*Invitation to World Religions* Jeffrey Brodd, 2024 THE WORLD'S RELIGIOUS TRADITIONS have offered answers to the weightiest questions of human existence, contributed to the formation of political and social institutions, inspired masterpieces of art and literature, and provided many of the cultural values and ideals on which entire civilizations have been based. Today, religions continue to play a powerful role in shaping the ways in which people understand themselves, the world they live in, and how they should live. *Invitation to World Religions* welcomes students to the study of religion. In these pages, we open the doors and invite the reader to explore with wonder and respect. We describe the essential features of the world's major religions and show how they have responded to basic human needs and to the cultural settings in which they developed. We also compare the answers religions have offered us regarding some of the most essential human questions: Why are we here? What is the nature of the universe? How should we live? Our aim has been to balance concision and substance in an introductory text that is accessible, as well as challenging--

**Light from the East** Harry Oldmeadow,2007 This is a collection of writings about the spiritual meeting of East and West in the modern world including articles by the Dalai Lama, Huston Smith, Frithjof Schuon, Thomas Merton, Titus Burckhardt, Ananda Coomaraswamy, Diana Eck, Gary Snyder and Aldous Huxley. *The Great Transformation* Karen Armstrong,2009-02-24 From one of the world's leading writers on religion and the highly acclaimed author of the bestselling *A History of God*, *The Battle for God* and *The Spiral Staircase*, comes a major new work: a chronicle of one of the most important intellectual revolutions in world history and its relevance to our own time. In one astonishing, short period - the ninth century BCE - the peoples of four distinct regions of the civilized world created the religious and philosophical traditions that have continued to nourish humanity into the present day: Confucianism and Daoism in China; Hinduism and Buddhism in India; monotheism in Israel; and philosophical rationalism in Greece. Historians call this the Axial Age because of its central importance to humanity's spiritual development. Now, Karen Armstrong traces the rise and development of this transformative moment in history, examining the brilliant contributions to these traditions made by such figures as the Buddha, Socrates, Confucius and Ezekiel. Armstrong makes clear that despite some differences of emphasis, there was remarkable consensus among these religions and philosophies: each insisted on the primacy of compassion over hatred and violence. She illuminates what this "family" resemblance reveals about the religious impulse and quest of humankind. And she goes beyond spiritual archaeology, delving into the ways in which these Axial Age beliefs can present an instructive and thought-provoking challenge to the ways we think about and practice religion today. A revelation of humankind's early shared imperatives, yearnings and inspired solutions - as salutary as it is fascinating. Excerpt from *The Great Transformation*: In our global world, we can no longer afford a parochial or exclusive vision. We must learn to live and behave as though people in remote parts of the globe were as important as ourselves. The sages of the Axial Age did not create their compassionate ethic in idyllic circumstances. Each tradition developed in societies like our own that were torn apart by violence and warfare as never before; indeed, the first catalyst of religious change was usually a visceral rejection of

the aggression that the sages witnessed all around them. . . . All the great traditions that were created at this time are in agreement about the supreme importance of charity and benevolence, and this tells us something important about our humanity.

**Scriptures of the World's Religions** Associate Professor of Philosophy James Fieser, James Fieser, John Powers, Professor of Religious Studies John Powers, 2003-09 This anthology of scriptures from the world's living religions offers selections that vary in length from a few paragraphs to 10 pages, accompanied by brief introductions that discuss the nature and scope of scripture within each religion as well as the history of each scripture presented. The anthology is also available in two volumes: *Scriptures of The East* contains sacred writings of Hinduism, Jainism, Buddhism, Sikhism, Confucianism, Taoism, Shinto, and indigenous religions of the East; *Scriptures of The West* contains sacred writings of Zoroastrianism, Judaism, Christianity, Islam, the Baha'i faith, and indigenous religions of the West.

