscribed in their misunderstood beginnings. To celebrate these uprisings as 'revolutions' preempts and inhibits critical analysis and expresses an abdication of intellectual responsibility. After so much wishful thinking, what remains is the debris of a cynical pretension. Outside interference, ostensibly on behalf of these 'revolutions', reduced Libya to anarchy and condemned Syria to a devastating proxy war now in its twelfth year. In Egypt, the Free Officers' state was re-booted in its most brutal ever form. The Americans and Europeans did not vainly try to help the Egyptians or anyone else escape from authoritarian rule. Instead, they contrived to seal them up in it. The long oppression of these societies, Kipling's 'loved Egyptian night,' is not going to be ended by the Western powers; these days it is guaranteed by them.

**Cultural Perspectives, Geopolitics & Energy Security of Eurasia** Mahir Ibrahimov, Gustav Otto, Lee G.

Gentile, 2017-04-16 This anthology provides insight and observations on the importance of the Eurasia region, including Russia and other countries of the former USSR. The articles that make up this work provide a detailed description of regional realities, including a contextual discussion of the current Ukraine situation, viewed through the prism of Russia's traditional military-strategic culture. As with all countries in the Eurasian region, Russia's traditional strategic interests play a critical role in the geopolitical and socio-cultural situation in that region. The anthology was created for the Army University Press, but goes beyond the obvious military strategic nexus and seeks to identify new spaces for consideration by planners and policymakers alike.

Industrial Development for the 21st Century David O'Connor, Monica Kjollerstrom, 2008-06-01 With very few exceptions, industrial development has been central to the process of structural transformation which characterises economic development. Industrial Development for the 21st century examines the new challenges and opportunities arising from globalization, technological change and new international trade rules. The first part focuses on key sectors with potential for developing countries, focussing on two key themes. First, traditional points of entry for late industrializers - like textiles and clothing - have become even more intensely competitive than ever before, requiring more innovative adaptive strategies for success. Second, countries now recognize that manufacturing does not exhaust the opportunities for producing high value-added goods and services for international markets. Knowledge intensity is increasing across all spheres of economic activity, including agriculture and services, which can offer promising development paths for some developing countries. The final section addresses social and environmental aspects of industrial development. Labour-intensive, but not necessarily other patterns of industrial development can be highly effective in poverty reduction though further industrial progress may be less labour-intensive. A range of policies can promote industrial energy and materials efficiency, often with positive impacts on firms' financial performance as well as the environment. Promoting materials recycling and reuse is an effective, if indirect

means of conserving resources. Finally, the growth of multinational interest in corporate social responsibility is traced, with consideration given to both the barriers and opportunities this can pose for developing country enterprises linked to global supply chains.

Imprisoning a Revolution Collective Antigone, 2025-01-07 A groundbreaking collection of writings by political prisoners in Egypt, offering a unique lens on the global rise of authoritarianism during the last decade. This book contains letters, poetry, and art produced by Egypt's incarcerated from the eruption of the January 25, 2011, uprising. Some are by journalists, lawyers, activists, and artists imprisoned for expressing their opposition to Egypt's authoritarian order; others are by ordinary citizens caught up in the zeal to silence any hint of challenge to state power, including bystanders whose only crime was to be near a police sweep. Together, the contributors raise profound questions about the nature of politics in both authoritarian regimes and their democratic allies, who continue to enable and support such violence. This collection offers few answers and even less consolation, but it does offer voices from behind the prison walls that remind readers of our collective obligation not to look away or remain silent. With a foreword by acclaimed Egyptian novelist Ahmed Naji and an afterword with Kenyan literary giant Ngũgĩ wa Thiong'o, *Imprisoning a Revolution* holds a mirror not just to Egypt but to the world today, urging us to stop the rampant abuse and denial of fundamental human rights around the globe.
