Resurrection Papers Heather Thomas, 2003 Poetry. RESURRECTION PAPERS is a hybrid poem sequence embracing the idea that to think and live consciously and passionately one must walk alongside death. The poems erupt from a convergence of urgencies that allows anything into the charged moment of the poem and includes multiple forms. They occur as fragment, lyric, dramatic monologue, prose unfolding, and found journal entries, both narrative and disjunctive in style. RESURRECTION PAPERS is a book of transgression - the transgression of the individual subject by family and social

strictures, the transgression through such death into existence, the transgression of language as prescription into language as desire. It is a book ultimately of freedom - of being set free through language.

Less Translated Languages Albert Branchadell,Lovell Margaret West,2005-01-27 This is the first collection of articles devoted entirely to less translated languages, a term that brings together well-known, widely used languages such as Arabic or Chinese, and long-neglected minority languages — with power as the key word at play. It starts with some views on English, the dominant language in Translation as elsewhere, considers the role of translation for minority languages — both a source of inequality and a means to overcome it —, takes a look at translation from less translated major languages and cultures, and ends up with a closer look at translation into Catalan, a paradigmatic case of less translated language, in a final section that includes a vindication of six prominent Catalan translators. Combining sound theoretical insight and accurate analysis of relevant case studies, the contributors to this collection make a convincing case for a more thorough examination of less translated languages within the field of Translation Studies.

The Reception of Henry James in Europe Annick Duperray,2014-03-27 Henry James, the American-born writer who chose to live in Europe, settled in London and Rye, becoming a British subject in 1915. He occupies a major position as a dedicated artist and cultural historian who combined the strengths of American, English and French nineteenth-century literary traditions with the aesthetic innovations that paved the way for modern and postmodern fiction. The rare subtlety and intensity of his writings can be fully appreciated only through the responses of perceptive readers beyond the English-speaking world. This collection of essays, prepared by an international team of scholars and translators, examines the ways

in which James was translated, published and reviewed on the Continent of Europe, notably in France, Italy and Germany, but also in most of the languages of Northern, Southern and Eastern Europe. Some specific contributions are devoted to the strikingly original cinematic and operatic adaptations of Henry James's works.
