Multi-owned Housing Ann Dupuis,2016-04-15 This internationally edited collection addresses the issues raised by multi-owned residential developments, now established as a major type of housing throughout the world in the form of apartment blocks, row housing, gated developments, and master planned communities. The chapters draw on the empirical research of leading academics in the fields of planning, sociology, law and urban, property, tourism and environmental studies, and consider the practical problems of owning and managing this type of housing. The roles and relationships of power between developers, managing agents and residents are examined, as well as challenges such as environmental sustainability and state regulation of multi-owned residential developments. The book provides the first comparative study of such issues, offering lessons from experiences in the UK, the US, Australia, New Zealand, Israel, Hong Kong, Singapore and China.

Hong Kong Legal Principles Stephen D. Mau,2013-02-01 While there are publications on specific legal fields, no recent book includes several core legal subjects presented in a general manner. Resulting from this need for an updated work on the general principles of law in Hong Kong for use by non-law students and nonlegal professionals, the first edition of this book was published in 2006. After three printings, the latest in 2010, a new edition became necessary to reflect accurately the changes in the law since the first publication. Intended as a practical general guide to the more common legal principles as they relate to Hong Kong -- contract, tort, employment, and property -- the second edition should assist the reader in understanding and anticipating legal issues that might arise in commercial or daily personal situations. Therefore the second edition of this book has been updated to reflect recent court decisions and revisions to Hong Kong ordinances and has been reorganized to render the book more user friendly.

Property Law in Hong Kong Stephen D. Mau,2014-03-11 This book focuses on the rules regulating property and conveyancing which apply in the territory and is intended for use by the non-lawyer. The organizational structure and concise text reflect this goal. For readers desiring additional information, an extensive notes section provides more comprehensive and detailed explanations as well as Chinese translations of key legal terms. As a survey, this text is appropriate for students of law, non-law professionals who need an overview of the subject, and general readers.

Regulating Information Asymmetry in the Residential Real Estate Market Devin Lin,2017-07-06 This book conducts a

detailed examination of the current form of the Hong Kong residential property regulatory system: the 2013 Residential Properties (Firsthand Sales) Ordinance (Cap 621). The author sheds light on how the new legislation promotes a number of values including information symmetry, consumer protection, the free market and business efficacy. It provides a detailed account of how the regulatory mechanism has evolved over the past three decades to catch unconscionable sales tactics (such as selective information and/or misrepresentation of location, size, completion date and past transactions) and monitor sales practices in order to protect the interests of stakeholders in this ever-changing first-hand residential property market. This book breaks down this complicated subject matter by focusing a number of chapters each on a specific attribute of the residential property on sale. It then examines the various channels through which the information is communicated to the prospective buyer and discusses misrepresentation of the key information in sales of residential properties as criminal liability. The tension between consumer's rights on one hand and the pursuit of free market principles on the other is but one example of the conflicting values thoroughly discussed in the book, others include superstition vs. modernization and clarity vs. flexibility. Aimed at those with an interest in consumer protection and transparency-orientated legislation in commercialized real estate transactions, this book seeks to provide an in-depth discussion of the latest trends and directions of travel.

The publication covers all aspects of real estate from office buildings to retail, hotel and other categories of commercial property. Where a term is specific to one country, the country abbreviation is included. --Book Jacket.

A Guide to Effective Property Management in Hong Kong Francis K. Loo, 1994-11-01 A Guide to Effective Property Management in Hong Kong brings together the practical experience and insights of a chartered surveyor who has had more than thirty years of experience in property management and real estate in Hong Kong and Canada. Property managers,

property owners, administrators and students of the subject will find here a wealth of information and practical detail which provides the foundation for efficient and effective property management. The author also places particular emphasis on learning and improving interpersonal and communication skills.

Scamell and Gasztowicz on Land Covenants Steven Gasztowicz KC,2018-03-16 Scamell and Gasztowicz on Land Covenants, 2nd edition, brings the material up to date, exploring the types of covenants practitioners have to contend with, and seeking to offer practical advice in this complex and far reaching area of law. The second edition includes coverage of positive covenants and planning covenants which no other title on the market currently offers. A covenant can be either positive or negative. It is important to understand the difference between positive and negative covenants as not all covenants are enforceable and different rules on enforceability apply depending on whether the covenant is positive or negative. Dealing with the impact of Covenants on land affects most conveyancing transactions and is also of vital importance to landowners, developers and others. It is a complex and broad area of law for property lawyers to contend with. The volume of case law on this topic is extensive. Scamell and Gasztowicz on Land Covenants, 2nd edition, is divided into three main parts: Part I – Restrictive Covenants; Part II – Positive and Negative Covenants; Part III: Planning Obligations. It also deals with the special position of local authorities in relation to land covenants, and has comprehensive coverage on freeing land from restrictions.

Custom, Land and Livelihood in Rural South China Patrick H. Hase,2013-04-01 Land was always at the centre of life in Hong Kong's rural New Territories: it sustained livelihoods and lineages and, for some, was a route to power. Villagers managed their land according to customs that were often at odds with formal Chinese law. British rule, 1898—1997, added complications by assimilating traditional practices into a Western legal system. Custom, Land and Livelihood in Rural South China explores land ownership in the New Territories, analysing over a hundred surviving land deeds from the late Ch'ing Dynasty to recent times, which are transcribed in full and translated into English. Together with other sources collected by the author during 30 years of research, these deeds yield information on all aspects of traditional village life—from raising families and making a living to coping with intruders—and evoke a view of the world which, despite decades of urbanisation, still has resonance today.

Commonwealth Caribbean Land Law Sampson Owusu,2020-11-26 The first textbook to address land law as it relates to the Commonwealth Caribbean, it encompasses all areas covered in an undergraduate course on the law of real property in

the Caribbean. Primary and secondary source material on the law of property in the whole of the Commonwealth Caribbean is made easily and readily accessible to law students and legal practitioners. Statutory provisions from all States are discussed in relation to each topic and the similarities and differences are highlighted. Extensive discussion and analysis of the decisions of the courts in the region are also included alongside an in-depth analysis and critical discussion of English case law that is relevant to the Caribbean. The examination of whether or not English case law should be followed in the region is relevant and interesting to anyone studying or practising law in other Commonwealth jurisdictions. Essential reading for undergraduate law students in the Caribbean, this text will also prove useful to those studying for the certificate of proficiency in the practice of law in the Commonwealth Caribbean, while the footnote references to statutory provisions are an invaluable aid to any researcher of Caribbean land law.

Professional Housing Management Practices in Hong Kong Rebecca Lai-Har Chiu, 2006-10-01 Professional housing management is of growing importance in Hong Kong and the Hong Kong management model is adopted in many neighbouring high-density cities. However, there has been by far no literature on the subject of housing management practices in Hong Kong. This book is therefore crucial in understanding how housing management makes significant contributions to the safety, viability, liveability and vibrancy of our high-density and high-rise environment. Since the late 1980s, housing education in this city has developed by leaps and bounds. A recent study found that over 3,000 junior practitioners would be seeking professional training or further study for career advancement. This book is an indispensable aid to self-study or taught courses.
