*Environmental Odour* Gjunther Schauberger, Martin Piringer, Chuandong Wu, 2022-02-10 Environmental odour is perceived as a major nuisance by rural as well as urban populations. The sources of odorous substances are manifold. In urban areas, these include restaurants, small manufacturing trades, and other sources, which might cause complaints. In the suburbs, wastewater treatment plants, landfill sites, and other infrastructures are the expected major odour sources. These problems are often caused by the accelerated growth of cities. In rural sites, livestock farming and the spreading of manure on the fields is blamed for severe odour annoyance. In fact, environmental odours are considered to be a common cause of public complaints by residents to local authorities, regional, or national environmental agencies. This Special Issue of *Atmosphere* will address the entire chain, from the quantification of odour sources, abatement methods, the dilution in the atmosphere, and the assessment of odour exposure for the assessment of annoyance. In particular, this Special Issue aims to encourage contributions dealing with field trials and dispersion modeling to assess the degree of annoyance and the quantitative success of abatement measures.

*Ancient Earthquakes* M. Sintubin, 2010-01-01 Ancient earthquakes are pre-instrumental earthquakes that can only be identified through indirect evidence in the archaeological (archaeoseismology) and geological (palaeoseismology) record. Special Paper 471 includes a selection of cases convincingly illustrating the different ways the archaeological record is used in earthquake studies. The first series of papers focuses on the relationship between human prehistory and tectonically active environments, and on the wide range of societal responses to historically known earthquakes. The bulk of papers concerns archaeoseismology, showing the diversity of approaches, the wide range of disciplines involved, and its potential to contribute to a better understanding of earthquake history. *Ancient Earthquakes* will be of interest to the broad community of earth scientists, seismologists, historians, and archaeologists active in and around archaeological sites in the many regions around the world threatened by seismic hazards. This Special Paper frames in the International Geoscience Programme IGCP 567 'Earthquake Archaeology: Archaeoseismology along the Alpine-Himalayan Seismic Zone.'--Publisher's description.

*Climate, Clothing, and Agriculture in Prehistory* Ian Gilligan, 2019 The first book on the origin of clothes shows why climate change was crucial - for the origin of agriculture too.

Dark Vales Raimón Casellas, 2014-01-31 The protagonist, Father Latzer, a priest banished for doctrinal heresy to an isolated, backward mountain parish, struggles to achieve personal redemption by bringing salvation to his primitive, taciturn, rural flock. Their mute atavism is disturbed only by the local whore, Footloose, embodying all the forces against which the priest's reforming mission is directed. The action is set in a recognisable time and a landscape which, through the power of Casellas' language, is endowed with a complex poetic charge and is as compelling today as when it was written.

**Teaching Proficiency Through Reading and Storytelling (TPRS)** Karen Lichtman, 2018-06-12 This module introduces Teaching Proficiency through Reading and Storytelling (TPRS), an input-based language teaching method. TPRS provides a framework for teaching classes completely in the target language—even those at the beginner level. Through the steps of establishing meaning, creating a story that is acted out live in class, and reading, students understand and use the target language to communicate right away. Research shows that over time TPRS creates fluent speakers who excel both on traditional tests and—more importantly—in real-life situations. This is a valuable resource on TPRS for world language teachers, language teacher educators, and second language researchers.

*Small Town Sustainability* Paul Knox, Heike Mayer, 2013-09-03 In an age where the globalization process is threatening the uniqueness and vitality of small towns, and where most urban planning discourse is directed at topics such as metropolitan regions or mega-regions and world cities, the authors here emphasize the need to critically reflect on the potential of small towns. They illustrate how small towns can meet the challenge of a fast-paced, globalized world, and based on case studies,

movements, programs, and strategies, present the local cultures that effectively and sustainably promote traditions and identities. Small towns often play a critical role in regional economies. When small towns focus on their specific characteristics and exploit their opportunities, they can become stable niches within regional, national, and global economies, and thus contribute significantly to shaping their future. The second edition is expanded to cover the intensive development of small towns in China and Korea. In addition, the authors examine the impact of the economic crisis on small towns and the recent development of the Slow City movement.

Tourism, Pilgrimage and Intercultural Dialogue Dolores Vidal-Casellas, Silvia Aulet, Neus Crous-Costa,2019-06-21 Religious heritage and sacred sites offer an opportunity for visitors to explore a community's cultural knowledge. However, it is important to consider the role of interpretation, meaning, experience and narrative. This book is a timely re-assessment of the increasing interconnections between the management of diversity and religious tourism, and secular spaces on a global stage. It explores key learning points from a range of contemporary case studies on religious and pilgrimage activity; these relate to ancient, sacred and emerging tourist destinations, and new forms of pilgrimage, faith systems and quasi-religious activities. By providing a conceptual framework, the book demonstrates the symbolism of sacred spaces within religious traditions and the relationships developed between them. It offers explanations on how to manage and communicate religious diversity and provides a solid overview of: Religious tourism as a tool for intercultural dialogue; Interpretation of religious heritage for tourism; Cross-cultural contacts. This book will provide a valuable resource for those researching and practising tourism management, pilgrimage and religious tourism.