**Religions and Extraterrestrial Life** David A. Weintraub, 2014-07-16 In the twenty-first century, the debate about life on other worlds is quickly changing from the realm of speculation to the domain of hard science. Within a few years, as a consequence of the rapid discovery by astronomers of planets around other stars, astronomers very likely will have discovered clear evidence of life beyond the Earth. Such a discovery of extraterrestrial life will change everything. Knowing the answer as to whether humanity has company in the universe will trigger one of the greatest intellectual revolutions in history, not the least of which will be a challenge for at least some terrestrial religions. Which religions will handle the discovery of extraterrestrial life with ease and which will struggle to assimilate this new knowledge about our place in the universe? Some religions as currently practiced appear to only be viable on Earth. Other religions could be practiced on distant worlds but nevertheless identify both Earth as a place and humankind as a species of singular spiritual religious importance, while some religions could be practiced equally well anywhere in the universe by any sentient beings. Weintraub guides readers on an invigorating tour of the world's most widely practiced religions. It reveals what, if anything, each religion has to say about the possibility that extraterrestrial life exists and how, or if, a particular religion would work on other planets in distant parts of the universe.

*Before Religion* Brent Nongbri, 2013-01-22 Examining a wide array of ancient writings, Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion. Nongbri shows how misleading it is to speak as though religion was a concept native to pre-modern cultures.

**World Religions** Thomas A. Robinson, Hillary P. Rodrigues, 2014-11-11 This masterful survey of world religions presents a clear and concise portrait of the history, beliefs, and practices of Eastern and Western religions. The new edition contains added material and has been revised throughout. The authors, both respected scholars of world religions, have over fifty years of combined teaching experience. Their book is accessibly written for introductory classes, can be easily adapted for

one- or two-semester courses, and presents a neutral approach for broad classroom use. Pedagogical aids include further reading suggestions, photographs, sidebars, and pronunciation guides. An 800-question bank of multiple-choice test questions is available to professors through Baker Academic's Textbook eSources.

**Religions of the Ancient World** Sarah Iles Johnston,2004-11-30 This groundbreaking, first basic reference work on ancient religious beliefs collects and organizes available information on ten ancient cultures and traditions, including Greece, Rome, and Mesopotamia, and offers an expansive, comparative perspective on each one.

*Muslims and the Making of America* Amir Hussain,2016 There has never been an America without Muslims--so begins Amir Hussain, one of the most important scholars and teachers of Islam in America. Hussain, who is himself an American Muslim, contends that Muslims played an essential role in the creation and cultivation of the United States. Memories of 9/11 and the rise of global terrorism fuel concerns about American Muslims. The fear of American Muslims in part stems from the stereotype that all followers of Islam are violent extremists who want to overturn the American way of life. Inherent to this stereotype is the popular misconception that Islam is a new religion to America. In *Muslims and the Making of America* Hussain directly addresses both of these stereotypes. Far from undermining America, Islam and American Muslims have been, and continue to be, important threads in the fabric of American life. Hussain chronicles the history of Islam in America to underscore the valuable cultural influence of Muslims on American life. He then rivets attention on music, sports, and culture as key areas in which Muslims have shaped and transformed American identity. America, Hussain concludes, would not exist as it does today without the essential contributions made by its Muslim citizens. --J. Ryan Parker *The Midwest Book Review*

**Religions of Asia Today** John L. Esposito,Darrell J. Fasching,Todd T. Lewis,2017 Ideal for courses in Asian or Eastern religions, *Religions of Asia Today*, Fourth Edition, covers the same material contained in the authors' longer textbook, *World Religions Today*, Sixth Edition, while also featuring a unique chapter on Islam in Asia. Revealing the significance of religion in contemporary life, it explores Hinduism, Buddhism, South Asian religions, East Asian religions, indigenous religions, and new religions as dynamic, ongoing forces in the lives of individuals and in the collective experience of modern societies. This unique volume accomplishes two goals: it connects today's religions to their classical beliefs and practices and focuses on how these religions have both radically changed the modern world and been changed by it. Thoroughly revised, the fourth edition features streamlined content for greater accessibility; updated material on recent world events; and updated timelines.

**Orientalism and Religion** Richard King,2013-04-03 *Orientalism and Religion* offers us a timely discussion of the implications of contemporary post-colonial theory for the study of religion. Richard King examines the way in which notions such as mysticism, religion, Hinduism and Buddhism are taken for granted. He shows us how religion needs to be

reinterpreted along the lines of cultural studies. Drawing on a variety of post-structuralist and post-colonial thinkers, such as Foucault, Gadamer, Said, and Spivak, King provides us with a challenging series of reflections on the nature of Religious Studies and Indology.
